Red Network Dilling Elizabeth Kirkpatrick,1901 **Out of the Mouths of Babes** Thomas A. Robinson,Lanette R. Ruff,2011-12-05 The 1920s marked one of the greatest cultural shifts in American life and the risque flapper became the icon of the period But there was a counter image of the feminine the decade was also the golden age for girl evangelists who defended traditional morals and traditional Christian beliefs and attitudes **The Red Network** Elizabeth Kirkpatrick Dilling,1935 First printing April 1934 Fourth printing January 1935 **American Radical** D. D. Guttenplan,2024-05-01 Popular Front columnist and New Deal propagandist Fearless opponent of McCarthyism and feared scourge of official liars Enterprising independent reporter and avid amateur classicist As D D Guttenplan puts it in his compelling book I F Stone did what few in his profession could he always thought for himself America s most celebrated investigative journalist himself remains something of a mystery however Born Isidor Feinstein in Philadelphia raised in rural New Jersey by the age of 25 this college drop out was already an influential newsman and enjoying extraordinary access to key figures in New Deal Washington and the friendship of important artists in New York It is Guttenplan s wisdom to see that the key to Stone s achievements throughout his singular career and not just in his celebrated I F Stone s Weekly lay in the force and passion of his political commitments Stone s calm forensic yet devastating reports on American politics and institutions sprang from a radical faith in the long term prospects for American democracy His testimony on the legacy of American politics from the New Deal and World War II to the era of the civil rights struggles the Vietnam War and beyond amounts to as vivid a record of those times as we are likely to have Guttenplan s lively provocative book makes clear why so many of his pronouncements have acquired the force of prophecy *The New Hate* Arthur Goldwag,2012-02-07 From Birthers who claim that Barack Obama was not born in the United States to counter jihadists who believe that the Constitution is in imminent danger of being replaced with Sharia law conspiratorial beliefs have become an increasingly common feature of our public discourse In this deeply researched fascinating exploration of the ideas and rhetoric that have animated extreme mostly right wing movements throughout American history Arthur Goldwag reveals the disturbing pattern of fear mongering and demagoguery that runs through the American grain The New Hate takes readers on a surprising often shocking sometimes bizarrely amusing tour through the swamps of nativism racism and paranoid speculations about money that have long thrived on the American fringe Goldwag shows us the parallels between the hysteria about the Illuminati that wracked the new American Republic in the 1790s and the McCarthyism that roiled the 1950s and he discusses the similarities between the anti New Deal forces of the 1930s and the Tea Party movement today He traces Henry Ford s anti Semitism and the John Birch Society s Insiders back to the notorious Protocols of the Elders of Zion and he relates white supremacist nightmares about racial pollution to nineteenth century fears of papal plots The most salient feature of what I have come to call the New Hate Goldwag writes is its sameness across time and space The most depressing thing about the demagogues who tirelessly

exploit it in pamphlets and books and partisan newspapers two centuries ago on Web sites electronic social networks and twenty four hour cable news today is how much alike they all turn out to be **The Broadcast 41** Carol A

Stabile,2018-10-16 How forty one women including Dorothy Parker Gypsy Rose Lee and Lena Horne were forced out of American television and radio in the 1950s Red Scare At the dawn of the Cold War era forty one women working in American radio and television were placed on a media blacklist and forced from their industry The ostensible reason so called Communist influence But in truth these women among them Dorothy Parker Lena Horne and Gypsy Rose Lee were by nature of their diversity and ambition a threat to the traditional portrayal of the American family on the airwaves This book from Goldsmiths Press describes what American radio and television lost when these women were blacklisted documenting their aspirations and achievements Through original archival research and access to FBI blacklist documents The Broadcast 41 details the blacklisted women s attempts in the 1930s and 1940s to depict America as diverse complicated and inclusive The book tells a story about what happens when non male non white perspectives are excluded from media industries and it imagines what the new medium of television might have looked like had dissenting viewpoints not been eliminated at such a formative moment The all white male dominated Leave it to Beaver America about which conservative politicians wax nostalgic existed largely because of the forcible silencing of these forty one women and others like them For anyone concerned with the ways in which our cultural narrative is constructed this book offers an urgent reminder of the myths we perpetuate when a select few dominate the airwaves **Anti-Communism in Twentieth-Century America** Larry

Ceplair,2011-10-05 This compelling critical analysis of anti communism illustrates the variety of anti Communist styles and agendas thereby making a persuasive case that the threat of domestic communism in Cold War America was vastly overblown In the United States today communism is an ideology or political movement that barely registers in the consciousness of our nation Yet merely half a century ago communist was a buzzword that every citizen in our nation was aware of a term that connoted traitor and almost certainly a characterization that most Americans were afraid of Anti Communism in Twentieth Century America A Critical History provides a panoramic perspective of the types of anti communists in the United States between 1919 and the collapse of the Soviet Union It explains the causes and exceptional nature of anti communism in the United States and divides it into eight discrete categories This title then thoroughly examines the words and deeds of the various anti Communists in each of these categories during the three Red Scares in the past century The work concludes with an unapologetic assessment of domestic anti communism This book allows readers to more fully comprehend what the anti communists meant with their rhetoric and grasp their impact on the United States during the 20th century and beyond for example how anti communism has reappeared as anti terrorism **Observers from Abroad** Martin A. Miller,2025-03-31 Observers from Abroad offers an examination of published and archival images of Soviet Russia providing a deeper understanding of the complexities and vicissitudes of its political culture The book argues that

photography when accurately interpreted can be utilized as primary historical evidence that has the potential to both enhance and counter traditional verbal analysis Employing a number of images of the Soviet Union captured by gifted documentary photographers from the West who received visas to work in Moscow from the Bolshevik seizure of power in 1917 to the collapse of the USSR in 1991 the book also assesses the intentions of the photographers who acted as conscious observers capturing visual evidence under the restraining conditions of state surveillance Each chapter provides a closer look at the life and work of these photographers with a wealth of historical images and discussion Richly illustrated and engaging this volume will be ideal for students scholars and readers interested in Soviet history twentieth century history and the history of photography

The Cold War Comes to Main Street Lisle A. Rose, 1999-02-01 In 1950 Main Street America restored by victories in a global war and hopeful for a prosperous and peaceful future was abruptly traumatized The sudden prospect of thermonuclear war with the Soviet Union Senator Joseph McCarthy s vicious anticommunist crusade and the beginning of the Korean War all combined to dampen the public mood In the wake of these events the Cold War invaded every home and convinced millions of Americans that the liberal establishment created by Franklin Roosevelt and sustained by Harry Truman had betrayed the public trust and placed the nation in mortal peril Revealing the intense interplay between foreign policy domestic politics and public opinion Lisle Rose argues that 1950 was a pivotal year for the nation Thermonuclear terror brought a clutching fear of mass death to the forefront of public awareness even as McCarthy s zealous campaign to root out subversives destroyed a sense of national community forged in the Great Depression and World War II The Korean War with its dramatic oscillations between victory and defeat put the finishing touches on the national mood of crisis and hysteria Drawing upon recently available Russian and Chinese sources Rose sheds much new light on the aggressive designs of Stalin Mao and North Korea s Kim Il Sung in East Asia and places the American reaction to the North Korean invasion in a new and more realistic context Rose argues that the convergence of Korea McCarthy and the Bomb wounded the nation in ways from which we ve never fully recovered He suggests in fact that the convergence may have paved the way for our involvement in Vietnam and by eroding public trust in and support for government launched the ultra Right s campaign to dismantle the foundations of modern American liberalism Engagingly written *The Cold War Comes to Main Street* is a sophisticated synthesis that cuts to the core of a half century of postwar national paranoia It calls into question the assumptions of several generations of scholars about foreign affairs and domestic policies and will force readers to reconsider their assumptions about just when and how the nation lost its sense of community confidence and civility

Red Scared! of Morris Ernst, Free Speech Renegade Samantha Barbas, 2021-06-10 A long overdue biography of the legendary civil liberties lawyer a vital and contrary figure who both defended Ulysses and fawned over J Edgar Hoover In the 1930s and 40s Morris Ernst was one of America's best known liberal lawyers The ACLU's general counsel for decades Ernst was renowned for his audacious fights against artistic censorship He successfully defended Ulysses against obscenity charges litigated groundbreaking reproductive rights cases and supported the widespread expansion of protections for sexual expression union organizing and public speech Yet Ernst was also a man of stark contradictions waging a personal battle against Communism defending an autocrat and aligning himself with J Edgar Hoover's inflammatory crusades Arriving at a moment when issues of privacy artistic freedom and personal expression are freshly relevant *The Rise and Fall of Morris Ernst Free Speech Renegade* brings this singularly complex figure into a timely new light As Samantha Barbas's eloquent and compelling biography makes ironically clear Ernst both transformed free speech in America and inflicted damage to the cause of civil liberties Drawing on Ernst's voluminous cache of publications and papers Barbas follows the life of this singular idealist from his pugnacious early career to his legal triumphs of the 1930s and 40s and his later idiosyncratic zealotry As she shows today's challenges to free speech and the exercise of political power make Morris Ernst's battles as pertinent as ever
