played in shaping the country as well as the people who helped build it **Thorstein Veblen** Erik S. Reinert, Francesca L. Viano, 2014-10-01 After his death Thorstein Veblen was hailed as America's Darwin and Marx and is normally portrayed as the perennial iconoclast. He severely criticised traditional economics and attempted to create an alternative approach based on a much more complex view of human beings. He is one of the most celebrated economists of our age and has been the inspiration for many books. The predatory version of capitalism we now again experience the phenomenon of studying cultures of consumption and the darker sides of gilded ages can be traced back to Veblen. A conference in Veblen's ancestral Norway marked the 150th anniversary of his birth. The aim of the conference was to consolidate Veblen scholarship and evaluate his relevance for the problems of today. This collection offers the results of that endeavour; it is a milestone of Vebleniana which assesses all the most salient aspects of his life and influence. Many of its contributors also push into uncharted territory examining the man and his work from new and necessary perspectives hitherto ignored by scholarship.

Southwest Cultural Resources Center Professional Papers, 1983 **'Eastland'** George W. Hilton, 1996-10-01 An account of the 1915 capsizing of the steamer Eastland in the Chicago River, an accident that killed more than eight hundred people, details the role of safety measures instituted after the sinking of the Titanic and examines the civil and criminal court proceedings which followed it.

Wisconsin's Great Lakes Ports Harold Melvin Mayer, 1975 **Sailing into History** Frank Boles, 2017-01-01 The Great Lakes create a vast transportation network that supports a massive shipping industry. In this volume seamanship, cargo, competition, cooperation, technology, engineering, business, unions, government decisions, and international agreements all come together to create a story of unrivaled interest about the Great Lakes ships and the crews that sailed them in the twentieth century. This complex and multifaceted tale begins in iron and coal mines with the movement of the raw ingredients of industrial America across docks into ever larger ships using increasingly complicated tools and technology. The shipping industry was an expensive challenge as it required huge investments of capital, caused bitter labor disputes, and needed direct government intervention to literally remake the lakes to accommodate the ships. It also demanded one of the most integrated international systems of regulation and navigation in the world to sail a ship from Duluth to upstate New York. *Sailing into History* describes the fascinating history of a century of achievements and setbacks, unimagined change mixed with surprising stability.

The Great Lakes News Letter, 1965 **Wisconsin's Great Lakes Ports** Wisconsin. Department of Transportation, 1976 **A London Bibliography of the Social Sciences**, 1931 Vols 1-4 include material to June 1, 1929.

Explore Great Lakes Shipwrecks: Covering wrecks on the lower part of Lake Michigan Kimm A. Stabelfeldt, 1992 **Great Lakes and Midwest Catalog** Partners Book Distributing, 2007 *United States Corporation Histories* Wahib Nasrallah, 1987
