Hopkins, Edward P. Antonio, 2012-07-26 This volume discusses normative theological categories from a black perspective and argues that there is no major Christian doctrine on which black theology has not commented Part One explores introductory questions such as what have been the historical and social factors fostering a black theology and what are some of the internal factors key to its growth Part Two examines major doctrines which have been important for black theology in terms of clarifying key intellectual foci common to the study of religion The final part discusses black theology as a world wide development constituted by interdisciplinary approaches The volume has an important role in bringing Christian thought into confrontation with one of the central challenges of modernity namely the problem of race and racism This Companion puts theological themes in conversation with issues of ethnicity gender social analysis politics and class and is ideal for undergraduate and graduate students      **The Physiology of Sexist and Racist Oppression** Shannon Sullivan, 2015 This book argues that gender and race are physiologically constituted through the biopsychosocial effects of sexism and racism Sullivan skillfully combines feminist and critical philosophy of race with the biological and health sciences to provide new strategies for fighting male and white privilege      *A Broken Silence* Lena Myers, 2002-02-28 This book addresses the interlocking systems of race and gender in institutions of higher education in

America The study is based on empirical data from African American women of various disciplines in faculty and administrative positions at traditionally white colleges and universities It focuses primarily on narratives of the women in terms of how they are affected by racism as well as sexism as they perform their duties in their academic environments The findings suggest that a common thread exists relative to the experiences of the women The book challenges and dispels the myth that Black progress has led to equality for African American women in the academy The results of this study make it even more critical that the voices of African American women be heard and their experiences in the academy be expressed This may be one way to inform academic and lay readers that racism and sexism are not dead

*Feminism and Men* Steven Schacht, Doris Ewing, 1998-10 Too often feminism has been defined as a woman only arena or in competitive terms of male versus female privilege rather than a cooperative effort to improve the quality of life for everyone Contributors to FEMINISM AND MEN argue that the feminist movement should no longer view with suspicion those men who have proved themselves sympathetic to issues of gender equity

**Women's Human Rights** Shelly Grabe, 2017-10-02 At a United Nations conference in 1995 189 governments adopted the Beijing Platform for Action an international agenda for women's equality and a statement of women's rights as human rights Since that time violations of women's human rights have become a widely documented problem across many academic disciplines international organizations and activist social movements Nevertheless violations against women occur unabated despite widespread commitments internationally to draw increased attention to women's experiences Given that a focus on women's rights was first put forth two decades ago the question remains why do egregious violations of women's rights continue Edited by Shelly Grabe Women's Human Rights A Social Psychological Perspective on Resistance Liberation and Justice

contributes to the discussion of why women's human rights warrants increased focus in the context of globalization and how psychology can provide the currently missing but necessary links between transnational feminism and the discourse on women's human rights and neoliberalism. This volume takes a radically different approach to women's human rights by turning its attention to a variety of disciplines and as a result develops new ideas regarding how psychology can be relevant in the study or actualization of women's human rights. By doing so it makes it very clear for readers as to how activist scholarship can make a unique contribution to the defense of women's rights. Rather than using examples that have been sensationalized throughout academia and advocacy i.e. genital mutilation each of this book's contributing authors has used examples rape sexual orientation homelessness civic participation violence of specific human rights violations that occur the world over in their attempt to make the relevance of psychology to this topic more visible to the reader. Routledge Handbook of Marxism and Post-Marxism Alex Callinicos, Stathis Kouvelakis, Lucia Pradella, 2020-12-29 In the past two decades Marxism has enjoyed a revitalization as a research program and a growth in its audience. This renaissance is connected to the revival of anti-capitalist contestation since the Seattle protests in 1999 and the impact of the global economic and financial crisis in 2007-8. It intersects with the emergence of Post-Marxism since the 1980s represented by thinkers such as Jürgen Habermas, Chantal Mouffe, Ranajit Guha and Alain Badiou. This handbook explores the development of Marxism and Post-Marxism setting them in dialogue against a truly global backdrop. Transcending the disciplinary boundaries between philosophy, economics, politics and history, an international range of expert contributors guide the reader through the main varieties and preoccupations of Marxism and Post-Marxism. Through a series of framing and illustrative essays, readers will explore these traditions starting from Marx and Engels themselves through the thinkers of the Second and Third Internationals, Rosa Luxemburg, Lenin and Trotsky, among others, the Tricontinental and Subaltern and Post-Colonial Studies to more contemporary figures such as Huey Newton, Fredric Jameson, Judith Butler, Immanuel Wallerstein and Samir Amin. The Routledge Handbook of Marxism and Post-Marxism will be of interest to scholars and researchers of philosophy, cultural studies and theory, sociology, political economics and several areas of political science including political theory, Marxism, political ideologies and critical theory. **Marx and the Alternative to Capitalism** Kieran Allen, 2011-05-06 If we are serious about finding a different way to run the post-recession society we must start by introducing alternatives to undergraduates. Kieran Allen begins the task with an accessible and comprehensive look at the ideas of Karl Marx. Dispensing with the dryness of traditional explanations of Marx, Allen shows how Marx's ideas apply to modern society. The first section briefly outlines Marx's life and the development of his work, then goes on to clearly explain his key theories including historical materialism and surplus value. The second section examines alternatives to capitalism, the concept of anti-capitalism and provides concrete contemporary examples of Marx's theories being put into practice in today's world. Women of Color Diane Long Hoeveler, Janet K. Boles, 2001-08-30 Beginning in the late 1960s women's studies

scholars worked to introduce courses on the history literature and philosophies of women While these initial efforts were rather general women s studies programs have started to give increasing amounts of attention to the special concerns of women of color The topic itself is politically charged and there is growing awareness that the issues facing women of color are diverse and complex Expert contributors offer chapters on the major concerns facing women of color in the modern world particularly in the United States and Latin America Each chapter treats one or more groups of women who have been underrepresented in women s studies scholarship or have had their experiences misinterpreted including African Americans Latina Americans Asian Americans and Native Americans Women of Color includes chapters on theories related to race gender and identity One section provides discussions of literature by women of color including works by such authors as Toni Morrison and Maxine Hong Kingston The book also focuses on the place of women of color in higher education including chapters on women of color and the women s studies curriculum and the role of librarians in shaping women s studies programs
