Sexual Bargaining Power Politics In The American Marriage Second Edition:

Sexual Bargaining John Scanzoni, 1982-04 Is the institution of marriage in America breaking down Is marriage as we have known it largely irrelevant Are the forms of marriage changing Are the changes in women's roles in society related to the breakdown irrelevance and formal alteration of marriage In this updated edition of his fundamental study of modern marriage John Scanzoni challenges the widespread assumption that marriage is a dying institution By analyzing the reward seeking which generates conflicts between males and females he shows that marriage indeed has a future but that its form will continue to change as sex role equality emerges both within and outside of marriage

Sexual Bargaining in the Digital Era John H. Scanzoni, 2021-10-05 Sexual Bargaining in the Digital Era follows the evolution of genders sexualities and so on away from their Old Normal ON pattern which prevailed during the Agricultural Age and the Industrial Age and into the New Normal NN pattern which is currently surfacing in concert with an emerging Digital Era ON was based on the ancient traditional script governing how women men children ought to behave within the spheres of genders marriages families relationships sexualities Over the centuries ON eventually modified into the familiar 1950s style nuclear patriarchal cisgender husband wife with children and family And now that style itself is fading away into NN NN is based not on script but on improvisation it is essentially a continual work in progress To make it function the partners engage in ongoing negotiation governed by the principle that everything is negotiable except the principle that everything is negotiable NN has thus far been pursued most frequently by persons New Lights who are educated and relatively advantaged ON has been pursued mostly by persons Old Lights who are less educated and relatively less advantaged ON is also strongly embraced by persons of a traditional religious bent persons who tend to be rigid and unbending in their religious views Currently they tend to be extremely right wing evangelicals and extremely right wing Catholics Importantly their political clout far exceeds their relatively modest numbers within the larger population In brief the shift from ON to NN is a move away from the sanctity of a particular structure to the primacy of persons engaged in ongoing processes of inventing and reinventing certain arrangements of genders marriages families relationships sexualities enabling them to fulfil their needs for primary intrinsic emotional satisfactions such as liking loving empathy companionship sexual and so forth Among other things this shift replaces the preeminence of the historic binary or cisgender approach heterosexual legal children and so on in favor of the diversity variety multiplicity approach which incorporates under one conceptual umbrella all persons of whatever genders sexualities and so on All persons are thus engaged in a common struggle to achieve personal satisfactions as well as contribute to the Greater Good

The Decline in Marriage Among African Americans M. Belinda Tucker, Claudia Mitchell-Kernan, 1995-07-13 In a time when the American family has undergone dramatic evolution change among African Americans has been particularly rapid and acute African Americans now marry later than any other major ethnic group and while in earlier decades nearly 95

percent of black women eventually married today 30 percent are expected to remain single The black divorcee rate has increased nearly five fold over the last thirty years and is double the rate of the general population The result according to The Decline in Marriage Among African Americans is a greater share of family responsibilities being borne by women an increased vulnerability to poverty and violence and an erosion of community ties The original often controversial research presented in this book links marital decline to a pivotal drop in the pool of marriageable black males Increased joblessness has robbed many black men of their economic viability rendering them not only less desirable as mates but also less inclined to take on the responsibility of marriage Higher death rates resulting from disease poor health care and violent crime as well as evergrowing incarceration rates have further depleted the male population Editors M Belinda Tucker and Claudia Mitchell Kernan and the contributors take a hard look at the effects of chronic economic instability and cultural attitudes toward the male role as family provider Their cogent historical analyses suggest that the influence of external circumstances over marriage preferences stems in large part from the profoundly damaging experience of slavery This book firmly positions declining marriage within an ominous cycle of economic and social erosion The authors propose policies for relieving the problems associated the changing marital behavior focusing on support for single parent families public education and increased employment for African American men

For Richer, For Poorer Demie Kurz, 2013-12-02 For Richer For Poorer provides a new perspective on the impact of divorce on women Based on interviews with a random sample of divorced mothers this book identifies their real concerns inadequate resources from their ex husbands and the state and unequal social policies Presenting accounts of how they manage the divorce process divorced women of diverse background describe their attempts to rebuild their own lives and those of their families Demie Kurz proposes a reversal of policies which penalize the single parent family by failing to provide mothers and children with adequate resources

Sourcebook of Family Theories and Methods Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 2008-11-19 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production
