Revolution Of The End Time:

Deciphering End-time Prophetic Codes Perry Stone, 2015 Cyclical and historical biblical patterns reveal America's past present and future events including warnings and patterns to leaders *Law and Revolution* Harold J. Berman, 1985-01-01 The roots of modern Western legal institutions and concepts go back nine centuries to the papal revolution when the Western church established its political and legal unity and its independence from emperors kings and feudal lords Out of this upheaval came the Western idea of integrated legal systems developed over generations and centuries **Encyclopedia of Fundamentalism: Volume 3 of Religion & Society** Brenda Brasher, 2001-10-19 The Encyclopedia of Fundamentalism is the third volume of the acclaimed Religion Society series The Encyclopedia of Fundamentalism follows a broad definition of fundamentalism and covers fundamentalism across time and place although the emphasis remains on its primary manifestation Protestant fundamentalism in the United States It draws upon the work of historians sociologists religious scholars anthropologists political scientists and others **Messianism and Sociopolitical Revolution in Medieval Islam** Said Amir Arjomand, 2025-10-28 This study of messianism and revolution examines an extremely rich though unexplored historical record on the rise of Islam and its sociopolitical revolutions from Muhammad's constitutive revolution in Arabia to the Abbasid revolution in the East and the Fatimid and Almohad revolutions in North Africa and the Maghreb Bringing the revolutions together in a comprehensive framework Sa d Amir Arjomand uses sociological theory as well as the critical tools of modern historiography to argue that a volatile but recurring combination of apocalyptic motivation and revolutionary action was a driving force of historical change time and again In addition to tracing these threads throughout 500 years of history Arjomand also establishes how messianic beliefs were rooted in the earlier Judaic and Manichaean notions of apocalyptic transformation of the world By bringing to light these linkages and factors not found in the dominant sources this text offers a sweeping account of the long arc of Islamic history Revolution and the Millennium James F. Rinehart, 1997-10-30 An interdisciplinary cross cultural cross historical analysis of three 20th century non Western revolutionary societies China Mexico and Iran that were profoundly impinged upon by European and American imperialism The study explores the role of apocalyptic beliefs in radical movements bent on sociopolitical transformation It concludes that millennial expectations performed important and similar preparatory leadership and therapeutic functions in each case Millenarian movements are powerful and emotional social movements that expect an immediate collective total this worldly supernatural salvation and transformation of society They anticipate the complete destruction of the existing sociopolitical and economic order which they assert will be followed by a new and perfect society This study provides an interdisciplinary cross cultural cross historical analysis of three 20th century non Western revolutionary societies that were profoundly impinged upon by European and American imperialism It seeks to explore the functional role of millenarianism in these three revolutions In all three cases millenarianism prepared the way for revolutionary transformation It acted as a catalyst for

action among that group of the most ardent revolutionists who were willing to pay any price to achieve what they were convinced was the inevitable goal of a utopian society Millenarianism created the potential for charismatic leadership to emerge It functioned as a doctrinal platform that awaited the opportunity to elevate a prophetic revolutionary leader to take control Finally millenarianism performed a therapeutic identity and cathartic function by providing the doctrinal foundation and an effective organization for a social healing process to take place A challenge to conventional arguments on the origins and outcomes of revolutions this study will be of great interest to scholars and researchers in comparative politics sociology and religion

The Endtime Family William Sims Bainbridge,2002-01-24 A fascinating examination of a religious counterculture group showing how it differs from mainstream society yet is similar in other ways

[The Coming of God](#) Jürgen Moltmann,Margaret Kohl,2004-07-27 Winner of Grawemeyer Award In this remarkable and timely work in many ways the culmination of his systematic theology world renowned theologian Jurgen Moltmann stands Christian eschatology on its head Moltmann rejects the traditional approach which focuses on the End an apocalyptic finale as a kind of Christian search for the final solution He centers instead on hope and God s promise of new creation for all things Christian eschatology he says is the remembered hope of the raising of the crucified Christ so it talks about beginning afresh in the deadly end Yet Moltmann s novel framework deeply informed by Jewish and messianic thought also fosters rich and creative insights into the perennially netting questions of eschatology Are there eternal life and personal identity after death How is one to think of heaven hell and purgatory What are the historical and cosmological dimensions of Christian hope What are its social and political implications In a heartbreakingly fragile and fragment world Moltmann s comprehensive eschatology surveys the Christian vista bravely envisioning our horizons of expectation for personal social even cosmic transformation in God

Socialism and the Experience of Time Julian Wright,2017-06-30 How do we make social democracy Should we seize the unknown possibilities offered by the future or does real change develop when we focus our attention on the immediate present The modern tradition of social revolution suggested that the present is precisely the time that needs to be surpassed but can society change without an intimate focus on today s experience of social injustice In Socialism and the Experience of Time Julian Wright asks how socialists in France from the mid nineteenth to the mid twentieth century tried to follow a democratic commitment to the present The debate about time that emerged in French socialism lay beneath the surface of political arguments within the left But how did this focus on the present relate to the tradition of revolution in France What did socialism have to say about social experience in the present and how did this discussion shape socialism as a movement Wright examines French socialism s fascination with modern history through a new reading of Jean Jaur s multi authored project to write a socialist history of France since 1789 Then in four interlocking biographical essays he analyses the reformist and idealist socialism of the Third Republic long side lined in the historical literature With a sometimes emotional focus on the present times of Beno t Malon Georges Renard Marcel Sembat and L on Blum a personal history unfolds that

allows us to revisit the traditional narrative of French socialism This is not so much a story of the future hope for revolution as an intimate account of socialism intellectual engagement and the human present
