Vladimir Kontorovich

Red Forge The Soviet Military Industry Since 1965:

Red Forge Peter Almquist,1990 Examines the Soviet defense industry since 1965 especially the views of certain specialists the weapons designers and scientists and ministry officials The Soviet Defence Industry Complex from Stalin to Krushchev J. Barber,M. Harrison,1999-12-08 The huge complex of Soviet institutions and enterprises specialised in military production powerfully influenced the course of the twentieth century through resistance to imperial Japan the defeat of Nazi Germany and nuclear stalemate with America in the Cold War Based on collaborative research by Russian and British scholars in the hitherto secret archives of the Soviet government party and armed forces this book is a pioneering investigation of the economic dynamics and social and political significance of Soviet defence **Industrial Policy in Europe after 1945** C. Grabas,A. Nützenadel,2014-03-31 Bringing together renowned scholars in the field with younger researchers this interdisciplinary study of the history of post war industrial policy in Europe investigates transfers across borders and locates industrial policy in the context of the Cold War from a global perspective *Unified Military Industries of the Soviet Bloc* Pál Germuska,2015-02-17 This book draws a subtle picture of Warsaw Pact economic and military cooperation by presenting a complete branch the military industry from the perspective of a smaller member state Hungary It demonstrates that the military industry s cooperation played a crucial role in the development of economic integration within the Soviet Bloc and it was in this sector that the strongest most efficient integration was established The book builds on recently declassified documentation from Soviet led international economic organizations to give insight into the backstage debates of partner states to shed light on the intensive conflicts and clashes of interests between the nations and to highlight the bureaucratic decision making of the Eastern bloc s supranational organ The transnational analysis is supplemented by the presentation of the national viewpoint how Hungary intended to vindicate its interests what measures Budapest took to optimize international cooperation and what kind of new markets were discovered outside the Warsaw Pact

Soviet Military Power In A Changing World Susan L Clark,2019-06-04 Many people have been instrumental in helping see this book through to completion First I want to thank Robbin Laird not only for his professional encouragement over the years but especially for his suggestion to do this book in the first place Nor would this effort have been possible or nearly as enjoyable without the support and friendship of Susan McEachern I would also like to thank Jackie Evans for her assistance in helping to prepare the manuscript The Economics of the Global Defence Industry Keith Hartley,Jean Belin,2019-11-08 This book makes an original contribution to our knowledge of the world s major defence industries Experts from a wide range of different countries from the major economies of North America and Western Europe to developing economies and some unique cases such as China India Singapore South Africa and North Korea describe and analyse the structure conduct and performance of the defence industry in that country Each chapter opens with statistics on a key nation s defence spending its spending on defence R D and on procurement over the period 1980 to 2017 allowing for an analysis of

industry changes following the end of the Cold War After the facts of each industry the authors describe and analyse the structure conduct and performance of the industry The analysis of structure includes discussions of entry conditions domestic monopoly oligopoly structures and opportunities for competition The section on conduct analyses price non price competition including private and state funded R D and performance incorporates profitability imports and exports together with spin offs and technical progress The conclusion explores the future prospects for each nation s defence industry Do defence industries have a future What might the future defence firm and industry look like in 50 years time This volume is a vital resource and reference for anyone interested in defence economics industrial economics international relations strategic studies and public procurement *Problems of Communism* ,1991 Reluctant Cold Warriors Vladimir Kontorovich,2019-09-02 Scholars attribute the collapse of the Soviet Union in part to the militarization of its economy But during the Cold War economic studies of the USSR largely neglected the military sector of the Soviet economy its dominant and most successful part This is all the more puzzling in that academic study of the Soviet economy in the US was specifically created to help fight the Cold War If the rival superpower maintained the peacetime war economy why did experts fail to tell us when it mattered Vladimir Kontorovich shows how Western economists came up with strained non military interpretations of several important aspects of the Soviet economy which the Soviets themselves acknowledged to have military significance Such civilianization suggests that the neglect of the military sector was not forced on scholars of the Soviet economy by secrecy it was their choice The explanation of this choice in *Reluctant Cold Warriors* raises many questions about the internal workings of economic Sovietology and its intellectual and political background Are peripheral academic fields mimicking the agenda of the discipline s mainstream more likely to produce faulty scholarship Did the search for the essence of socialism distract researchers from the actual Soviet economy Were economic Sovietologists under political pressure and if so in what direction This book answers these questions in a way that has broad relevance for national security uses of social science today **The DISAM Journal of International Security Assistance Management** ,1992 Challenge to Apollo Asif A. Siddiqi,2000 **Conversion of the Defense Industry in the Former Soviet Union** Thierry Malleret,1992 *The American Bibliography of Slavic and East European Studies* Patt Leonard,Rebecca Routh,2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology **The Economics Of Coercion And Conflict** Mark Harrison,2014-10-17 The papers brought together in this volume represent a decade of advances in the historical political economy of defence dictatorship and warfare They address defining events and institutions of the world in the twentieth century economic consequences of repression and violence the outcomes of two world wars and the rise and fall of communism They cross traditional disciplinary boundaries combining a broad sweep with close attention to measurement and narrative detail offering insights into these issues from economics

history political science and statistics and demonstrating in action the value of a multi disciplinary approach The author was one of the first economists to leverage the opening of former Soviet archives He has led international projects that reinvented the quantitative economics of the two world wars and contributed significantly to historical Soviet studies In 2012 he shared with Andrei Markevich the Russian National Prize for Applied Economics which was awarded in recognition of their research

The Totalitarian Paradigm after the End of Communism, 2022-06-08 Concepts of totalitarianism have undergone an academic revival in recent years particularly since the breakdown of communist systems in Europe in 1989 91 the totalitarian paradigm so it seems to many scholars today had been discarded prematurely in the heat of the Cold War The demise of communism as a social system is however not only an important cause of the recurring attractiveness of the totalitarian paradigm but provides at the same time new evidence and correspondingly new problems of explanation for all approaches in communist studies and totalitarianism theory in particular This book contains articles by philosophers social scientists and historians who reassess the validity of the totalitarian approach in the light of the recent historical developments in Eastern Europe A first group of authors focus on the analytical usefulness and explanatory power of classic concepts of totalitarianism after having observed the failed reforms of the Gorbachev era and the collapse of Europe s communist systems in 1989 91 In these contributions the totalitarian paradigm is contrasted with other approaches with respect to cognitive power as well as normative implications In the second group of contributions the focus is on the reassessment of methodological and theoretical problems of the classic concepts of totalitarianism The authors attempt to reinterpret the classic concepts so as to meet the objections which have been put forward against those concepts during the last decades The study thereby traces some of the intellectual roots of the totalitarian paradigm that precede the outbreak of the Cold War such as the work of Sigmund Neumann and Franz Borkenau It also focuses on the most famous authors in the field Hannah Arendt and Carl Joachim Friedrich In addition it discusses theorists of totalitarianism like Juan Linz whose contributions to totalitarianism theory have too often been overlooked

The Sources Of Russian Foreign Policy After The Cold War Celeste A Wallander, Anne Wildermuth, 2019-07-11 In this timely and pathbreaking volume scholars in comparative politics and international relations build upon earlier theoretical work on the interaction of domestic and international systems applying it innovatively to the study of post Soviet Russian policy and conduct Individual chapters focus on regime type leadership politics interest group politics nationalism as ideology international conflict and threat and international economic opportunities and constraints The complex interplay between domestic and international factors is highlighted Exploring both the origins and the outcomes of Russian policy and behavior this book provides a telling measure of the direction and significance of political change since 1991

The End of the Cold War David Armstrong, Erik Goldstein, 2013-11-05 Giving an overview of the origins and history of the Cold War this work considers whether the Cold War is truly over and what the effects have been on Europe and the former Soviet Union as well as US foreign policy

Communist Parties Revisited Rüdiger Bergien, Jens Gieseke, 2018-01-31 The ruling communist parties of the postwar Soviet Bloc possessed nearly unprecedented power to shape every level of society perhaps in part because of this they have been routinely depicted as monolithic austere and even opaque institutions Communist Parties Revisited takes a markedly different approach investigating everyday life within basic organizations to illuminate the inner workings of Eastern Bloc parties Ranging across national and transnational contexts the contributions assembled here reconstruct the rituals of party meetings functionaries informal practices intra party power struggles and the social production of ideology to give a detailed account of state socialist policymaking on a micro historical scale **Routledge Handbook of Russian Security** Roger E. Kanet, 2019-01-15 The Routledge Handbook of Russian Security offers a comprehensive collection of essays on all aspects of Russian security and foreign policy by international scholars from across the world The volume identifies key contemporary topics of research and debate and takes into account the changes that have occurred in the study of Russian security strategy since the end of the Cold War The handbook is organised into five sections The theory and nature of Russian security policy The domestic and foreign policy nexus Instruments used by Russia in pursuing its security Global and regional aspects of Russian security and foreign policy Case studies of Russian involvement in a series of security conflicts The book concludes with case studies of the major examples of Russian involvement and operations in a series of security conflicts including that in Georgia the intervention in Ukraine and occupation of Crimea and the ongoing Civil War in Syria This volume will be of great interest to students of Russian security strategic studies foreign policy European politics and International Relations in general **European Industrial Policy** James Foreman-Peck, Giovanni Federico, 1999 At the end of the 20th century with stagnating industrial output unemployment in many European countries has climbed to levels not seen since the 1930s Interventionist industrial policies thus find new popularity after the gentle flirtation with liberalization in the early 1990s Under the Maastricht Treaty the European Union was granted industrial policy powers for the first time The present study aims to contribute to an understanding of European industrial policy by introducing an historical perspective National policy continuities and the considerable time over which industrial performance responds to changed environments emerge with greater clarity in the long run The chapters in this book take a broad view of industrial policy including those policies that establish the framework such as competition law as well as sector for firm specific policies The overall conclusion is that improved framework policies such as liberalization and re regulation are still essential Monetary union in the core will increase tensions arising from economic inflexibility Although there are often strong political barriers blocking implementation of appropriate industrial policies they will be even more necessary under monetary union **RFE/RL Research Report** ,1993-06

Delve into the emotional tapestry woven by in Experience **Red Forge The Soviet Military Industry Since 1965** . This ebook, available for download in a PDF format (PDF Size: *), is more than just words on a page; itis a journey of connection and profound emotion.
