interests against Western Sahara's long denied right to a self-determination referendum as one of the last UN recognized colonies. The widely lauded first edition was the first book-length treatment of the issue in the previous two decades. Zunes and Mundy examined the origins, evolution, and resilience of the Western Sahara conflict, deploying a diverse array of sources and firsthand knowledge of the region gained from multiple research visits. Shifting geographical frames, local, regional, and international, provided for a robust analysis of the stakes involved. With the renewal of the armed conflict, continued diplomatic stalemate, growing waves of nonviolent resistance in the occupied territory, and the recent U.S. recognition of Morocco's annexation, this new revised and expanded paperback edition brings us up to date on a long forgotten conflict that is finally capturing the world's attention.

Cinema, State Socialism and Society in the Soviet Union and Eastern Europe, 1917-1989 Sanja Bahun, John Haynes, 2014-07-25 This book presents a comprehensive re-examination of the cinemas of the Soviet Union and Central and Eastern Europe during the communist era. It argues that since the end of communism in these countries, film scholars are able to view these cinemas in a different way, no longer bound by an outlook relying on binary Cold War terms. With the opening of archives in Eastern Europe and the former Soviet Union, much more is known about these states and societies at the same time the field has been reinvigorated by its opening up to more contemporary concepts, themes, and approaches in film studies and adjacent disciplines. Taking stock of these developments, this book presents a rich, varied tapestry relating specific films to specific national and transnational circumstances, rather than viewing them as a single monolithic Cold War Communist cinema.

East Asia Integrates Kathie Krumm, Homi Kharas, 2004-01-01 Emerging East Asian economies have seen their share of world exports more than triple during the past quarter century, and intraregional trade has driven this growth. Broad measures of development in East Asia have improved at the same headlong pace. Why push further integration now? Two economic events of historic proportions provide the context: strategic thinking of development in the region following the East Asian financial crisis of 1997-98 and the accession of China to the World Trade Organization. Policymakers interested in a stable, prosperous region are concerned by mildly rising inequality within countries and a widening gap between richer economies and the poorest economies. Increasingly, the development agenda in the region, with its focus on growth, jobs, and social stability, and the trade policy agenda, with its focus on market access and competitiveness, have become intertwined. East Asian policymakers seek to develop a coherent set of economic policies that can deliver stability.

growth and regional integration Without attempting to be comprehensive East Asia Integrates offers fundamental strategies that promote cross border flows of trade along with domestic policies on logistics trade facilitation standards and institutions to maximize the impact of these flows on development and distribute the gains from trade widely As the authors demonstrate multilateral and regional trade initiatives must provide a compelling vision of how integration can deliver broadly shared growth and prosperity if they are to succeed In addition they must use the momentum offered by trade agreements to address the links between trade on the one hand and social stability poverty reduction and growth on the other

The Quest for Sustainable International Fisheries Evelyne Meltzer, Susanna Fuller, 2009 A publication of the National Research Council of Canada Monograph Publishing Program *After the Big Bang?* Karla Ruth Hoff, Joseph E. Stiglitz, 2002 When Russia launched mass privatization it was widely believed that it would create a powerful constituency for the rule of law That didn't happen We present a dynamic equilibrium model of the political demand for the rule of law and show that beneficiaries of mass privatization may fail to demand the rule of law even if it is the Pareto efficient rule of the game The reason is that uncertainty about the legal regime can lead to asset stripping and stripping can give agents an interest in prolonging the absence of the rule of law
