Red Brotherhood at War Grant Evans, Kelvin Rowley, 1990 Red Brotherhood at War Grant Evans, Kelvin Rowley, 1984-01-01 **Red Brotherhood at War** Grant Evans, Kelvin Rowley, 1984 *Red Brotherhood at War* Grant Evans, Kelvin Rowley, 1984-01 Genocide in Cambodia and Rwanda Susan E. Cook, 2017-07-05 This volume deals with aspects of genocide in Rwanda and Cambodia that have been largely unexplored to date including the impact of regional politics and the role played by social institutions in perpetrating genocide Although the story of the Cambodian genocide of 1975 1979 and that of the Rwandan genocide of 1994 have been written about in detail most have focused on how the genocides took place what the ideas and motives were that led extremist factions to attempt to kill whole sections of their country's population and who their victims were This volume builds on our understanding of genocide in Cambodia and Rwanda by bringing new issues sources and approaches into focus The chapters in this book are grouped so that a single theme is explored in both the Cambodian and Rwandan contexts their ordering is designed to facilitate comparative analysis The first three chapters emphasize the importance of political discourse in the genocidal process Chapters 4 and 5 examine social institutions and explore their role in the genocidal process Chapters 6 and 7 describe the military trajectories of the genocidal regimes in Cambodia and Rwanda after their overthrow showing that genocide and genocidal intents as a political program do not cease the moment the massacres subside The final chapters deal with private and public efforts to memorialize the genocides in the months and years following the killing Drawing on ten years of genocide studies at Yale this excellent anthology assembles high quality new research from a variety of continents disciplines and languages It will be an important addition to ongoing research on genocide Red Internationalism Salar Mohandesi, 2023-02-23 Shows how human rights displaced anti imperialism as the dominant framework for changing the world in the 1960s and 1970s The Routledge History of Genocide Cathie Carmichael, Richard C. Maguire, 2015-05-01 The Routledge History of Genocide takes an interdisciplinary yet historically focused look at history from the Iron Age to the recent past to examine episodes of extreme violence that could be interpreted as genocidal Approaching the subject in a sensitive inclusive and respectful way each chapter is a newly commissioned piece covering a range of opinions and perspectives The topics discussed are broad in variety and include genocide and the end of the Ottoman Empire Stalin and the Soviet Union Iron Age warfare genocide and religion Japanese military brutality during the Second World War heritage and how we remember the past The volume is global in scope something of increasing importance in the study of genocide Presenting genocide as an extremely diverse phenomenon this book is a wide ranging and in depth view of the field that will be valuable for all those interested in the historical context of genocide *Experiments with Marxism-Leninism in Cold War Southeast Asia* Matthew Galway, Marc H. Oppen, 2022-09-21 One of the most contentious theatres of the global conflict between capitalism and communism was Southeast Asia From the 1920s until the end of the Cold War the region was racked by international and internal wars that

claimed the lives of millions and fundamentally altered societies in the region for generations Most of the 11 countries that compose Southeast Asia were host to the development of sizable communist parties that actively and sometimes violently contested for political power These parties were the object of fierce repression by European colonial powers post independence governments and the United States Southeast Asia communist parties were also the object of a great deal of analysis both during and after these conflicts This book brings together a host of expert scholars many of whom are either Southeast Asia based or from the countries under analysis to present the most expansive and comprehensive study to date on ideological and practical experiments with Marxism Leninism in Southeast Asia The bulk of this edited volume presents the contents of these revolutionary ideologies on their own terms and their transformations in praxis by using primary source materials that are free of the preconceptions and distortions of counterinsurgent narratives A unifying strength of this work is its focus on using primary sources in the original languages of the insurgents themselves

Cultures at War

Tony Day, Maya H. T. Liem, 2018-08-06 The Cold War in Southeast Asia was a many faceted conflict driven by regional historical imperatives as much as by the contest between global superpowers The essays in this book offer the most detailed and probing examination to date of the cultural dimension of the Cold War in Southeast Asia Southeast Asian culture from the late 1940s to the late 1970s was primarily shaped by a long standing search for national identity and independence which took place in the context of intense rivalry between the United States and the Soviet Union with the Peoples Republic of China emerging in 1949 as another major international competitor for influence in Southeast Asia Based on fieldwork in Burma Indonesia Laos Malaysia the Philippines Singapore Thailand and Vietnam the essays in this collection analyze the ways in which art literature film theater spectacle physical culture and the popular press represented Southeast Asian responses to the Cold War and commemorated that era s violent conflicts long after tensions had subsided Southeast Asian cultural reactions to the Cold War involved various solutions to the dilemmas of the newly independent nation states of the region What is common to all of the perspectives and works examined in this book is that they expressed social and aesthetic concerns that both antedated and outlasted the Cold War ones that never became simply aligned with the ideologies of either bloc Contributors Francisco B Benitez University of Washington Bo Bo Burmese writer SOAS University of London Michael Bodden University of Victoria Simon Creak Australian National University Gaik Cheng Khoo Australian National University Rachel Harrison SOAS University of London Barbara Hatley University of Tasmania Boitran Huynh Beattie Asiarta Foundation Jennifer Lindsay Australian National University

American-Vietnamese Relations in the Wake of War

Cécile Menétrey-Monchau, 2017-02-10 When the Vietnam War ended with the North Vietnamese capture of Saigon on April 30 1975 27 months after a cease fire had been signed in Paris the differences between the United States and Vietnam were far from being resolved Mutual bitterness regarding the war remained Newly unified Vietnam wanted normalization of relations and the subsequent economic reconstruction aid promised in the Paris Peace Accords Understandably wary of such

diplomatic relations the United States requested information regarding soldiers listed as missing in action and assistance with the repatriation of military remains A series of misconceptions and misunderstandings as well as changes from a regional to a global U S foreign policy left both countries bereft of an easy solution This book describes the negotiations during the late Ford and early Carter administrations 1975 1979 and discusses the repercussions the diplomatic stalemate had on the domestic and international politics of the United States and Vietnam emphasizing the conflicting priorities and political goals of both countries at home and abroad This previously neglected period in United States Vietnam relations deals with issues such as Hanoi s constant exultation over the victory American denial of responsibility the division between the presidents public declarations and congressional policies and both sides use of the MIA issue Based primarily on recently declassified documents and former U S official Douglas Pike s uncensored collection the work also makes use of media press sources from America Vietnam Britain France and China Interviews with Vietnamese immigrants and former U S politicians provide insight unavailable in written histories Appendices contain the February 1973 correspondence between President Nixon and the Prime Minister of the Democratic Republic of Vietnam six diplomatic notes from 1976 and a January 30 1979 letter from President Carter to Chinese Vice Premier Deng Xiaoping The Price of War Nigel Thrift, Dean Forbes, 2012-11-12 Much rare material is incorporated in this unique account of urbanization in a developing country that was ravaged by war for twenty years With due emphasis on the experience of Hanoi and Ho Chi Minh City Saigon the authors present an account of what happened to the towns and cities of Vietnam between the establishment of Ho Chi Minh s socialist state in 1954 and the mid 1980s The story is introduced through a general theoretical and empirical account of urbanization in socialist Third World countries The book stresses the importance of the turmoil created by warfare in directing urbanization but it also refers to the more conventionally studied determinants of the process such as the institution of a planned economy As one of the few books highlighting the impact of warfare on urban settlements The Price of War will interest all those interested in urbanization development and South East Asia This book was first published in 1986 *The Third Indochina War* Odd Arne Westad, Sophie Quinn-Judge, 2006-09-27 This new collection explores the origins and key issues of the Third Indochina War which began in 1979 Drawing on unique documentation from all sides leading contributors reinterpret and demystify the long term and immediate causes of the Vietnamese Cambodian and Sino Vietnamese conflicts They closely examine how both the links between policies and policy assumptions in the countries involved and the dynamics national regional and international drove them towards war Rather than explaining the conflicts as determined by age old resentments and suspicions or seeing war between the former allies as the necessary outcome of the conflicts of the 1970s the contributors to this volume look at the concrete causes for the breakdown in cooperation and the road to war This volume includes even handed assessments of the roles of the major players including a look at the beginnings of Thai Chinese military cooperation in support of the Khmer Rouge The subjects covered remain highly relevant to inter state relations in

South East Asia where border issues are still a cause of tension An updated chronology of events leading to the outbreak of hostilities is also included This book will be of immense interest to all students of the Third Indochina War Southeast Asian history and of international relations and war studies in general

The Arms Dynamic in South-East Asia During the Second Cold War Mark. G. Roll, 2017-11-30 This title was first published in 2002 This work uses the concept of the arms dynamic to identify and assess the various factors which influenced arms acquisitions of Southeast Asian states during the second Cold War period from 1979 to 1989 providing an essential basis for understanding contemporary developments The book provides a comprehensive and systematic explanation of the reasons for arms purchases in SE Asia during the 1980s and aims to fill a gap in the literature by fully exploring arms procurement processes in the region prior to the end of the Cold War

War Plan Red Peter Sasgen, 2004-12-01 THE GREATEST DANGER HIDES IN THE DEPTHS OF DECEIT In a Murmansk hotel a U S naval officer is found dead along with a young Russian sailor in what is labeled a murder suicide but American navy commander Jake Scott thinks otherwise Assigned to escort the dead officer's body back to the United States Scott discovers that his predecessor had uncovered a secret that cost him his life and may cost Scott even more Aided by alluring weapons expert Alexandra Thorne Jake uncovers a conspiracy of betrayal terror and vengeance intended to target a tense summit meeting of the American and Russian presidents Taking the helm of a Russian sub Scott must race against the clock and face off against an unseen enemy under the waves if he hopes to prevent a nuclear strike that could ignite World War III

The Red Flag David Priestland, 2016-05-03 The best and the most accessible one volume history of communism now available A far reaching vividly written account Foreign Affairs In The Red Flag Oxford professor David Priestland tells the epic story of a movement that has taken root in dozens of countries across two hundred years from its birth after the French Revolution to its ideological maturity in nineteenth century Germany to its rise to dominance and subsequent fall in the twentieth century Beginning with the first modern Communists in the age of Robespierre Priestland examines the motives of thinkers and leaders including Marx Engels Lenin Stalin Castro Che Guevara Mao Ho Chi Minh Gorbachev and many others Priestland also shows how Communism in all its varieties appealed to different societies for different reasons in some as a response to inequalities and in others more out of a desire to catch up with the West But paradoxically while destroying one web of inequality Communist leaders were simultaneously weaving another It was this dynamic together with widespread economic failure and an escalating loss of faith in the system that ultimately destroyed Soviet Communism itself At a time when global capitalism is in crisis and powerful new political forces have arisen to confront Western democracy The Red Flag is essential reading if we are to apply the lessons of the past to navigating the future Detailed and scholarly but written in lively prose this is a rich satisfying account of the most successful utopian political movement in history Publishers Weekly starred review

Historical Dictionary of Vietnam Bruce M. Lockhart, William J. Duiker, 2006-02-27 Vietnam became part of French Indochina in 1887 and did not regain its independence again until after the Vietnam War However despite a relatively peaceful two decades the country experienced little economic growth because of conservative leadership policies In an effort to change this stagnation Vietnamese authorities have committed to economic liberalization and enacted structural reforms needed to modernize the economy and to produce more competitive export driven industries The third edition of this dictionary focuses on the recent changes and leadership of Vietnam while giving due attention to the earlier kingdoms the period of French Indochina the wars for liberation the Vietnam War and much more Hundreds of cross referenced A to Z dictionary entries are included on political economic social and cultural aspects as well as the major cities and geographic features This book also contains a chronology and introduction that traces Vietnam s history as well as a bibliography

Massacres and Morality Alex J. Bellamy, 2012-09-27 Most cultural and legal codes agree that the intentional killing of civilians whether in peacetime or war is prohibited This is the norm of civilian immunity widely considered to be a fundamental moral and legal principle Yet despite this fact the deliberate killing of large numbers of civilians remains a persistent feature of global political life What is more the perpetrators have often avoided criticism and punishment Examining dozens of episodes of mass killing perpetrated by states since the French Revolution late eighteenth century this book attempts to explain this paradox It studies the role that civilian immunity has played in shaping the behaviour of perpetrators and how international society has responded to mass killing The book argues that although the world has made impressive progress in legislating against the intentional killing of civilians and in constructing institutions to give meaning

to that prohibition the norm's history in practice suggests that the ascendancy of civilian immunity is both more recent and more fragile than might otherwise be thought. In practice decisions to violate a norm are shaped by factors relating to the norm and the situation at hand so too is the manner in which international society and individual states respond to norm violations. Responses to norm violations are not simply matters of normative obligation or calculations of self interest but are instead guided by a combination of these logics as well as perceptions about the situation at hand existing relations with the actors involved and power relations between actors holding different accounts of the situation. Thus whilst civilian immunity has for the time being prevailed over anti civilian ideologies which seek to justify mass killing it remains challenged by these ideologies and its implementation shaped by individual circumstances. As a result whilst it has become much more difficult for states to get away with mass murder it is still not entirely impossible for them to do so.
