Connecticut Reports Connecticut. Supreme Court of Errors,1895 Israel in Africa Yotam Gidron,2020-04-15 Amidst the turmoil of the Middle East few have noticed the extent to which Israel has slowly but surely been building alliances on the African continent Facing a growing international backlash Israel has had to look beyond its traditional Western allies for support and many African governments in turn have been happy to receive Israeli political support security assistance investments and technology But what do these relationships mean for Africa and for wider geopolitics With an examination of Africa s authoritarian development politics the rise of Born Again Christianity and of Israel s thriving high tech and arms industries from the Israeli Palestinian conflict to the migration of Africans to Israel and back again Gidron provides a comprehensive analysis of the various forces and actors shaping Israel s controversial relationships with countries on the continent In particular the book demonstrates that Israel s interest in Africa forms part of a wider diplomatic effort aimed at blocking Palestine s pursuit of international recognition Though the scale of Israeli African engagements has been little appreciated until now the book reveals how contemporary African and Middle Eastern politics and societies interact and impact each other in profound ways Mixed Methods Social Networks Research Silvia Domínguez,Betina

inherent injustices of those in power Chu Huainan's tumultuous journey mirroring China's 20th century challenges raises broader philosophical questions about humanity's search for meaning and values The novel prompts readers to reflect on the futility of rigid belief systems in solving the multifaceted problems of human existence leaving Chu Huainan in a state of confusion and existential questioning Through his personal and political tribulations the novel explores themes of benevolence righteousness and tolerance as enduring values necessary for navigating the complexities of life

Armed Groups Peter G. Thompson, 2023-08-02 Armed Groups is the most comprehensive text to provide a framework for categorizing the key actors that pose a threat to today's security arena terrorists mercenaries insurgents militias and transnational criminal organizations and analyzing their characteristics to provide a thorough overview Drawing on case studies histories and a rich yet underexplored theoretical literature this study presents students with the tools to methodically examine these often

overlooked but key drivers of violence in the international system. Additionally, globalization, the privatization of force, and the return of great power competition have altered the security landscape and enhanced armed group threats. These forces have also led to an increasing overlap between conflict and crime and a growth in the state use of armed group proxies. Coming to terms with armed groups, their objectives, strategies, internal composition, and the environment that fosters them remains a critical task for practitioners, scholars, and policy makers alike in understanding the changing nature of war. This second edition, updated throughout, includes new material on the importance of private military companies, the shift to sub-Saharan Africa as an important center of conflict, the return of great power politics, the increased use of social media and advanced technology, and the increasingly criminalized nature of armed groups.

A Good Day to Die: Inside a suicidal mind

Mahita Vas, 2021-07-15. In 2019, Singapore had 400 reported suicides, with an increasing number of young people choosing to take their lives. Synopsis: It is estimated that 800,000 people globally kill themselves every year. Our post-pandemic world, with its numerous disruptions, has also forced more people to seek help for mental health issues. While much has been said about the toll on mental health, there is little understanding of why people choose to kill themselves, especially when many like celebrities Anthony Bourdain and Kate Spade had so much to live for. Author Mahita Vas has battled suicidal thoughts for all her adult life. She even lost one of those battles and tried to kill herself, only to be rescued within seconds of breathing her last. It is difficult for those left behind to understand why their loved one would choose to die. *A Good Day to Die* offers readers an intimate exploration of an anguished mind, weaving personal experience with academic reports.

Leaving Islam, Ex-Muslims and Zemiology Weronika Lenartowicz, 2024-02-28. Cases of ex-Muslims in Europe being punished by their former fellow Muslims constitute an unacceptable practice from the standpoint of democratic societies in which human rights are respected and individuals have the freedom to choose their religion or none at all. Ex-Muslims' fear of punishment by their former community should prompt an open, candid, and measured discussion of the issue. *Leaving Islam, Ex-Muslims and Zemiology* presents the reasons for and consequences of consciously leaving Islam, based on interviews with 80 ex-Muslims currently living in Germany and Sweden. In their view, many of the practices and beliefs of Islam are harmful and unfair. Many parts of the Islamic world regard apostasy as treason or a crime. As a result, emphasis in the book is shifted from crime to harm, and a thesis is put forward concerning the decriminalization of apostasy from the perspective of zemiology. The book highlights how a broader shift of interest in the democratic structures of Europe could allow ex-Muslims to join the discussion on the guaranteed right to religious liberties and freedom of speech in the context of the apostasy law in Islam. This should happen without fear for their own security and without facing potential suppression or social exclusion. It will appeal to scholars with interest in Islam and the conflict between religious values and an individual's aspirations and needs.
