Revitalizing The State A Menu Of Options:

Transforming Asian Governance M Ramesh, Scott Fritzen, 2009-01-13 There are a multitude of hazards that confront attempts to change institutional or political orders in pursuit of good governance Even seemingly technical prescriptions run up against local political and social realities which make their adoption difficult and if adopted require significant modification of the original prescriptions Moreover the technical rationalist and or normative language employed in the good governance discourse masks contests over power rights resources and actors conflicting interests There is a definite need to situate the good governance debate in the local context rather than reflexively adopting a universalistic positing of the fact or desirability of governance convergence across countries and sectors because the reality is that the world wide deployment of good governance rhetoric is not accompanied by convergence in thinking or practices across nations *Transforming Asian Governance* asks How do good governance principles translate into local settings How do local settings influence the conception of what is good governance and how the debate over good governance is deployed as a political or administrative strategy Using case studies in governance from Thailand the Philippines Pakistan Malaysia India Indonesia Korea and Japan this book will be essential reading for anyone interested in the public and social policy of Asia and international and comparative governance more generally *Dynamics of Residential Water Demand and Supply in India* A. Munian, 2010

Revitalizing the State Pradip N. Khandwalla, 1999 *Governance and the Depoliticisation of Development* Wil Hout, Richard Robison, 2008-11-24 This book seeks to understand how governance agendas are constructed at both the global and national levels and asks what factors define success and failure in their implementation It features case studies drawn from Africa Latin America and Asia **Towards the Next Orbit** Subir Verma, 2011-01-06 The global meltdown the concomitant demise of legendary corporate behemoths and the challenge of competing in a world marked by unprecedented complexities volatility discontinuities and ambiguities have pushed discussions on survival and excellence to the forefront *Towards the Next Orbit A Corporate Odyssey* brings forth ideas experiences studies insights and suggestions from renowned theoreticians and practitioners towards changing and succeeding in a new world The first part of the book comprises rich conceptual papers and research based empirical papers written primarily by thought leaders from all over the world The second part comprises dialogs with persons who are well known in the business landscape as change masters The chapters discuss cutting edge ideas in the areas of corporate behavior positioning growth leadership employee relations and so on Together the articles and interviews will help readers develop perspective cognitive framework behavioral repertoire and portfolio of practices for making the transition from simply functioning to achieving excellence **Power in the 21st Century** Tanguy Struye de Swiellande, Dorothée Vandamme, 2015-12-23 This book results from a symposium organized by Genesys Network which took place on April 29th 2015 in Louvain la Neuve Belgium The organizers invited contributors to think about the concept of power in the context of the evolving international system and what it implied for the study of the

concept in IR academic field Indeed if the end of the Cold War was characterized by a unipolar moment as defined by Krauthammer in 1991 this period is starting to come to an end While the United States remains arguably a global superpower its position is more and more disputed by other actors Likewise new centers of power have emerged Today s world is complex and transitional characterized by both short and long term challenges interactions among these powers remain to be apprehended and understood In the last decade we have also observed an economic and partially political shift or redistribution of power from the West to the Rest on the classical state power chessboard The beginning of the 21st century thus constitutes an important challenge for the super and emerging or resurgent powers The new global state of affairs is characterized by conditions that are more complex than in the past In these circumstances and in the face of these worldwide trends the concept of power has evolved and the need to redefine or think the concept has become a necessity The present book thus aims at presenting the diversity of views on the concept of power but also perhaps more importantly their complementarity
