

Jon M. Bridgman

THE REVOLT OF THE HEREROS

From 1904 to 1907 the Hereros and the Hottentots in German South West Africa fought a heroic but futile battle against their German masters. From the standpoint of the Germans the war was not important. It was an incident, and no more, in an imperial venture now ended. But for the Hereros the war was the greatest historical event they ever experienced. It was their Marathon, their Cannae, and their Hiroshima.

Revolt Of The Hereros:

The Revolt of the Hereros Jon Bridgman, 1981-01-01 This book by Jon Bridgman is about the revolt of the Hereros against their German masters **Germany's Genocide of the Herero** Jeremy Sarkin, Jeremy Sarkin-Hughes, 2011 In 1904 the indigenous Herero people of German South West Africa now Namibia rebelled against their German occupiers In the following four years the German army retaliated killing between 60 000 and 100 000 Herero people one of the worst atrocities ever The history of the Herero genocide remains a key issue for many around the world partly because the German policy not to pay reparations for the Namibian genocide contrasts with its long standing Holocaust reparations policy The Herero case bears not only on transitional justice issues throughout Africa but also on legal issues elsewhere in the world where reparations for colonial injustices have been called for The book argues that the Herero genocide was linked to Germany's late entry into the colonial race which led it frenetically and ruthlessly to acquire multiple colonies all over the world within a very short period using any means available **Destroy Them Gradually** Andrew R. Basso, 2024-02-16 Perpetrators of mass atrocities have used displacement to transport victims to killing sites or extermination camps to transfer victims to sites of forced labor and attrition to ethnically homogenize regions by moving victims out of their homes and lands and to destroy populations by depriving them of vital daily needs Displacement has been treated as a corollary practice to crimes committed not a central aspect of their perpetration Destroying Them Gradually examines four cases that illuminate why perpetrators have destroyed populations using displacement policies Germany's genocide of the Herero 1904 1908 Ottoman genocides of Christian minorities 1914 1925 expulsions of Germans from East Central Europe 1943 1952 and climate violence twenty first century Because displacement has been typically framed as a secondary aspect of mass atrocities existing scholarship overlooks how perpetrators use it as a means of executing destruction rather than a vehicle for moving people to a specific location to commit atrocities **The Herero War - the First Genocide of the 20th Century?** Martin Weiser, 2008-05 Bachelor Thesis from the year 2006 in the subject History Europe Germany 1848 Empire Imperialism grade 1 Charles University in Prague 79 entries in the bibliography language English abstract In my thesis I examine German colonial policies in South West Africa towards the natives from their first engagement in the area in 1883 up to the end of the Herero war in 1907 Primarily I try to establish if they were genocidal My thesis is divided into three major parts The first two describe and characterize the German policies towards the natives of South West Africa and their mutual relationship prior to the Herero war and during it respectively The third is concerned with definitions of genocide and relevance for its application on the Herero war In the first chapter I shortly portray South West Africa prior to European colonisation and then turn my attention to German steady and gradual conquest of the country Special consideration is given to German perceptions of the natives to their use of the natives for their own cause and to their treatment of the indigenous population Finally the most important aspects of development of the colony under German rule are presented The next chapter of the

thesis deals with the events of the Herero war Analysis of the main causes of the uprising is followed by the description of the course of war This one is purposefully not very detailed and only events relevant for our cause are mentioned Much more attention is given to German changing policies during the war and to the differing arguments behind these policies with special focus on Lothar von Trotha s reasoning The Nama uprising is mentioned briefly as well At the end results of the war and its influence mainly on the native population are characterized I deal with the concept of genocide in the final part of this paper I offer three different definitions and apply them one by one on the events in Gernam South West Africa at the beginning of

Genocide, Mass Atrocity, and War Crimes in Modern History James Larry Taulbee, 2017-02-06 Defining genocide as an international crime this two volume set provides a comparative study of historical cases of genocide and mass atrocity clearly identifying the factors that produced the attitudes and behaviors that led to them discusses the reasons for rules in war and examines how the five principles laid out in the Geneva Conventions and other international agreements have functioned in modern warfare Written by an expert on international politics and law Genocide Mass Atrocity and War Crimes in Modern History Blood and Conscience is an easy to understand resource that explains why genocides and other atrocities occur why humanity saw the need to create rules that apply during war and how culture rules about war and the nature of war intersect The first volume addresses the history and development of the normative regime s that define genocide and mass atrocity Through a comparative study of historical cases that pay particular attention to the factors involved in producing the attitudes and behaviors that led to the incidents of mass slaughter and mistreatment the author identifies the reasons that genocides and mass atrocities in the 20th century were largely ignored until the early 1990s and why even starting then responses were inconsistent The second book discusses why rules in war exist which factors may lead to the adoption of rules what defines a war crime and how the five fundamental principles laid out in the Geneva Conventions and other international agreements have actually functioned in modern warfare It also poses and answers the interesting question of why we should obey rules when our opponents do not The final chapter examines what actions could serve to identify future situations in which mass atrocities may occur and identifies the problems of timely humanitarian intervention in international affairs

Century of Genocide Samuel Totten, William S. Parsons, Israel W. Charny, 2004 The Rwandan government forces as well as Cambodia s Khmer Rouge and German Bosnian and U S governments have all been guilty of the destruction of their indigenous cultures This book analyses the major atrocities of our times including recent cases of genocide in Yugoslavia and Iraq

Modern Genocide Paul R. Bartrop, Steven Leonard Jacobs, 2014-12-17 This massive four volume work provides students with a close examination of 10 modern genocides enhanced by documents and introductions that provide additional historical and contemporary context for learning about and understanding these tragic events Modern Genocide The Definitive Resource and Document Collection spans nearly 1 700 pages presented in four volumes and includes more than 120 primary source documents making it ideal for high school and beginning college students studying modern

genocide as part of a larger world history curriculum The coverage for each modern genocide from Herero to Darfur begins with an introductory essay that helps students conceptualize the conflict within an international context and enables them to better understand the complex role genocide has played in the modern world There are hundreds of entries on atrocities organizations individuals and other aspects of genocide each written to serve as a springboard to meaningful discussion and further research The coverage of each genocide includes an introductory overview an explanation of the causes consequences perpetrators victims and bystanders the international reaction a timeline of events an Analyze section that poses tough questions for readers to consider and provides scholarly pro and con responses to these historical conundrums and reference entries This integrated examination of genocides occurring in the modern era not only presents an unprecedented research tool on the subject but also challenges the readers to go back and examine other events historically and consequently consider important questions about human society in the present and the future Adapting to Win Noriyuki Katagiri, 2015 When insurgent groups challenge powerful states defeat is not always inevitable Increasingly guerrilla forces have overcome enormous disadvantages and succeeded in extending the period of violent conflict raising the costs of war and occasionally winning Noriyuki Katagiri investigates the circumstances and tactics that allow some insurgencies to succeed in wars against foreign governments while others fail Adapting to Win examines almost 150 instances of violent insurgencies pitted against state powers including in depth case studies of the war in Afghanistan and the 2003 Iraq war By applying sequencing theory Katagiri provides insights into guerrilla operations ranging from Somalia to Benin and Indochina demonstrating how some insurgents learn and change in response to shifting circumstances Ultimately his research shows that successful insurgent groups have evolved into mature armed forces and then demonstrates what evolutionary paths are likely to be successful or unsuccessful for those organizations Adapting to Win will interest scholars of international relations security studies and third world politics and contains implications for government officials military officers and strategic thinkers around the globe as they grapple with how to cope with tenacious and violent insurgent organizations

Herero Heroes Jan-Bart Gewald, 1999 The Herero German war led to the destruction of Herero society in all of its pre war facets Yet Herero society re emerged re organizing itself around the structures and beliefs of the German colonial army and Rhenish missionary activity Taking advantage of the South African invasion of Namibia in World War I the Herero established themselves in areas of their own choosing The effective re occupation of land by the Herero forced the new colonial state anxious to maintain peace and cut costs to come to terms with the existence of Herero society The study ends in 1923 when the death and funeral of Samuel Maherero first paramount of the Herero and then resistance leader the catalyst that brought the disparate groups of Herero together to establish a single unitary Herero identity North America Ohio U Press
