Literature Review ,1986 *A Literature Review* President's Commission on Americans Outdoors (U.S.),1986 Whatever Happened to the Leisure Society? A. J. Veal,2018-10-10 The idea of a leisure society was in its heyday in the 1960s and 1970s when it was predicted that the pattern of falling working hours which had been experienced in Western societies in the first half of the twentieth century would continue indefinitely The leisure society has clearly not been realised On the contrary contemporary industrial societies seem to be characterised by a shortage of time experienced as time squeeze and stress The leisure society idea can be seen as the modern version of the age old dream of a life of ease and plenty This analytically and empirically rich book traces the idea in history through biblical classical Greek medieval and nineteenth century utopian writings and into twentieth century concerns with dystopia and the impact of rapid technological change The leisure society concept turns out to have been an elusive and short lived phenomenon For a variety of reasons the trend towards shorter working hours ran out of steam in the last quarter of the twentieth century However while leisure scholars have deserted the topic a diverse range of activists including environmentalists economists and feminists continue to make the case for reducing working hours *Whatever Happened to the Leisure Society* concludes that the on going struggle for time should be

supported for the sake of human health and well being and for the sake of the planet This is a valuable resource for students and academics in the fields of leisure studies cultural studies history economics sociology and political science **Time Use Research in the Social Sciences** Wendy E. Pentland,M. Powell Lawton,Andrew S. Harvey,Mary Ann McColl,2007-05-08 Despite the fact that for most of us time is a central focus of our lives the examination of what we do with our time and why has received limited attention as a method for understanding human behavior in the social sciences Humans view and use of time shows tremendous variation including across cultures and with age lifestyle and gender For many of us a sense of time is ever present We speak of time as a commodity a resource an ally an enemy and a gift It maybe on our side on our hands with us or against us We perceive it to change speeds dragging vs flying vs standing still and lest it get away on us we attempt to harness and control it with clocks schedules and deadlines We describe our use of time in a myriad of ways we spend it save it waste it kill it give it take it and grab it The impetus for this book grew from a three day research symposium where established time use researchers from a variety of disciplines from Canada the United States Finland Australia and New Zealand gathered together to merge their knowledge and resources to collaborate in examining the relationship between human time utilization and health and well being We gratefully acknowledge the financial support for the symposium received from the Government of Canada's Program for International Research Linkages and M Powell Lawton without whose support and encouragement this book would likely not exist **Quality of Life: Application to persons with disabilities** Robert L. Schalock,1996 Volume II focuses on how the concepts and research on quality of life can be applied to people with mental retardation *The Crisis in Urban Recreational Services* Jay Sanford Shivers,Joseph W. Halper,1981 An examination of the urban center and its recreational services with particular emphasis on the current crises in the city areas The authors deal with organizational difficulties environmental disintegration the power structure of today's cities and other relevant considerations and offer possible solutions to the urban recreational problem **Campus Recreational Sports Facilities** ,2009 Campus Recreational Sports Facilities covers the entire process of building a facility from initial planning through design construction and move in Recreational sport directors architects and other experts provide construction options and share industry standards guidelines procedures and more to help you navigate this complex process **Legislation and Regulations Affecting Scenic Overflights Above National Parks** United States. Congress. House. Committee on Public Works and Transportation. Subcommittee on Aviation,1995 Distributed to some depository libraries in microfiche Recreation Planning, Design, Funding & Marketing ,1984 **Recreation** ,1937 **Recreation 2000 Tri-state Strategy: Background and references** United States. Bureau of Land Management. Montana State Office,1990 **Sport in America, Volume II** David K. Wiggins,2009-11-11 Sport in America From Colonial Leisure to Celebrity Figures and Globalization Volume II presents 18 thought provoking essays focusing on the changes and patterns in American sport during six distinct eras over the past 400 years The selections are entirely different from those in the first volume discussing diverse

topics such as views of sport in the Puritan society of colonial New England gender roles and the croquet craze of the 1800s and the Super Bowl's place in contemporary sport Each of the six parts includes an introduction to the essays allowing readers to relate them to the cultural changes and influences of the period Readers will find essays on well known topics written by established scholars as well as new approaches and views from recent studies Suitable for use as a stand alone or supplemental text in undergraduate and graduate sport history courses Sport in America provides students with opportunities to examine selected sport topics in more depth realize a greater understanding of sport throughout history and consider the interrelationships of sport and other societal institutions Essays are arranged chronologically from the early American period to the present day to provide the proper historical context and offer perspective on changes that have occurred in sport over time Also a list of suggested readings provided in each part offers readers the opportunity to expand their thinking on the nature of sport throughout American history Essays on how Pinehurst Golf Course was created the interconnection between sport and the World War I military experience and discussion of sport icons such as Joe Louis Walter Camp Jackie Robinson and Cal Ripken Jr allow readers to explore sport as a reflection of the changing values and norms of society Sport in America From Colonial Leisure to Celebrity Figures and Globalization Volume II provides students and scholars with perspectives regarding the role of sport at particular moments in American history and gives them an appreciation for the complex intersections of sport with society and culture
