Resources in Education, 1984 Geography Since the Second World War Ron Johnston, Paul Claval, 2014-01-23 The discipline of geography has undergone much change and growth in recent years With growth has come diversity Before 1945 there were differences between countries in the emphases on subject matter and research approach although these were all related closely to three main models French German and American Since then the relative importance of French and German influences has declined substantially including within their own national territories and the Anglo American model has grown to world dominance With that model however there is no dominant point of view but rather a multiplicity of competing approaches These various approaches have had a different reception in other parts of the world reflecting the base of pre 1945 geographical scholarship the goals of geographical work set by societies and the nature of the international contacts The result is substantial international diversity in the practice of geography This authoritative volume provides much needed information to make them aware of current international trends *Housing and Planning References*, 1983 *Bibliography of Geography* Chauncy Dennison Harris, 1984 Pt 1 Introduction to general aids pt 2 Regional v 1 The United States of America Change and Stability in Urban Europe Gertrud Jorgensen, Wim Ostendorf, 2017-09-29 This title was first published in 2001 Significant transformations in the spatial organization of European cities have taken place over the past two decades Social fragmentation increasingly complex systems of governance the transformation of relations to public space and the shift of work from the industrial to the communications sectors have placed increasing importance on a city's position in terms of the global network This book brings together an interdisciplinary team of European experts to discuss how these transformations have forced a radical reconsideration of the traditional definitions of the city Comparing a wide range of European cities the book highlights the diversity of urban forms and tackles the questions regarding the quality of life in new urban spaces The result is a comprehensive and incisive examination of the capacity of urban policies to evoke real changes in the city and to regenerate the systems of urban governance *Spatializing Culture* Setha Low, 2016-08-12 This book demonstrates the value of ethnographic theory and

methods in understanding space and place and considers how ethnographically based spatial analyses can yield insight into prejudices inequalities and social exclusion as well as offering people the means for understanding the places where they live work shop and socialize In developing the concept of spatializing culture Setha Low draws on over twenty years of research to examine social production social construction embodied discursive emotive and affective as well as translocal approaches A global range of fieldwork examples are employed throughout the text to highlight not just the theoretical development of the idea of spatializing culture but how it can be used in undertaking ethnographies of space and place The volume will be valuable for students and scholars from a number of disciplines who are interested in the study of culture through the lens of space and place
