readers is explained in the Introduction to the volume The commentaries illuminate relationships between the poems and attitudes to the war at the time in the immediate post war years and subsequently They also probe how individual poems reveal various facets of the poetry of unease the poetry of survival and the poetics of war and ecology References to the accompanying online Oxford Classical Receptions Commentaries will enable readers to follow up their special interests This volume differs from the shorter volume Greek and Roman Antiquity in First World War Poetry Making Connections in that it covers the whole output of the four poets and not just their war poems
