The Routledge Handbook of Events Stephen J. Page, Joanne Connell, 2014-10-14 The Routledge Handbook of Events explores and

critically evaluates the debates and controversies associated with this rapidly expanding discipline. It brings together leading specialists from a range of disciplinary backgrounds and geographical regions to provide state of the art theoretical reflection and empirical research on the evolution of the subject. It is the first major study to examine what events is as a discipline in the twenty first century its significance in contemporary society and growth as a mainstream subject area. The book is divided into five inter related sections. Section one evaluates the evolution of events as a discipline and defines what events studies is. Section two critically reviews the relationship between events and other disciplines such as tourism and sport. Section three focuses on the management of events. Section four evaluates the impacts of events from varying political, social and environmental perspectives and section five examines the future direction of growth in event related education and research. It offers the reader a comprehensive synthesis of this field conveying the latest thinking and research. The text will provide an invaluable resource for all those with an interest in Events Studies encouraging dialogue across disciplinary boundaries and areas of study.

Environmental Planning for Site Development Anne Beer, Cathy Higgins, 2004-03-01. Environmental planning forms the basis of all site development decisions and deals with the factors that must be considered before a site plan can be drawn up. Environmental Planning for Site Development emphasizes the man nature interface and explains how nature limits and controls what can happen on every piece of land. The text is clearly set out and will help the reader understand exactly what information is needed for a site planning proposal. The book includes a live case study to demonstrate how GIS systems are now assisting in the design and decision process as communities increasingly participate in local decisions. Local Agenda 21.

Geography and Geographers Ron Johnston, James D. Sidaway, 2015-12-22. Geography and Geographers continues to be the most comprehensive and up to date overview of human geography available. It provides a survey of the major debates, key thinkers and schools of thought in the English speaking world setting them within the context of economic, social, cultural, political and intellectual changes. It is essential reading for all undergraduate geography students. It draws on a wide reading of the geographical literature and addresses the ways geography and its history are understood and the debates among geographers regarding what the discipline should study and how. This extensively updated seventh edition offers a thoroughly contemporary perspective on human geography for new and more experienced students alike.

The Future of Events & Festivals Ian Yeoman, Martin Robertson, Una McMahon - Beattie, Elisa Backer, Karen A. Smith, 2014-08-13. The growth of events and festivals has been significant over the last decade and a wide range of skills are essential to ensure those events are successful. This requirement has been instrumental in stimulating the creation of more tertiary education opportunities to develop events management knowledge. As the discipline develops, knowledge requires direction in order to understand the changing advances in society. This is the first book to take a futures approach to understanding event management. A systematic and pattern based understanding is used to determine the likelihood of future events and trends. Using blue skies scenarios to provide a vision of the future of events not only capturing

how the events industry is changing but also important issues that will affect events now as well as the future Chapters include analysis of sustainability security impacts of social media design at both mega event and community level and review a good range of different types of events from varying geographical regions A final section captures the contributions of each chapter through the formation of a conceptual map for a future research agenda Written by leading academics in the field this ground breaking book will be a valuable reference point for educators researchers and industry professionals
