Red Black Blond Olive Studies In Four:

Red and Black in Haiti Matthew J. Smith, 2009-05-15 In 1934 the republic of Haiti celebrated its 130th anniversary as an independent nation In that year too another sort of Haitian independence occurred as the United States ended nearly two decades of occupation In the first comprehensive political history of postoccupation Haiti Matthew Smith argues that the period from 1934 until the rise of dictator Francois Papa Doc Duvalier to the presidency in 1957 constituted modern Haiti s greatest moment of political promise Smith emphasizes the key role that radical groups particularly Marxists and black nationalists played in shaping contemporary Haitian history These movements transformed Haiti s political culture widened political discourse and presented several ideological alternatives for the nation s future They were doomed however by a combination of intense internal rivalries pressures from both state authorities and the traditional elite class and the harsh climate of U S anticommunism Ultimately the political activism of the era failed to set Haiti firmly on the path to a strong independent future

Migrant Revolutions Valerie Kaussen, 2008-01-01 Migrant Revolution offers an overview of twentieth century Haitian literature placing its rich tradition in the context of transnational anti colonial politics Kaussen argues that the anti colonial politics of Haitian modernist literature is based on the philosophies of human rights that drove the Haitian Revolution and further that Haitian literary modernity has continually challenged the world colonial order including the contemporary era of globalization

Ordered Universes Morton Klass, 2018-02-02 This innovative introduction to the anthropological study of religion challenges traditional categories and assumptions arguing that too many of them reflect ethnocentric perspectives long discarded by contemporary anthropologists The continued use of such terms as supernatural and cult inescapably communicates that what is under study is not as real or true as the beliefs of the observer This conflict between the axioms of science and Western scholarship and those of the belief systems under study can be avoided with careful attention to terminology and underlying assumptions

Ordered Universes introduces and explores important anthropological issues concerns and findings about the institution of religion approached as a human cultural universal Klass applies a non ethnocentric perspective to each topic relying on contemporary anthropological theories and using approaches deriving from other subdivisions of the discipline Offering operational non judgmental definitions that avoid taking a position on whether the belief under study is true and providing examples from ethnographic and other literature on religion Klass explores values beliefs witchcraft shamans sacrifice ghosts revitalization and many other concepts In the final chapters he considers the emergence of new religious movements and leaders and evaluates the continuing ideological conflict between proponents of scientific fundamentalist and post rationalist systems of thought

Ritual Masks Henry Pernet,2006-03-01 Ritual masking is an important institution in many traditional societies and has attracted much attention from Western scholars In *Ritual Masks* Pernet provides a thorough survey of masks and masking traditions in Africa Oceania and the Americas based on a close analysis of the literature in several languages Pernet s approach provides him with an opportunity to examine issues of importance to the history of religion and anthropology These include the influence of theory on the interpretation of prehistoric documents androcentrism in anthropology and the history of religions and Western scholarship s recurrent problems in interpreting preliterate or traditional societies

Zuni and the American Imagination Eliza McFeely,2025-08-22 A bold new study of the Zuni of the first anthropologists who studied them and of the effect of Zuni on America s sense of itself The Zuni society existed for centuries before there was a United States and it still exists in its desert pueblo in what is now New Mexico In the late nineteenth century anthropologists among the first in this new discipline came to Zuni to study it and they believed to salvage what they could of its tangible culture before it was destroyed which they were sure would happen Matilda Stevenson Frank Hamilton Cushing and Stewart Culin were the three most important of these early students of Zuni and although modern anthropologists often disparage and ignore their work sometimes for good sometimes for poor reasons these pioneers gave us an idea of the power and significance of Zuni life that has endured into our time They did not expect the Zuni themselves to endure but they have and the complex relation between the Zuni as they were and are and the Zuni as imagined by these three Easterners is at the heart of Eliza McFeely s important new book Stevenson Cushing and Culin are themselves remarkable subjects not just as anthropology s earliest pioneers but as striking personalities in their own right and McFeely gives ample consideration in her colorful and absorbing study to each of them For different reasons all three found professional and psychological satisfaction in leaving the East for the West in submerging themselves in an alien and little known world and in bringing back to the nation s new museums and exhibit halls literally thousands of Zuni artifacts Their doctrines about social development their notions of salvage anthropology their cultural biases and predispositions are now regarded with considerable skepticism but nonetheless their work imprinted Zuni on the American imagination in ways we have yet to measure It is the great merit of McFeely s fascinating work that she puts their intellectual and personal

adventures into a just and measured perspective she enlightens us about America about Zuni and about how we understand each other Haiti and the Uses of America Chantalle F. Sugar Island Slavery in the Age of Enlightenment Arthur L. Stinchcombe, 1995-12-11 Plantations especially sugar plantations created slave societies and a racism persisting well into post slavery periods so runs a familiar argument that has been used to explain the sweep of Caribbean history Here one of the most eminent scholars of modern social theory applies this assertion to a comparative study of most Caribbean islands from the time of the American Revolution to the Spanish American War Arthur Stinchcombe uses insights from his own much admired Economic Sociology to show why sugar planters needed the help of repressive governments for recruiting disciplined labor Demonstrating that island to island variations on this theme were a function of geography local political economy and relation to outside powers he scrutinizes Caribbean slavery and Caribbean emancipation movements in a world historical context Throughout the book Stinchcombe aims to develop a sociology of freedom that explains a number of complex phenomena such as how liberty for some individuals may restrict the liberty of others Thus the autonomous governments of colonies often produced more oppressive conditions for slaves than did so called arbitrary governments which had the power to restrict the whims of the planters Even after emancipation freedom was not a clear cut matter of achieving the ideals of the Enlightenment Indeed it was often a route to a social control more efficient than slavery providing greater flexibility for the planter class and posing less risk of violent rebellion

The Feud Alex Beam, 2016-12-06 The Feud is the deliciously ironic and sad tale of how two literary giants destroyed their friendship in a fit of mutual pique and egomania In 1940 Edmund Wilson was the undisputed big dog of American letters Vladimir Nabokov was a near penniless Russian exile seeking asylum in the States Wilson became a mentor to Nabokov introducing him to every editor of note assigning him book reviews for The New Republic engineering a Guggenheim Fellowship Their intimate friendship blossomed over a shared interest in all things Russian ruffled a bit by political disagreements But then came the worldwide best selling novel Lolita and the tables were turned Suddenly Nabokov was the big and very rich dog The feud finally erupted in full when Nabokov published his hugely footnoted and virtually unreadable literal translation of Pushkin's famously untranslatable verse novel Eugene Onegin Wilson attacked his friend's translation with hammer and tongs in The New York Review of Books Nabokov counterattacked Back and forth the increasingly aggressive letters flew until the narcissism of small differences reduced their friendship to ashes Alex Beam has fashioned this clash of literary titans into a delightful and irresistible book a comic contretemps of a very high order and a poignant demonstration of the fragility of even the deepest of friendships With black and white illustrations throughout

Love and Russian Literature Ira Nadel, 2023-11-30 Russia haunted the British cultural imagination throughout the 20th century whether as a romantic source of literary and political inspiration or as a

warning of creeping totalitarianism In this new book Ira Nadel charts the story of that influence through the work of some of the key figures in British literature across the century including Joseph Conrad Somerset Maugham Jane Harrison Virginia Woolf and H G Wells Framed by the story of two romantic encounters between Walter Benjamin and the actress Asja Lacis in Moscow in 1926 and between Isaiah Berlin and Anna Akhmatova in 1945 Love and Russian Literature casts a vivid new light on the ways in which responses to Russia shaped the history of British modernism *American Literature from the 1850s to 1945* Adam Augustyn Assistant Manager and Assistant Editor, Literature, 2010-08-15 Explores the works writers and movements that shaped the American literary canon from the end of the nineteenth century through the first half of the twentieth *Antonio Candido* Antonio Candido, 2014-07-14 Here Howard Becker makes available for an English speaking audience a collection of the provocative work of Antonio Candido one of the leading men of letters in Brazil Trained as a sociologist Candido conceives of literature as a social project and is equally at home in textual analyses discussions of literary theory and sociological anthropological and historical argument It would be impossible to overstate his impact on the intellectual life of his own country and on Latin American scholars who can read Portuguese but he is little known in the rest of the world In literary women s and cultural studies as well as in sociology this book contributes a sophisticated and unusual perspective that will dazzle readers unfamiliar with Candido s work Emphasizing the breadth of Candido s interests the essays include those on European literature Dumas Conrad Kafka and Cavafy for example on Brazilian literature Machado de Assis and others on Brazilian cultural life and politics and on general problems of criticism the relations between sociology and criticism and the problem of literature in underdeveloped countries Of particular interest is a long piece on Teresina Carini Rocchi an Italian immigrant to Brazil who was a lifelong socialist Originally published in 1995 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 In the Shadow of Powers Patrick Bellegarde-Smith, 2021-04-30 Out of a slave rebellion Haiti was forged as an independent nation This fact in and of itself should have been enough to perpetuate an image of Haitians as strong and agentive people But leaders of countries on both sides of the Atlantic felt threatened by Haiti s beginnings and were intent on sapping it of resources More than a century of various restrictions on trade the imposition of crippling fines and eventually a US occupation followed Yet even as they suffered economically under these penalties Haitians persisted some of them becoming influential actors in the world of global politics Throughout much of the twentieth century and even to this day there has been a dearth of scholarship on the intellectual and political contributions of Haitians In the Shadow of Powers first published in 1985 was a corrective to this oversight and remains a foundational text Bellegarde Smith traces the history of

Haiti through the life and career of his grandfather Dant s Bellegarde one of Haiti s influential diplomats and preeminent thinkers As Brandon R Byrd describes in his foreword to this new edition Bellegarde was driven by a subversive racially inclusive vision of civilized progress He believed in and continued to push for Haiti to establish an existence for itself black people and the colonized world independent of the considerable shadow cast by the world s military economic and industrial powers Scholars and students who want to learn about the intellectual and political foundations of Haiti its influence on other intellectuals worldwide and its struggles against imperialism continue to find this to be an invaluable classic *The Palgrave Handbook of Cold War Literature* Andrew Hammond,2020-09-04 This book offers a comprehensive guide to global literary engagement with the Cold War Eschewing the common focus on national cultures the collection defines Cold War literature as an international current focused on the military and ideological conflicts of the age and characterised by styles and approaches that transcended national borders Drawing on specialists from across the world the volume analyses the period s fiction poetry drama and autobiographical writings in three sections dominant concerns socialism decolonisation nuclearism propaganda censorship espionage common genres postmodernism socialism realism dystopianism migrant poetry science fiction testimonial writing and regional cultures Asia Africa Oceania Europe and the Americas In doing so the volume forms a landmark contribution to Cold War literary studies which will appeal to all those working on literature of the 1945 1989 period including specialists in comparative literature postcolonial literature contemporary literature and regional literature *Contemporary Literary Critics* NA NA,2015-12-25 A reference guide to the work of 115 modern British and American critics
