Brave new words Jeff Prucher, Aging Harry R. Moody, Jennifer R. Sasser, 2020-07-16 Winner of the 2022 Textbook Academic Authors Association's The McGuffey Longevity Award *Aging Concepts and Controversies* is structured to encourage a style of teaching and learning that goes beyond conveying facts and methods. This innovative text focuses on controversies and questions rather than on assimilating facts or creating a single correct view about aging or older people. Drawing on their extensive expertise, authors Harry R. Moody and Jennifer R. Sasser first provide an overview of aging in three domains: aging over the life course, health care, and socioeconomic trends. Each section then includes data and conceptual frameworks helping students to make sense of the controversies and understand their origin, engage in critical thinking, and develop their own views. The Tenth Edition of this hallmark textbook includes amplified discussions focused on differences, diversity, structural inequalities, and inclusion, as well as contemporary issues including climate change and immigration. Included with this title, the password-protected Instructor Resource Site, formerly known as SAGE Edge, offers access to all text-specific resources, including a test bank and editable chapter-specific PowerPoint slides.
