Revolution New Zealand From Fortreb To Free Market:

Making New Zealand's Pop Renaissance Michael Scott, 2016-05-13 Since the early 2000s New Zealand has undergone a pop renaissance Domestic artists sales airplay and concert attendance have all grown dramatically while new avenues for kiwi pop exports emerged Concurrent with these trends was a new collective sentiment that embraced and celebrated domestic musicians In Making New Zealand's Pop Renaissance Michael Scott argues that this revival arose from state policies and shows how the state built market opportunities for popular musicians through public private partnerships and organizational affinity with existing music industry institutions New Zealand offers an instructive case for the ways in which after neo liberal states steer and co ordinate popular culture into market exchange by incentivizing cultural production Scott highlights how these music policies were intended to address various economic and social problems Arriving with the creative industries discourse and policy making politicians claimed these expanded popular music supports would facilitate sustainable employment and a sense of national identity Yet popular music as economic and social policy presents a paradox the music industry generates commercial failure and thus requires a large unattached pool of potential talent Considering this feature Scott analyses how state programs induced an informal economy of proto pop production aimed at accessing competitive state funding while simultaneously encouraging musicians to adopt entrepreneurial subjectivities In doing so he argues New Zealand's music policies are a form of social policy that unintentionally deploy hierarchical structures to foster social inclusion amongst growing numbers of creative workers

A Careful Revolution Amelia Sharman, Maria Bargh, Kya Raina Lal, Sylvia Nissen, Sam Huggard, Matt Whineray, Richard Kaipo Lum, Judy Lawrence, Anne Gibbon, David Frame, Jonathan Boston, 2019 I am 29 years old I was born just before the Kyoto Protocol was signed and since then global mean temperatures have risen by an estimated 0.2 C per decade in my lifetime I am likely to experience a world that is 2 C warmer perhaps as much as 4 C and has more droughts fires and floods Sylvia Nissen Climate crisis is upon us By choice or necessity New Zealand will transition to a low emissions future But can this revolution be careful Can it be attentive to the disruptions it inevitably creates Or will carefulness simply delay and dilute the changes that future people require of us This timely collection brings together eleven authors to explore the politics and practicalities of the low emissions transition touching on issues of justice tikanga trade offs finance futurism adaptation and more

Remaking New Zealand and Australian Economic Policy Shaun Goldfinch, 2000 During the 1980s and early 1990s both Australia and New Zealand extensively deregulated their economies moving to become amongst the most liberal economies in the OECD Shaun Goldfinch interviewed more than 180 leading policy makers in Australia and New Zealand including former prime ministers ministers of finance treasurers public servants and other policy elites and examined primary government sources to demonstrate the reasons and processes involved in this remarkable period of economic reform This major comparative study sheds new light on economic policy making and change including the role of economic ideas and the importance of institutions and policy

communities It contrasts the crash through approach that characterised reform in New Zealand with the bargained consensus that underpinned changes in Australia Finally it asks the critical question Has the New Zealand approach to policy change delivered better policy outcomes

Changing Times Jenny Carlyon,Diana Morrow,2014-02-01 From the golden weather of postwar economic growth through the globalization economic challenges and protest of the 1960s and 1970s to the free market revolution and new immigrants of the 1980s and 1990s and beyond this account the most complete and comprehensive history of New Zealand since 1945 illustrates the chronological and social history of the country with the engaging stories of real individuals and their experiences Leading historians Jennifer Carlyon and Diana Morrow discuss in great depth New Zealand s move toward nuclear free status its embrace of a small state free market ideology and the seeming rejection of its citizens of a society known for the worship of averages Stories of pirate radio in Auckland s Hauraki Gulf the first DC8 jets landing at Mangere airport feminists liberating pubs public protests over the closing of post offices and indigenous language nests vividly demonstrate how a postwar society famous around the world for its dull conformity became one of the most ethnically economically and socially diverse countries on earth

Man for All Seasons David Grant,2012-03-01 A major biography of Ken Douglas the most powerful union leader in modern New Zealand history Ken Douglas was raised in a hardworking tough talking union focussed Wellington family and got into union politics as a very young working man Hard nosed pragmatic and never scared of a scrap he rose through the ranks got deeper into left wing ideology and activity with his membership of the Socialist Unity Party and ultimately became head of the FOL and the most powerful unionist in the land Depending on your politics he was one of the most respected or the most hated men in the country ironic then that in later years he was appointed to some of the country s most important boards In this powerful biography David Grant who had unprecedented access to Douglas explores the facets of this remarkable man who was there during the union movement s most powerful days and watched its emasculation It is a unique portrait of a unique New Zealander whose life has been this country s times

Obedient Servants? Edmund John Richard Norman,2003 The experiences of a representative sample of public servants members of Parliament and informed observers of the control systems of New Zealand s public management model adopted in the early 1990s are examined in this book Revealed is a trend that is moving away from the tradition of delivering public services through a centralized bureaucracy Richard Norman uses his experience critiquing public service bureaucracies as a journalist working for a government owned corporation that crashed after becoming too entrepreneurial and delivering training in finance and management to public servants adjusting to the systems of the New Public Management model to examine the creation of a new model of control that achieves a balance between control and empowerment

New Zealand's Global Responsibility László Szöllősi-Cira,2022-01-01 New Zealand often plays leading roles in implementing progressive ideas This book investigates what explanatory factors facilitated the country to become such a relevant normative actor New Zealand s case suggests that democratic institutions

skilled bureaucracy and ambitious politicians play the crucial roles to create global influence The case studies included in this book develop the argument that small states can better influence international politics by focusing on domestic issues In contributing to discourses on New Zealand's possible future role the book is an invaluable resource to intellectuals researchers and students alike

Revenge of the Rich Austin Mitchell, 2017-08-17 Austin Mitchell's book is the first comprehensive study of the rise fall and consequences of neoliberalism in Britain and New Zealand the two countries which adopted the new economics most enthusiastically became its poster boys in the eyes of right wing economists and media AND suffered the most severe consequences Growing up in the affluent years of a post war settlement which brought full employment economic growth and a welfare state to both countries Mitchell entered Parliament in 1977 as Labour MP for Grimsby just as the Settlement was failing It fell apart because of balance of payments problems and the industrial struggles of what was becoming a zero sum competition between social groups This began the long march down dead end street first in Britain under Margaret Thatcher then in New Zealand under Roger Douglas and the 1984 Labour government Monetarism the triumph of markets the pruning of the state and particularly its welfare provisions and the belief in tax cuts to incentivise the wealthy all combined to turn Mitchell's long service in Parliament into a fighting retreat The social balance of both countries was shifted to wealth and finance away from industry and the people The rich took their revenge Mitchell chronicles the consequences in low growth zero sum politics growing poverty and increasing inequality He demonstrates how neoliberalism has failed to deliver on its promises and how wealth has trickled upwards not down He concludes with the turning of the tide by a peasant's revolt leading to governmental and policy changes in both Britain and New Zealand Ultimately he finds useful lessons in the failure of neoliberalism and points to a society and an economic policy which will be fairer for all

Restructuring Societies David B. Knight, Alun E. Joseph, 1999-04-23 A wide range of social scientific perspectives from anthropology geography history and Indigenous studies to politics psychology and sociology are represented here The effects of restructuring processes in Canada and New Zealand are particularly well documented and the importance of words and their manipulation is emphasized but it is the broad sweep of approach that distinguishes this work from more abstract or uni disciplinary commentaries on restructuring Feature essays one by former Ontario premier Bob Rae on conservative and radical resistance to abuses of power and two on aboriginal First Nations issues challenge important public policy trends Restructuring Societies takes crucial steps toward developing informed public debate about a process that affects us all

Development Beyond Neoliberalism? David Alan Craig, Doug Porter, 2006-09-27 Development's current focus poverty reduction and good governance signals a turn away from the older neoliberal preoccupation with structural adjustment privatization and downsizing the state For some the new emphases on empowering and securing the poor through basic service delivery local partnership decentralization and institution building constitute a decisive break with the past and a whole set of new development possibilities beyond neoliberalism Taking a wider historical

perspective this book charts the emergence of poverty reduction and governance at the centre of development It shows that the Poverty Reduction paradigm does indeed mark a shift in the wider liberal project that has underpinned development precisely what is new and what this means for how the poor are governed are described here in detail This book provides a compelling history of development doctrine and practice and in particular offers the first comprehensive account of the last twenty years and development s shift towards a new political economy of institution building decentralized governance and local partnerships The story is illustrated with extensive case studies from first hand experience in Vietnam Uganda Pakistan and New Zealand
