Revising Women Eighteenth Century Womens Fiction And Social Engagement:

Revising Women Paula R. Backscheider, 2002-10-21 A collection of essays from feminist critics each of which explores the history of the English novel literature's place in cultural debate and women's studies They begin with the fictions of the late 17th century and end with Maria Edgeworth and Jane Austen

A Companion to the Eighteenth-Century English Novel and Culture Paula R. Backscheider, Catherine Ingrassia, 2009-10-19 A Companion to the Eighteenth century Novel furnishes readers with a sophisticated vision of the eighteenth century novel in its political aesthetic and moral contexts An up to date resource for the study of the eighteenth century novel Furnishes readers with a sophisticated vision of the eighteenth century novel in its political aesthetic and moral context Foregrounds those topics of most historical and political relevance to the twenty first century Explores formative influences on the eighteenth century novel its engagement with the major issues and philosophies of the period and its lasting legacy Covers both traditional themes such as narrative authority and print culture and cutting edge topics such as globalization nationhood technology and science Considers both canonical and non canonical literature

Performance and Femininity in Eighteenth-Century German Women's Writing W. Arons, 2006-10-03 In this book Wendy Arons examines how women writers used theater and performance to investigate the problem of female subjectivity and to intervene in the dominant discourse about ideal femininity Arons shows how contemporary demands for sincerity and authenticity placed a peculiar burden on women in the public sphere especially on actresses who like professional writers overstepped the boundaries of what was considered proper behavior for women Paradoxically in their representations of ideal women engaged in performance these writers expose ideal femininity as an impossible act even as they attempt to perform it in their writing and in their lives

Ageing, Gender, and Illness in Anglophone Literature Heike Hartung, 2015-12-07 This study establishes age as a category of literary history delineating age in its interaction with gender and narrative genre Based on the historical premise that the view of ageing as a burden emerges as a specific narrative in the late eighteenth century the study highlights how the changing experience of ageing is shaped by that of gender By reading the Bildungsroman as a coming of age novel the book asks how the telling of a life in time affects individual age narratives Bringing together the different perspectives of age and disability studies the book argues that illness is already an important issue in the Bildungsroman's narratives of ageing This theoretical stance provides new interpretations of canonical novels visiting authors such as Johann Wolfgang Goethe Frances Burney Maria Edgeworth Jane Austen Charles Dickens George Eliot Samuel Beckett and Jonathan Franzen Drawing on the link between age and illness in the Bildungsroman's age narratives the genre of dementia narrative is presented as one of the directions which the Bildungsroman takes after its classical period Applying these theoretical perspectives to canonical novels of the nineteenth century and to the new genre of dementia narrative the volume also provides new insights into literary and genre history This book introduces a new theoretical approach to cultural age studies and offers a comprehensive analysis of the

connection between narratology literary theory gender and age studies **British Women's Life Writing, 1760-1840 A.**
 Culley, 2014-07-22 British Women's Life Writing 1760-1840 brings together for the first time a wide range of print and manuscript sources to demonstrate women's innovative approach to self representation It examines canonical writers such as Mary Wollstonecraft Mary Robinson and Helen Maria Williams amongst others **Collecting Women** Chantel M. Lavoie, 2009 This book addresses the place of women writers in anthologies and other literary collections in eighteenth century England It explores and contextualizes the ways in which two different kinds of printed material poetic miscellanies and biographical collections complemented one another in defining expectations about the woman writer Far more than the single authored text it was the collection in one form or another that invested poems and their authors with authority By attending to this fascinating cultural context Chantel Lavoie explores how women poets were placed posthumously in the world of eighteenth century English letters Investigating the lives and works of four well known poets Katherine Philips Aphra Behn Anne Finch and Elizabeth Rowe Lavoie illuminates the way in which celebrated women were collected alongside their poetry the effect of collocation on individual reputations and the intersection between bibliography and biography as female poets themselves became curiosities In so doing Collecting Women contributes to the understanding of the intersection of cultural history canon formation and literary collecting in eighteenth century England **Novel Relations** Ruth Perry, 2004-08-05 Ruth Perry describes the transformation of the English family as a function of several major social changes taking place in the eighteenth century including the development of a market economy and waged labor enclosure and the redistribution of land urbanization the rise of the middle class and the development of print culture In particular Perry traces the shift from a kinship orientation based on blood relations to a kinship axis constituted by conjugal ties as it is revealed in popular literature of the second half of the eighteenth century Perry focuses particularly on the effect these changes had on women's position in families She uses social history literary analysis and anthropological kinship theory to examine texts by Samuel Richardson Charlotte Lennox Henry MacKenzie Frances Burney Jane Austen and many others This important study by a leading eighteenth century scholar will be of interest to social and literary historians **Women, Love, and Commodity Culture in British Romanticism** Daniela Garofalo, 2016-02-17 Offering a new understanding of canonical Romanticism Daniela Garofalo suggests that representations of erotic love in the period have been largely misunderstood Commonly understood as a means for transcending political and economic realities love for several canonical Romantic writers offers instead a contestation of those realities Garofalo argues that Romantic writers show that the desire for transcendence through love mimics the desire for commodity consumption and depends on the same dynamic of delayed fulfillment that was advocated by thinkers such as Adam Smith As writers such as William Blake Lord Byron Sir Walter Scott John Keats and Emily Bront engaged with the period's concern with political economy and the nature of desire they challenged stereotypical representations of women either as self denying consumers or as intemperate participants in the

market economy Instead their works show the importance of women for understanding modern economics with women s desire conceived as a force that not only undermines the political economy s emphasis on productivity growth and perpetual consumption but also holds forth the possibility of alternatives to a system of capitalist exchange **Novel Histories** Lisa Kasmer,2012-01-16 Novel Histories British Women Writing History 1760 1830 argues that British women s history and historical fiction in the late eighteenth and early nineteenth centuries changed not only the shape but also the political significance of women s writing At a time when women s participation in the republic of letters was both celebrated and reviled these authors took cues from developments that revolutionized British history writing to push the limits of narrated history to respond to contemporary national politics Through an examination of the conventions of historical and literary genres historiography during the period and the gendering of civic and literary roles this study shows not only a social political and literary lineage among women s history writing and fiction but also among women s writing and the writing of history Eighteenth-Century Poetry and the Rise of the Novel Reconsidered Kate Parker,Courtney Weiss Smith,2013-12-24 Eighteenth Century Poetry and the Rise of the Novel Reconsidered beginswith the brute fact that poetry jostledup alongside novels in the bookstallsof eighteenth century England Indeed by exploringunexpected collisions and collusionsbetween poetry and novels this volumeof exciting new essays offers a reconsideration of the literary and cultural history of the period Thenovel poached from and featured poetry and the modern subjects and objects privileged by rise of the novel scholarship are only one part of a world full of animate things and people with indistinct boundaries Contributors Margaret Doody David Fairer Sophie Gee Heather Keenleyside ShelleyKing Christina Lupton Kate Parker Natalie Phillips Aran Ruth Wolfram Schmidgen Joshua Swidzinski and Courtney Weiss Smith
