Red Star in Samarkand Anna Louise Strong,1929 **Contending with Stalinism** Lynne Viola,2018-05-31 Resistance has become an important and controversial analytical category for the study of Stalinism The opening of Soviet archives allows historians an unprecedented look at the fabric of state and society in the 1930s Researchers long spellbound by myths of Russian fatalism and submission as well as by the very real powers of the Stalinist state are startled by the dimensions of popular resistance under Stalin Narratives of such resistance are inherently interesting yet the topic is also significant because it sheds light on its historical surroundings Contending with Stalinism employs the idea of resistance as a tool to explore what otherwise would remain opaque features of the social cultural and political history of the 1930s In the process the authors reveal a semi autonomous world residing within and beyond the official world of Stalinism Resistance ranged across a spectrum from violent strikes to the passive resistance that was a virtual way of life for millions and took many forms from foot dragging and negligence to feigned ignorance and false compliance Contending with Stalinism also highlights the problematic nature of resistance as an analytical category and stresses the ambiguous nature of the phenomenon The topics addressed include working class strikes peasant rebellions black market crimes official corruption and homosexual and ethnic subcultures

Bulletin Public Library of Fort Wayne and Allen County,1927 Veiled Empire Douglas T. Northrop,2016-06-08

Drawing on extensive research in the archives of Russia and Uzbekistan Douglas Northrop here reconstructs the turbulent history of a Soviet campaign that sought to end the seclusion of Muslim women In Uzbekistan it focused above all on a massive effort to eliminate the heavy horsehair and cotton veils worn by many women and girls This campaign against the veil was in Northrop s view emblematic of the larger Soviet attempt to bring the proletarian revolution to Muslim Central Asia a region Bolsheviks saw as primitive and backward The Soviets focused on women and the family in an effort to forge a new liberated social order This unveiling campaign however took place in the context of a half century of Russian colonization and the long standing suspicion of rural Muslim peasants toward an urban colonial state Widespread resistance to the idea of unveiling quickly appeared and developed into a broader anti Soviet animosity among Uzbeks of both sexes Over the next quarter century a bitter and often violent confrontation ensued with battles being waged over indigenous practices of veiling and seclusion New local and national identities coalesced around these very practices that had been placed under attack Veils became powerful anticolonial symbols for the Uzbek nation as well as important markers of Muslim propriety Bolshevik leaders who had seen this campaign as an excellent way to enlist allies while proving their own European credentials as enlightened reformers thus inadvertently strengthened the seclusion of Uzbek women precisely the reverse of what they set out to do Northrop s fascinating and evocative book shows both the fluidity of Central Asian cultural practices and the real limits that existed on Stalinist authority even during the ostensibly totalitarian 1930s
