Mackenzie, 2013-01-11 This presents a major re evaluation of the standard view of revolutionary armies the range of attitudes towards the role of heroic individuals the formation and leadership of armies and the differences and similarities between such armies Beginning with an exploration of the New Model Army of the 1640s a force whose name itself seems to denote its revolutionary credentials the author presents ten case studies from around the globe including the American War of Independence The French Revolution The Zulu Boer War the Waffen SS and the Viet Cong Through a detailed analysis of source material he examines the images connected with these armies both historical and recent and assesses these images in their socio political and nationalist contexts *The Military Factor in Social Change Vol. 1* Henry Barbera, **The**

Goldstone, 2015-04-29 The Encyclopedia of Political Revolutions is an important reference work that describes revolutionary events that have affected and often changed the course of history Suitable for students and interested lay readers yet authoritative enough for scholars its 200 articles by leading scholars from around the world provide quick answers to specific questions as well as in depth treatment of events and trends accompanying revolutions Includes descriptions of specific revolutions important revolutionary figures and major revolutionary themes such as communism and socialism ideology and nationalism Illustrative material consists of photographs detailed maps and a timeline of revolutions **Revolution and Dictatorship** Steven Levitsky, Lucan

Way, 2024-10-29 Why the world's most resilient dictatorships are products of violent revolution Revolution and Dictatorship explores why dictatorships born of social revolution such as those in China Cuba Iran the Soviet Union and Vietnam are extraordinarily durable even in the face of economic crisis large scale policy failure mass discontent and intense external pressure Few other modern autocracies have survived in the face of such extreme challenges Drawing on comparative historical analysis Steven Levitsky and Lucan Way argue that radical efforts to transform the social and geopolitical order trigger intense counterrevolutionary conflict which initially threatens regime survival but ultimately fosters the unity and state building that supports authoritarianism Although most revolutionary governments begin weak they challenge powerful domestic and foreign actors often bringing about civil or external wars These counterrevolutionary wars pose a threat that can destroy new regimes as in the cases of Afghanistan and Cambodia Among regimes that survive however prolonged conflicts give rise to a cohesive ruling elite and a powerful and loyal coercive apparatus This leads to the downfall of rival organizations and alternative centers of power such as armies churches monarchies and landowners and helps to inoculate revolutionary regimes against elite defection military coups and mass protest three principal sources of authoritarian breakdown Looking at a range of revolutionary and nonrevolutionary regimes from across the globe Revolution and Dictatorship shows why governments that emerge from violent conflict endure *Social Revolutions in the Modern World*

Theda Skocpol, 1994-09-30 Theda Skocpol author of the award winning 1979 book *States and Social Revolutions* updates her arguments about social revolutions

The Revolutionary Guards in Iranian Politics Bayram Sinkaya, 2015-06-19 The Islamic Revolutionary Guards Corps IRGC has been dubbed the kingmaker in recent studies of Iranian politics precipitating heated debates surrounding the potential militarization of the Iranian regime and giving rise to paradoxical understandings of the IRGC whether as a military institution entering politics or a political institution with a military history *Revolutionary Guards in Iranian Politics* offers a way out of this paradox by showing that the IRGC is not a recently politicized institution but has instead been highly politicized since its inception It identifies the ways in which the IRGC relates to national political dynamics examines the factors contributing to this relationship and its implications on Iranian politics from the revolution up to the present day The book examines the three decades following the revolution uncovering the reasons behind the rise of the Revolutionary Guards and tracking the organization's evolving relationship with politics Establishing a theoretical framework from revolution and civil military relations theories this book provides new perspectives on the relationship between the IRGC and Iranian politics This book would be of interest to students and scholars of Middle East Studies and Iranian Studies in particular Iranian Politics

How Armies Respond to Revolutions and Why Zoltan Barany, 2020-03-31 An exploration of military responses to revolutions and how to predict such reactions in the future We know that a revolution's success largely depends on the army's response to it But can we predict the military's reaction to an uprising *How Armies Respond to Revolutions and Why* argues that it is possible to make a highly educated guess and in some cases even a confident prediction about the generals response to a domestic revolt if we know enough about the army the state it is supposed to serve the society in which it exists and the external environment that affects its actions Through concise case studies of modern uprisings in Iran China Eastern Europe Burma and the Arab world Zoltan Barany looks at the reasons for and the logic behind the variety of choices soldiers ultimately make Barany offers tools in the form of questions to be asked and answered that enable analysts

to provide the most informed assessment possible regarding an army's likely response to a revolution and ultimately the probable fate of the revolution itself. He examines such factors as the military's internal cohesion, the regime's treatment of its armed forces, and the size, composition, and nature of the demonstrations. *How Armies Respond to Revolutions and Why* explains how generals decide to support or suppress domestic uprisings.
