Bennett, 2012 Between May and October of 1917 three young shepherds were reportedly visited six times by an apparition of the Virgin Mary near the town of Fátima in Portugal At the final apparition event approximately 70 000 visitors gathered to witness a prophesied miracle intended to convince the public that the children's visions were of divine origin The miracle took the form of a solar anomaly witnesses claimed that the sun began to dance Exploring the early development of the cult of the Virgin of Fátima and the overthrow of the liberal secular government by pro Catholic elements Jeffrey Bennett offers the first book length scholarly study of the cult's relationship to the rise of authoritarian politics in Portugal *When the Sun Danced* offers a fascinating look at the cultural dynamics that informed one of the most turbulent periods in the nation's history

Indigenous Knowledge and the Environment in Africa and North America David M. Gordon, Shepard Krech III, 2012-03-01 Indigenous knowledge has become a catchphrase in global struggles for environmental justice Yet indigenous knowledges are often viewed incorrectly as pure and primordial cultural artifacts This collection draws from African and North American cases to argue that the forms of knowledge identified as indigenous resulted from strategies to

control environmental resources during and after colonial encounters At times indigenous knowledges represented a middle ground of intellectual exchanges between colonizers and colonized elsewhere indigenous knowledges were defined through conflict and struggle The authors demonstrate how people claimed that their hybrid forms of knowledge were communal religious and traditional as opposed to individualist secular and scientific which they associated with European colonialism Indigenous Knowledge and the Environment offers comparative and transnational insights that disturb romantic views of unchanging indigenous knowledges in harmony with the environment The result is a book that informs and complicates how indigenous knowledges can and should relate to environmental policy making Contributors David Bernstein Derick Fay Andrew H Fisher Karen Flint David M Gordon Paul Kelton Shepard Krech III Joshua Reid Parker Shipton Lance van Sittert Jacob Tropp James L A Webb Jr Marsha Weisiger
