Rural Livelihoods And Diversity In Developing Countries:

Rural Livelihoods and Diversity in Developing Countries Frank Ellis, 2000-06-29 Rural families in developing countries make a living by engaging in diverse activities These range from farming to rural trade to migration to distant cities and even abroad This book explores the implications of rural livelihood diversity for key topics in development studies and for poverty reduction policies The livelihoods approach is gaining momentum and this is the first book to set it out in detail **Rural**

Livelihoods and Diversity in Developing Countries Frank Ellis, 2012 Rural Livelihood Diversity in Developing Countries F. Ellis, 1996 This paper examines livelihood diversification as a survival strategy of rural households in developing countries Although still of central importance farming on its own is increasingly unable to provide a sufficient means of survival in rural areas The paper's objectives are first to increase awareness of livelihood diversification in approaches to rural development second to consider the interactions among diversification and poverty farm productivity natural resource management and gender relations in rural areas and third to advance the policy understanding of diverse rural livelihoods

The Elgar Companion to Development Studies David Clark, 2006 If handbooks can be inspiring this is it Like a true companion it takes in its stride conversations both big and small Its entries do not just present an international and multidisciplinary mix but true to life they work on several different scales And importantly the book makes its authority evident For it is like an extended website but with all the added advantages of an encyclopaedia that actually tells you about the authors and the sources on which they have drawn The resulting compilation is highly intelligent thoughtful and above all usable Dame Marilyn Strathern University of Cambridge UK The Elgar Companion to Development Studies is a major production in the development studies field authored by a star studded cast of contributors With 136 entries covering a vast range of topics it should quickly establish itself as a leading work of reference We should all feel indebted to David Clark who has successfully brought this substantial publishing project to completion John Toye University of Oxford UK This is a most comprehensive handbook on development studies It brings together a wide varied array of carefully crafted summaries of 136 key topics in development by an international cast of well respected academics and other experts in respective areas of study The handbook is heavily interdisciplinary organically combining economic political historical social cultural institutional ethical and human aspects of development While the wide range of entries might appear as a simple glossary listing or an encyclopedic collection each of the 136 entries offers more depth and discussion than the average handbook Viewed in this light this companion is highly likely to become known as a leading reference work on the topic Highly recommended Ismael Hossein Zadeh Choice The Elgar Companion to Development Studies is an innovative and unique reference book that includes original contributions covering development economics as well as development studies broadly defined This major new Companion brings together an international panel of experts from varying backgrounds who discuss theoretical ethical and practical issues relating to economic social cultural institutional political and human aspects of

development in poor countries It also includes a selection of intellectual biographies of leading development thinkers While the Companion is organised along the lines of an encyclopaedia each of its 136 entries provide more depth and discussion than the average reference book Its entries are also extremely diverse they draw on different social science disciplines incorporate various mixes of theoretical and applied work embrace a variety of methodologies and represent different views of the world The Elgar Companion to Development Studies will therefore appeal to students scholars researchers policymakers and practitioners in the field of development as well as the interested layman

LIVELIHOODS AT THE MARGINS James Staples, 2007-08-15 Sex workers street hawkers drug sellers cleaners they are people living on the margins of urban life who are ubiquitous but notably absent from mainstream economic analyses This volume cuts through the conventional narratives that romanticize victimize or demonize these populations

Infectious Diseases and Rural Livelihood in Developing Countries Fingani Annie Mphande, 2016-02-11 This book focuses on the effects of rural livelihood and the impact of infectious diseases on health and poverty It explores cultures and traditions in developing countries and their role in infectious disease management and prevention It highlights the associated healthcare systems and how these have contributed to some of the challenges faced and goes on to elaborate on the significance of community involvement in infectious disease prevention management and control It also emphasizes the importance of surveillance and setting up strategies on infectious disease management that are favourable for poor communities and developing countries Infectious Diseases and Rural Livelihood in Developing Countries allows students researchers healthcare workers stakeholders and governments to better understand the vicious cycle of health poverty and livelihoods in developing countries and to develop strategies that can work better in these regions

Rural Livelihoods and Poverty Reduction Policies Frank Ellis, H. Ade Freeman, 2004-08-02 This important new collection of contributions brings together current thinking on poverty reduction and rural livelihoods in developing countries As well as leading economists in the field such as Frank Ellis and Chris Barrett there are a number of contributors from developing countries themselves The book examines both macroeconomic and microeconomic phenomena and contains wide range of case studies Skilfully exposing the gap that exists between the rhetoric of poverty reduction strategies in capital cities and the practice of public sector delivery in rural areas this key text will be essential reading for advanced students and researchers in the fields of rural development rural livelihoods poverty reduction strategies and Sub Saharan Africa development as well as advisors and practitioners in international organizations

Understanding Poverty and the Environment Fiona Nunan, 2015-03-27 Does poverty lead to environmental degradation Do degraded environments and natural resources lead to poverty Or are there other forces at play Is the relationship between poverty and the environment really as straightforward as the vicious circle portrayal of poverty leading to environmental destruction leading to more poverty would suggest Does it matter if the relationship is portrayed in this way This book suggests that it does matter Arguing that such a portrayal is unhelpful and misleading the

book brings together a diverse range of analytical frameworks and approaches that can enable a much deeper investigation of the context and nature of poverty environment relationships Analytical frameworks and approaches examined in the book include political ecology a gendered lens Critical Institutionalism the Environmental Entitlements framework the Institutional Analysis and Development approach the Sustainable Livelihoods Framework wellbeing analysis social network analysis and frameworks for the analysis of the governance of natural resources Recommended further reading draws on published material from the last thirty years as well as key contemporary publications giving readers a steer towards essential texts and authors within each subject area Key themes running through the analytical frameworks and approaches are identified and examined including power access institutions and scale

Diversity of Family Farming Around the World

Pierre-Marie Bosc,Jean-Michel Sourisseau,Philippe Bonnal,Pierre Gasselin,Élodie Valette,Jean-François Bélières,2019-01-08

This book aims at explaining the nature and strength of the links between the families and their farms looking at their diversity throughout the world To do so it documents family farming diversity by using the sustainable rural livelihood SRL framework exploring their ability to adapt and transform to changing environments In 18 case studies in Asia Africa Latin America and Europe it shows how family farms resist under adverse conditions seize new opportunities and permanently transform Family farms far from being backwards are potential solutions to face the current challenges and shape a new future for agriculture taking advantage of their local knowledge and capacity to cope with external constraints Many co authors of the book have both an empirical and theoretical experience of family farming in developed and developing countries and their related institutions They specify what makes and means family in family farming and the diversity of their expertise draws a wide and original picture of this resilient way of farming throughout the world

The Comparative Political Economy of Development Barbara Harriss-White,Judith Heyer,2009-12-21 Illustrates the enduring relevance and vitality of the comparative political economy of development approach and presents the relation between theory and empirical material in an interactive way This title offers an explanation of what is happening in the continent of Africa and the sub continent of South Asia

Inside Poverty and Development in Africa

Marcel Rutten,André Leliveld,Dick Foeken,2008-10-15 When discussing development issues in Africa it is not sufficient to simply stress the ubiquity of failure malnutrition disease predatory states and war one also has to recognize that important aspects in the lives of millions of ordinary people have been transformed over the last five decades The contributions in this book are rooted in extensive empirical research at local regional and or national level in different African countries Chad Ethiopia Kenya Lesotho South Africa and Uganda while some take a pan African view All however offer insight from different analytical perspectives into the heterogeneity of poverty and development processes in Sub Saharan Africa and confront the ideas concepts and assumptions that lie behind pro poor policies The volume also encourages policy makers to choose realistic policy prescriptions in an attempt to move people out of poverty

Ecotourism as a Tool for Sustainable Rural Community

Development and Natural Resources Management in the Tonle Sap Biosphere Reserve Neth Baromey, 2008 **At Risk** Piers Blaikie, Terry Cannon, Ian Davis, Ben Wisner, 2014-01-21

The term natural disaster is often used to refer to natural events such as earthquakes hurricanes or floods However the phrase natural disaster suggests an uncritical acceptance of a deeply engrained ideological and cultural myth At Risk questions this myth and argues that extreme natural events are not disasters until a vulnerable group of people is exposed The updated new edition confronts a further ten years of ever more expensive and deadly disasters and discusses disaster not as an aberration but as a signal failure of mainstream development Two analytical models are provided as tools for understanding vulnerability One links remote and distant root causes to unsafe conditions in a progression of vulnerability The other uses the concepts of access and livelihood to understand why some households are more vulnerable than others Examining key natural events and incorporating strategies to create a safer world this revised edition is an important resource for those involved in the fields of environment and development studies

Agile Data-Oriented Research Tools to Support Smallholder Farm System Transformation James Hammond, Mark Van Wijk, Aniruddha Ghosh, Tim Pagella, Jacob Van Etten, 2023-05-09

Smallholder farming systems contribute a substantial quantity of the food consumed in many lower and middle income countries and contribute to the national and local economies Despite the importance of smallholder farming a transformation is needed in order to deliver food security and decent incomes for the farmers themselves and at the national level This transformation must also be sustainable in terms of environmental impacts and social equity in order to be successful in the long term The pressures of population growth climate change and land fragmentation compound the problem Addressing these overlapping issues is a big challenge One obstacle is the lack of good quality granular data linking these issues together Household surveys are the workhorse method for gathering such data but there are well known problems that prevent household survey data from building up a big picture and delivering insights beyond the geographical boundary of each individual study Such obstacles include the lack of access to datasets differences in survey design and respondent biases Agile data oriented research tools can help to overcome these challenges We use the term agile to imply methods that do not attempt exhaustive measurements which are designed to be easy to use and which entail some degree of flexibility in terms of adaptation to local conditions and integration with other tools or methods Often these methods also nudge the behavior of tool users towards best practices In recent years various research tools and approaches have been published which fit within our definition of agile data oriented research tools The domains these tools function in include monitoring and evaluation intervention targeting tailored information delivery citizen science credit scoring and user feedback collection all with the over arching aim to improve data quality and access for those studying the sustainable development of smallholder farming systems The goal of this Research Topic is to better define that niche the ecosystem of tools and current practices and to explore how such approaches can provide the underpinning knowledge required for the transformation of smallholder farming systems One example of an agile

data oriented research tool is the Rural Household Multi Indicator Survey RHoMIS It is a modular digital system for building household surveys addressing the common topics in smallholder development It was purposefully designed to give a broad overview of the farm system whilst keeping survey duration to a minimum to be user friendly in implementation and to be sufficiently flexible to function in a broad variety of locations and projects Since 2015 it has been used by 30 organizations in 32 countries to interview over 34 000 households The tool and database are open access and a community of practice is developing around the tool We particularly welcome contributions that engage with the RHoMIS tool and data However we also describe the tool in order to provide an example of what is meant by an agile data oriented research tool and welcome contributions focusing on other tools or methodologies We encourage the submission of manuscripts addressing the above topic and those which fit within one of the following three sub themes i Perspectives or review articles which explore the niche best practices or promising approaches in agile data oriented research tools for smallholder farm system transformation Also technology and code articles that describe new tools are welcomed ii Original research articles presenting analyses based on data derived from agile data oriented tools used at the project level Examples include impact evaluations adoption studies targeting studies or adaptive management and should reflect on the additional benefit leveraged by the agile method applied iii Original research articles that make use of the large amounts of data generated by such agile methods and or link between agile data and other data sources Examples include meta analyses of data from multiple studies layering data collected from different agile tools or linking agile data to remote sensing or large scale modeling outputs
