The editorial board and contributors are drawn from a wide constituency collating expertise from academics policy makers professionals and practitioners and from every key center for housing research Every entry stands alone on its merits and is accessed alphabetically yet each is fully cross referenced and attached to one of seven thematic categories whose wholes far exceed the sum of their parts

The Myth of Home Ownership J. Kemeny, 2025-11-18 Originally published in 1981 in this controversial study Dr Kemeny aims to show that owner occupation is not an inherently superior form of housing tenure to renting He questions the overwhelming emphasis upon owner occupation in English speaking countries as reflected by most politicians and many academics and argues that the deep emotional commitment to home ownership has prevented both the objective analysis of housing tenure and the emergence of environmental policies that maximise choice In the first part of the book home ownership is placed in comparative perspective through a critical examination of its supposed advantages such as security of tenure and a discussion of its wider disadvantages notably its exacerbation of housing inequalities and the privatizing effect which it has upon consumption patterns urban structure and social welfare The second part is a detailed consideration of three contrasting societies Australia a home owning society Sweden where cost renting is widely available and Britain where public renting and home ownership are maintained in uneasy compromise In conclusion Dr Kemeny argues that English speaking countries should abandon their one sided policies and aim to develop real choice of tenure in their housing systems Today it can be read in its historical context

Housing Markets and Household Behavior in Japan Miki Seko, 2019-05-08 This book addresses essential questions about housing by building theoretical models based on various real world problems in Japan and testing these models using econometric methods Almost all related empirical analyses use Japanese household longitudinal data Accordingly the author analyzes whole aspects of the data based on an understanding of the actual situation theory and empirical analysis to directly derive a vision of a future housing policy Why are houses expensive and difficult to obtain in Japan Why do people have to live in small houses Why do people not relocate frequently Why is the earthquake insurance subscription rate so low particularly in an earthquake prone country such as Japan even after such a catastrophic event as the Great East Japan Earthquake of 2011 How do existing housing finance and tax policies or laws relate to these real world problems To answer these questions the book clarifies the unique criteria that characterize housing problems in Japan and presents a vision of future housing policy The short answer is that existing housing finance policy that adopts criteria based on the floor space of houses creates incentives for people to live in even smaller houses Furthermore the Japan Rental Act which affects people renting homes reduces residential mobility The incidence of underinsurance against earthquake risk is a result of earthquake insurance market imperfections such as crude and rough geographical risk ratings The book elaborates on these factors in four parts and will be of interest to all readers who are concerned with the housing market and household behavior in Japan

Housing Dynamics in Korea Building Inclusive and Smart Cities OECD, 2018-04-18 Housing in Korea has been part of the government policy development agenda for the past

three decades contributing to reducing the historical housing shortage and improving the quality of dwellings Despite its achievements Korea now faces a housing affordability challenge as prices are too

Economic Policy Reforms 2011 Going for Growth OECD,2011-04-07 Going for Growth 2011 highlights the structural reforms needed to restore long term growth in the wake of the crisis For each OECD country and for the first time six key emerging economies Brazil China India Indonesia Russia and South Africa five reform priorities are identified Accessory Apartments in Single-Family Housing Martin Gellen,2017-07-12 As the reproduction cost of housing has increased consumers have made intensive use of existing dwellings Conversions of the housing stock have regained prominence as a source of supply This book introduces the accessory apartment and assesses its potential as an emerging resource for meeting local and national housing needs Although accessory apartments help meet some of the nation s housing needs they are not entirely without problems Some of these are environmental problems such as physical alterations that are out of character with the design and appearance of surrounding structures while other problems are cultural and ideological The accessory apartment in a single family house deviates from the image of housing family and neighborhood that prevails in American culture It symbolizes a change in the way the single family house is used and the kinds of people who live in it These changes clash with the traditional meanings attached to the categories of residential zoning Martin Gellen evaluates and answers the following questions throughout the text How do we live with accessory apartments Control their number Ensure their soundness and maintain neighborhood standards He focuses on the physical planning problems of conversions and examines the zoning issues they raise This includes a realistic appraisal of the purposes of density and occupancy controls in exclusive single family districts The author provides new methods for regulation of density and occupancy which permit more flexible use of single family housing to meet the housing needs of a more diverse population Whether in an aging suburb or new tract the accessory apartment is a current challenge This book provides a clear headed approach toward a popular trend in the ever changing housing industry

China's Geography Gregory Veeck,2007 Offering the first sustained geography of the reform era the authors trace the changes occurring in this great and ancient nation across both time and space

Social Geography Michael Pacione,2013-04-15 The examination of social questions is a relatively new development in goeography but social geography has now blossomed into a fully fledged sub discipline which has in fact influenced significantly all other areas of geography This book first published in 1987 presents an overview of recent developments in all the major branches of social geography As such it provides a valuable introduction to te subject a review of the latest state of the art and a pointer to future research directions

Affordable Housing in Lithuania OECD,2023-06-14 Many Lithuanian households struggle to afford good quality housing The housing stock is dominated by owner occupied multi apartment buildings that are energy inefficient and face persistent quality gaps While average household spending on housing is relatively low house prices have been rising and many households cannot afford to move to higher quality homes that better suit their needs **Home Ownership** Ray

Forrest,Alan Murie,Peter Williams,2021-03-23 Originally published in 1990 and drawing on extensive research this book provides an evaluation of the impact of the growth of home ownership in the UK and of the claims and counter claims made for its social significance The book examines critically the evidence for and against the proposition that mass home ownership is contributing towards a more equal society Wide ranging in its coverage the book discusses the changing nature and role of home ownership wealth accumulation and housing the relationship between social class and housing tenure and policy development Globalization and Europe's Rural Regions Birte Nienaber,2016-03-03 This book examines the multiple

ways in which rural regions in Europe are being restructured through globalization and the regional development responses that they have adopted It provides an understanding of the key challenges and opportunities for rural regions arising from the major economic social political and cultural changes associated with globalization including trade liberalization and economic deregulation increased international migration and the rise of global consciousness about environmental issues Drawing on examples and findings from a major European research project DERREG the book presents detailed case studies of ten regions in different parts of Europe exploring the factors that lead to different experiences of globalization in each of the regions and highlighting examples of good practice in regional development responses The book concludes by proposing a typology of regional responses to globalization and considering the policy implications of the research findings As such Globalization and Europe s Rural Regions is important reading for geographers sociologists planners and economists interested in understanding the impact of globalization in rural regions and for rural development professionals seeking to mobilize effective responses **Housing in Post-Growth Society** Yosuke Hirayama,Misa Izuhara,2018-01-19 In a

globalising world many mature economies share post growth characteristics such as low economic growth low fertility declining and ageing of the population and increasing social stratification Japan stands at the forefront of such social change in the East Asian region as well as in the Global North It is in this context of post growth society that housing issues are examined using the experiences of Japan at the leading edge of social transition in the region The post war housing system was developed during the golden age of economy and welfare when upward social trajectories such as increasing population high speed economic growth with rising real incomes housing construction driven by high demands increasing rates of home ownership supported by generous government subsidies generated new housing opportunities and accompanying issues As we have entered the post growth phase of socio economic development however it requires a re examination of such structure policy and debates This volume explores what roles housing plays in the reorganisation and reconstruction of

economic processes social policy development ideology and identity and intergenerational relations The volume offers a greater understanding of the characteristics of post growth society changing demography economy and society in relation to housing It considers how a definitive shift to the post growth period has produced new housing issues including risks as well as opportunities Through analysis of the impact on five different areas post crisis economy urban and regional variations young adults and housing pathways fertility and housing and ageing and housing wealth the authors use policy and institutions as overarching analytical tools to examine the contemporary housing issues in a post growth context It also considers any relevance from the Japanese experiences in the wider regional and global context This original book will be of great interest to academics and students as well as policy makers and practitioners internationally in the fields of housing studies urban studies social policy sociology political economy comparative analysis and East Asian Studies Housing Partnerships Andrew Caplin,1997 Housing Partnerships A New Approach to a Market at a Crossroads provides the blueprints of the Housing Partnership structure and the new opportunities it furnishes home owners while explaining the economics behind the housing and mortgage markets and the financial risks in owning a home Housing Carol B.
