Rectal Cancer Aspects Of Surgery And Radiotherapy:

Rectal Cancer Michael Dahlberg, 1999 **Modern Management of Cancer of the Rectum** James G. Geraghty, 2001

Modern Management of Cancer of the Rectum provides a comprehensive overview of all aspects of rectal neoplasms. It addresses such topics as epidemiology, biology, screening and chemoprevention, the role of imaging in diagnosis, staging and prognosis, radiation therapy, medical and surgical treatment as well as new modalities of therapy including laparoscopy and transanal endoscopic surgery. A greater understanding of prognostic factors, patterns of spread and natural history has occurred during the past decade together with new diagnostic modalities; this has led to significant changes in the management of patients with rectal cancer.

Rectal Cancer Gian Gaetano Delaini, 2006-01-26

Despite lifestyle improvements, the incidence of rectal cancer is increasing in industrialised countries. Rapid advances in technology, growing knowledge of the biological history of the disease and closer attention to patients' quality of life after surgery have led to a less invasive approach. In the last 15 years, the surgical approach has shifted from extended resection to sphincter-saving procedures featuring a multidisciplinary approach and a high level of specialisation. The experienced surgeon can plan and choose the right treatment for the right patient only with the support of the radiologist, endoscopist and pathologist, preoperative staging, oncologist and radiotherapist, neoadjuvant therapy and psychologist and stomatherapist, rehabilitation. In addition, the difficult problems of salvage procedure and the reconstruction of anal sphincter after abdominal resection are explored. The aim of this book is to clarify the rapid advances and to offer guidelines for doctors dealing with rectal cancer. Taking into account indications, contraindications, risks, benefits and controversies, the authors offer clear and practice-oriented answers for a wide range of specialists and experts as well as those new to the field.

Early Gastrointestinal Cancers II: Rectal Cancer Florian Otto, Manfred P. Lutz, 2014-08-07

This Recent Results in Cancer Research volume provides an up-to-date overview of the multidisciplinary management of locally confined rectal cancer as well as colorectal cancer with synchronous resectable liver metastases.
