## **Recovery Of Truth:**

Truth Recovery and Transitional Justice Iosif Kovras, 2014-05-16 This book investigates why some societies defer transitional justice issues after successful democratic consolidation Despite democratisation the exhumation of mass graves containing the victims from the violence in Cyprus 1963 1974 and the Spanish civil war 1936 1939 was delayed until the early 2000s when both countries suddenly decided to revisit the past Although this contradicts the actions of other countries such as South Africa Bosnia and Guatemala where truth recovery for disappeared missing persons was a central element of the transition to peace and democracy Cyprus and Spain are not alone this is an increasing trend among countries trying to come to terms with past violence Truth Recovery and Transitional Justice considers the case studies of Spain and Cyprus and explores three interrelated issues First the book examines which factors can explain prolonged silence on the issue of missing persons in transitional settings It then goes on to explore the transformation of victims groups from opponents of truth recovery to vocal pro reconciliation pressure groups and examines the circumstances in which it is better to tie victims rights to an overall political settlement Finally the author goes on to compare Spain and Cyprus with Greece a country that remains resistant to post transitional justice norms This book will be of interest to students of transitional justice human rights peace and conflict studies and security studies in general

Truth Recovery and Justice after Conflict Marie Breen Smyth, 2007-10-18 This book considers the problem of managing the unfinished business of a violent past in societies moving out of political violence Truth Commissions are increasingly used to unearth the acts committed by the various protagonists and to acknowledge the suffering of their victims This book uniquely focuses on the conditions which predispose or p

*Truth recovery in Northern Ireland* Kirk Simpson, 2013-07-19 Northern Ireland has entered what is arguably the key phase in its troubled political history truth recovery and dealing with the legacy of the past yet the void in knowledge and the lack of academic literature with regard to victims rights is particularly striking This book newly available in paperback analyses truth recovery as a fundamental aspect of the transition from political violence to peace democracy and stability in post conflict Northern Ireland Kirk Simpson argues that it is essential for any process of truth recovery in Northern Ireland to provide the victims of political violence with the opportunity to express and articulate their narratives of suffering within the context of public dialogic processes He outlines a unique and original model that victims of political violence should be enabled to engage in meaningful truth recovery through a Habermasian process of public democratic deliberation and communication involving direct dialogue with the perpetrators of such violence This process of communicative justice is framed within Habermas's theory of communicative action and can help to ensure that legitimate truth recovery publicly acknowledges the trauma of victims and subjects perpetrator narratives of political violence to critical scrutiny and rational deconstruction Crucially the book aims to contribute to the empowerment of victims in Northern Ireland by stimulating constructive discussion and awareness of hitherto silenced narratives of the conflict This difficult and unsettling

interrogation and interpretation of the conflict from a comparatively unknown perspective is central to the prospects for critically examining and mastering the past in Northern Ireland

**Truth About Addiction and Recovery** Stanton Peele, Archie Brodsky, Mary Arnold, 1992-03-15 In this revolutionary analysis of addiction Peele and Brodsky draw on years of research to refute the contention that addictions are biologically based diseases that last a lifetime Examining addiction within the context of people's lives they show that addictive behavior is a way of coping with situational stress and that it can be overcome without medical treatment or 12 step groups

**Truth, Denial and Transition** Cheryl Lawther, 2018-10-08 Truth Denial and Transition Northern Ireland and the Contested Past makes a unique and timely contribution to the transitional justice field In contrast to the focus on truth and those societies where truth recovery has been central to dealing with the aftermath of human rights violations comparatively little scholarly attention has been paid to those jurisdictions whose transition from violent conflict has been marked by the absence or rejection of a formal truth process This book draws upon the case study of Northern Ireland where despite a lengthy debate the question of establishing a formal truth recovery process remains hotly contested The strongest and most vocal opposition has been from unionist political elites loyalist ex combatants and members of the security forces Based on empirical research their opposition is unpicked and interrogated at length throughout this book Critically exploring notions of national imagination and blamelessness the politics of victimhood and the tension between traditions of sacrifice and the fear of betrayal this book is the first substantive effort to concentrate on the opponents of truth recovery rather than its advocates This book will interest those studying truth processes and transitional justice in the fields of Law Politics and Criminology

disorder and their caretakers physicians and counselors      *Transitional Justice in Latin America* Elin Skaar, Jemima Garcia-Godos, Cath Collins, 2016-10-27 This book addresses current developments in transitional justice in Latin America effectively the first region to undergo concentrated transitional justice experiences in modern times Using a comparative approach it examines trajectories in truth justice reparations and amnesties in countries emerging from periods of massive violations of human rights and humanitarian law The book examines the cases of Argentina Brazil Chile Colombia Guatemala El Salvador Paraguay Peru and Uruguay developing and applying a common analytical framework to provide a systematic qualitative and comparative analysis of their transitional justice experiences More specifically the book investigates to what extent there has been a shift from impunity towards accountability for past human rights violations in Latin America Using thick but structured narratives which allow patterns to emerge rather than being imposed the book assesses how the quality timing and sequencing of transitional justice mechanisms along with the context in which they appear have mattered for the nature and impact of transitional justice processes in the region Offering a new approach to assessing transitional justice and challenging many assumptions in the established literature this book will be of enormous benefit to scholars and others working in this area      Identity, Reconciliation and Transitional Justice Nevin T. Aiken, 2013 Building upon an interdisciplinary synthesis of recent literature from the fields of transitional justice and conflict transformation this book introduces a groundbreaking theoretical framework that highlights the critical importance of identity in the relationship between transitional justice and reconciliation in deeply divided societies Using this framework Aiken argues that transitional justice interventions will be successful in promoting reconciliation and sustainable peace to the extent that they can help to catalyze those crucial processes of social learning needed to transform the antagonistic relationships and identifications that divide post conflict societies even after the signing of formal peace agreements Combining original field research and an extensive series of expert interviews Aiken applies this social learning model in a comprehensive examination of both the South African Truth and Reconciliation Commission and the uniquely decentralized approach to transitional justice that has emerged in Northern Ireland By offering new insight into the experiences of these countries Aiken provides compelling firsthand evidence to suggest that transitional justice interventions can best contribute to post conflict reconciliation if they not only provide truth and justice for past human rights abuses but also help to promote contact dialogue and the amelioration of structural and material inequalities between former antagonists Identity Reconciliation and Transitional Justice makes a timely contribution to debates about how to best understand and address past human rights violations in post conflict societies and it offers a valuable resource to students scholars practitioners and policymakers dealing with these difficult issues      **The Natural Truth of Christianity ...** John Smith, 1885
