No longer just for children, picture books have matured in the last decade to become a format for all ages. The recommended fiction and nonfiction titles in this resource have been carefully selected as appropriate for older readers because of their sophisticated content. Almost all have been published in the late 1980s through 1996. For ease of use by the teacher or young adult librarian, the bibliography is arranged into six content areas: the arts, health, literature and language, mathematics, science and nature, and social studies and history. Within each content area, entries are organized alphabetically by author. Each annotation includes the book's content, subject breakdown, artistic style, and medium, suggested companion titles, and ideas for use in the classroom. Annotations are numbered for ease of use and indexed by subject, author, and illustrator. Appendixes include a glossary of terms used to describe picture books, a checklist to guide teachers and students when using picture books, and a list of professional sources that will assist teachers in exploring the picture book format.
