Reviving Phoenicia The Search For Identity In Lebanon:

Reviving Phoenicia Asher Kaufman, 2014-06-17 *Reviving Phoenicia* follows the social intellectual and political development of the Phoenician myth of origin in Lebanon from the middle of the nineteenth century to the end of the twentieth. Asher Kaufman demonstrates the role played by the lay liberal Syrian Lebanese who resided in Beirut, Alexandria and America towards the end of the nineteenth century in the birth and dissemination of this myth. Kaufman investigates the crucial place Phoenicianism occupied in the formation of Greater Lebanon in 1920. He also explores the way the Jesuit Order and the French authorities propagated this myth during the mandate years. The book also analyzes literary writings of different Lebanese who advocated this myth and of others who opposed it. Finally *Reviving Phoenicia* provides an overview of Phoenicianism from independence in 1943 to the present, demonstrating that despite the general objection to this myth, some aspects of it entered mainstream Lebanese national narratives. Kaufman's work will be vital reading for anyone interested in the birth of modern Lebanon as we know it today.

Language, Memory, and Identity in the Middle East Franck Salameh, 2010-04-12 Since the West's very early flirtations with the modern Near East and especially in the past 100 years of East-West relations, there has been considerable difficulty in understanding and defining the Middle East, the Arab world, pan-Arabism, Arab nationalism, and Middle Eastern identities in general. The Western impulse of conflating national identity with language, state, and ethnicity, often subsuming Arabic language into Arab ethnicity, has contributed to this misunderstanding and misreading of the region. For while the Middle East can be accurately referred to by way of the generic Arab world label, the appellation itself is a misleading oversimplification that conceals an inherent diversity and multiplicity of Middle Eastern cultures, ethnicities, languages, and nationalities. And while there is certainly a dominant Arab ethnos, there are also significant numbers of Middle Eastern peoples and nationalities with historical memories and ethno-cultural bonds that challenge the dominant Arabist paradigm. *Language, Memory, and Identity in the Middle East* proposes a new reading of modern Middle Eastern history and

suggests alternate solutions to the region's problems. The book is an attempt to rehabilitate and bring back to the fore of Middle East Studies the issue of language as a key factor in shaping and misshaping the region with the hope of rediscovering a broader, more honest and less ideologically tainted discussion on the Middle East. *Language, Memory and Identity in the Middle East* has a special focus on Lebanon, a Christian homeland, because Lebanon has traditionally acted as the region's template for change and a barometer gauging its problems and charting its progress. *Winning Lebanon* Dylan Baun, 2020-10-22. By the mid-twentieth century, youth movements around the globe ruled the streets. In Lebanon, young people in these groups attended lectures, sang songs, and participated in sporting events; their music tastes, clothing choices, and routine activities shaped their identities. Yet scholars of modern Lebanon often focus exclusively on the sectarian makeup and violent behaviors of these socio-political groupings, obscuring the youth cultures that they forged. Using unique sources to highlight the daily lives of the young men and women of Lebanon's youth politics, Dylan Baun traces the political and cultural history of a diverse set of youth-centric organizations from the 1920s to the 1950s to reveal how these youth movements played significant roles in the making of the modern Middle East. Outlining how youth movements established a distinct type of politics and populism, *Winning Lebanon* reveals that these groups both encouraged the political socialization of different types of youth and, through their attempts to win Lebanon physically and metaphorically around the 1958 War, helped produce sectarian violence. *Civilization and the Making of the State in Lebanon and Syria* Andrew Delatolla, 2021-02-01. This book argues that the modern state from the nineteenth century to the contemporary period has consistently been used as a means to measure civilizational engagement and attainment. This volume historicizes this dynamic, examining how it impacted state-making in Lebanon and Syria. By putting social, political, and economic pressure on the Ottoman Empire to replicate the modern state in Europe, the book examines processes of racialization, nationalist development, continued imperial expansion, and resistance that became embedded in the state as it was assembled. By historicizing post-imperial and post-colonial state formation in Lebanon and Syria, it is possible to engage in a conceptual separation from the modern state, abandoning the ongoing reproduction of the state as a standard or benchmark of civilization and progress. **The Shi'ites of Lebanon** Rula Jurdi Abisaab, Malek Abisaab, 2014-12-09. The complex history of Lebanese Shi'ites has traditionally been portrayed as rooted in religious and sectarian forces. The Abisaabs uncover a more nuanced account in which colonialism, the modern state, social class, and provincial politics profoundly shaped Shi'i society. The authors trace the sociopolitical, economic, and intellectual transformation of the Shi'ites of Lebanon from 1920, during the French colonial period, until the late twentieth century. They shed light on the relationship of contemporary Islamic militancy with traditions of religious modernism and leftism in both Lebanon and Iraq. Analyzing the interaction between sacred and secular features of modern Shi'ite society, the authors clearly follow the group's turn toward religious revolution and away from secular activism. This book transforms our understanding of twentieth-century Lebanese history and demonstrates how the rise of Hizbullah was

conditioned by Shi ites consistent marginalization and neglect by the Lebanese state *Conflict on Mount Lebanon* Rabah Makram Rabah,2020-08-18 The Druze and the Maronites arguably the two founding communities of modern Lebanon have the reputation of being primordial enemies Makram Rabah attempts to gauge the impact of collective memory on determining the course and the nature of the conflict between these communities in Mount Lebanon He takes as his focus the War of the Mountain in 1982 reconstructing the events of this war through the framework of collective remembrance and oral history He challenges the idea that these group identities were constructed by their respective centres of power within the Maronite and Druze community providing an alternative to the prevailing meta narrative Telling the stories of the many people who took part in these events or who simply suffered as a consequence helps to expose the intrinsic motives which led to this conflict and makes a valuable contribution to the field of Lebanese historical scholarship **Mediterranean in Dis/order** Rosita Di Peri,Daniel Meier,2023-03-07 Mediterranean in Dis order reveals the connection between space and politics by examining the role that space has played in insurgencies conflicts uprisings and mobilities in the Mediterranean region With this approach the authors are able to challenge well established beliefs about the power structure of the state across different disciplines including political science history sociology geography and anthropology and its impact on the conception production and imagination of space in the broader Mediterranean Further they contribute to particular areas of studies such as migration political Islam mobilization and transition to democracy among others The book infusing critical theory unveils original and revelatory case studies in Tunisia Libya Lebanon Turkey Syria Morocco and the EU Mediterranean policy through a various set of actors and practices from refugees and migrations policies to Islamist or students movements architectural sites or movies This multidisciplinary perspective on space and power provides a valuable resource for practitioners interested in how space context and time interact to produce institutions political subjectivities and asymmetries of power particularly since the turning point of the Arab uprisings The book also helps readers understand the conditions under which the uprisings develop giving a clearer picture about various national regional and international dynamics The Druze Community and the Lebanese State Yusri Hazran,2014-07-11 One of the fundamental questions of Middle Eastern and Lebanese studies in particular is the history of the relationship between the Druze community and the state in modern Lebanon Arguing that the Druze community has been politically alienated from the Lebanese state this book explores the historical and political origins of this alienation The Druze Community and the Lebanese State contends that the origins of this alienation lie in the state s national ideology its political confessional system and the Druze s historical background during the medieval period Moreover this book examines the extent to which the Druze s attitude vis vis the Lebanese state has been influenced by their historical rivalry with the Maronites Particular emphasis is placed on the political and ideological practices adopted by the Druze leadership and intelligentsia as they dealt with the changes taking place in their community s political status following the political settlements of 1920 and 1943 the establishment of Greater

Lebanon and the National Pact respectively A welcome addition to existing literature on Lebanon this book will be an essential reference tool for students and researchers with an interest in nationalism identity and Middle East Politics more broadly
