Sexual Bargaining Power Politics In The American Marriage:

Sexual Bargaining John Scanzoni,1982 Is the institution of marriage in America breaking down Is marriage as we have known it largely irrelevant Are the forms of marriage changing Are the changes in women s roles in society related to the breakdown irrelevance and formal alteration of marriage In this updated edition of his fundamental study of modern marriage John Scanzoni challenges the widespread assumption that marriage is a dying institution By analyzing the reward seeking which generates conflicts between males and females he shows that marriage indeed has a future but that its form will continue to change as sex role equality emerges both within and outside of marriage Sexual Bargaining John H. Scanzoni,1964 Sexual Bargaining: Power Politics in the American Marriage John H. Scanzoni,1972 **Sexual Bargaining in the Digital Era** John H. Scanzoni,2021-10-05 Sexual Bargaining in the Digital Era follows the evolution of genders sexualities and so on away from their Old Normal ON pattern which prevailed during the Agricultural Age and the Industrial Age and into the New Normal NN pattern which is currently surfacing in concert with an emerging Digital Era ON was based on the ancient traditional script governing how women men children ought to behave within the spheres of genders marriages families relationships sexualities Over the centuries ON eventually modified into the familiar 1950s style nuclear patriarchal cisgender husband wife with children and family And now that style itself is fading away into NN NN is based not on script but on improvisation it is essentially a continual work in progress To make it function the partners engage in ongoing negotiation governed by the principle that everything is negotiable except the principle that everything is negotiable NN has thus far been pursued most frequently by persons New Lights who are educated and relatively advantaged ON has been pursued mostly by persons Old Lights who are less educated and relatively less advantaged ON is also strongly embraced by persons of a traditional religious bent persons who tend to be rigid and unbending in their religious views Currently they tend to be extremely right wing evangelicals and extremely right wing Catholics Importantly their political clout far exceeds their relatively modest numbers within the larger population In brief the shift from ON to NN is a move away from the sanctity of a particular structure to the primacy of persons engaged in ongoing processes of inventing and reinventing certain arrangements of genders marriages families relationships sexualities enabling them to fulfil their needs for primary intrinsic emotional satisfactions such as liking loving empathy companionship sexual and so forth Among other things this shift replaces the preeminence of the historic binary or cisgender approach heterosexual legal children and so on in favor of the diversity variety multiplicity approach which incorporates under one conceptual umbrella all persons of whatever genders sexualities and so on All persons are thus engaged in a common struggle to achieve personal satisfactions as well as contribute to the Greater Good **Uncoupling** Diane Vaughan,1990-09-05 Drawing from extensive research and in depth interviews an invaluable guide for anyone who wants to understand or prevent the collapse of a relationship How do relationships end Why does one partner suddenly become discontented with the other and why is the

onset of that discontentment not so sudden after all What signals do partners send each other to indicate their doubts Why do those signals so often go unnoticed And how do people who saw themselves as part of a couple come to terms not just with absence and abandonment but with a new single identity This groundbreaking book reveals a process that begins in secret but gradually becomes public implicating not only partners but their social milieu Enlightening accessible and deeply affecting Uncoupling offers a startling vision of what really happens behind the surface when relationships come apart

Men in Transition Kenneth Solomon, 2013-11-11 Every year the few hundred members of the Committees Task Forces and Councils of the American Psychiatric Association meet in Washington D C to conduct their business They deliberate on a wide variety of issues encompassed in the activities of each group The psychiatrists constituting this mixed and somewhat elite group include some of the better known and promising people in the profession which makes the plenary session and cocktail party good occasions to meet old friends and to make new ones Several years ago one of us N B L attended this gathering as a member of a soon to be defunct group the Committee Liaison with the American College of Physicians and met Ann Chappell a member of the Task Force on Women We were soon joined by Richard Grant Ann impressed us with the work her group was doing on issues surrounding the Women s Movement as it relates to patients and the changing roles of the early 1970s She was struck by the fact that although some women had been very active in this endeavor nobody in American psychiatry was addressing issues which are arising in men as a result of the changing roles of women in society Dick and Norm were moved by what she said and decided that they would make an effort to gather together people interested in the issue of the changing roles of males in society at the oncoming meeting of the American Psychiatric Association

A New Look at Love Elaine Hatfield, G. William Walster, 1985 This fascinating review of what social psychologists know about love sex and intimacy puts to rest some tired clichés on the subject Begins by asking What is this thing called love and finds that people distinguish between two kinds of love passionate love and companionate love This study answers a variety of questions about love such as Where is the best place to find someone to love Do men and women want different things from love How can couples make love last Originally published by Addison Wesley in 1978 it won the American Psychological Foundation National Media Award in 1979

Untidy Gender Gul Ozyegin, 2010-04-20 A sophisticated and sensitive text on domestic service in Turkey that singles itself out by a powerful account of the micro sociology of power It engages the reader in much broader debates about the mutual relations of class and gender the role of patriarchal controls in shaping informal female labor markets and the management of status differentials by women in their daily lives An important scholarly contribution written in a lucid and accessible style Deniz Kandiyoti School of Oriental and African Studies University of London Untidy Gender takes readers into the interconnected worlds of Turkish maids and the women who employ them tracing the incorporation of rural migrant women into the interiors of the domestic spheres of the urban middle classes Firmly grounded in data collected through a representative survey of 160 domestic workers in depth interviews and

participant observation in the kinship based communities of domestic workers this book forges a new understanding of the complex interaction between gender and class subordination Ozyegin traces the lives of two kinds of workers those from the squatter settlements who work in a number of locations and those who live with husbands employed as doorkeepers or building superintendents in the basements of middle class apartment buildings In a literal upstairs downstairs arrangement the latter women sometimes take on apartment cleaning for clients in the building At the center of the book are a number of ironies about patriarchy On the surface husbands have absolute control over whether or not their wives work but some women work in secret and those doorkeeper husbands who allow their wives to work often provide child care themselves Ironically the very constraints on the spatial and social mobility of the women creates a labor market in which domestic workers labor is expensive and not readily forthcoming which in turn gives them a degree of power in negotiating their relationship with their middle class employers Untidy Gender offers insights not only into the gender and class dynamics of Turkish society but contributes to the refinement of central terms of feminist scholarship and research on work in the informal sector cross class relations between women gender and class inequality and women s experiences of modernity and urbanization The author ends with a personal account of her own difficulties with the class tensions of the maid employer relationship Untidy Gender makes contributions to a large number of debates in several social science fields and sub fields And it does so on an extraordinarily sound methodological base Ozyegin was able to construct a random sample for her women in the basement This is the gold standard of research and may be unique in the research annals of studies of domestic workers Rae Lesser Blumberg William R Kenan Jr Professor of Sociology University of Virginia This original book sheds new light on the dynamics of modernity and newly constituted urban identities Through a careful ethnographic study of paid domestic work Ozyegin illuminates the varied ways in which relations of class and gender inequalities are shaped and maintained American audiences interested in rural urban migrants in intersectionalities of race class and gender and in identities power and resistance in the workplace will find some of the most compelling ethnography and many valuable theoretical nuggets in this book Pierrette Hondagneu Sotelo Associate Professor Department of Sociology University of Southern California Ozyegin presents a cutting edge analysis of the complexities of modernization by focusing on gender relations While avoiding numerous rhetorical traps around questions of difference Ozyegin seamlessly weaves together a thoughtfully articulated theory with a meticulous empirical analysis of patriarchal and class relations among modern urban women and more traditional migrant women living at the margins of modernity Given its significant substantive and theoretical contributions I will look forward to teaching Untidy Gender in my courses Judith M Gerson Associate Professor Departments of Sociology and Women s Studies Rutgers University New Brunswick Social Structures K. Warner Schaie, Peter Uhlenberg, 2007-03-23 Significant demographic changes are altering the structure of the American population Larger numbers of immigrants are entering the work force will become part of our aging population and increasingly are

providing care for the elderly Family structures and communities are evolving as marriage childbearing divorce and cohabitation trends are changing The working population that supports the elderly physically and economically is also changing and will most likely become smaller and less able to support this growing population What does this mean for the well being of our aging population and our efforts to ensure the quality of life for our elderly now and that we will want to enjoy ourselves as we become part of this older population In this volume Drs Schaie and Uhlenberg and a host of leading scholars look at the current structure of the American population in an effort to determine the impact it will have on the lives of the elderly and those growing older with disabilities and chronic illness They examine the effects of the aging baby boomers on health care migration and immigration and how it can support or tax health care networks cultural issues regarding access to health care and changing cultural attitudes towards marriage and family that are affecting the relationships between the elderly and their communities

Conversing on Gender G. G. Bolich, 2007-08 *Conversing on Gender* is as its subtitle indicates a primer for entering the broad conversation on gender that can be found both inside and outside of academic circles The book considers the relation of gender to sex and sexuality reviews prominent theories of gender and covers basic gender issues

Eliminating Racism Phyllis A. Katz, Dalmas A. Taylor, 2013-06-29 The chapters presented here provide the reader with an awareness of the divergent views of what constitutes racism and frameworks for reducing it This book points out that the dialogue and research on this subject since the mid 1970s have yielded increased controversy over the theories foundation and continued existence of racism Ironically what we viewed in the 1954 Brown decision and the Civil Rights Act of 1964 as the beginning of the end of racism turned out to be the beginning of confusion over the course of action to ensure societal acceptance of political mandates Hence the title of this book captures the essence of the emotional core of any forum for examining racism past and present One of the most controversial forums has been that of education beginning with the U S Supreme Court's 1954 ruling in *Brown v Board of Education* Behind every event that has spawned controversy is a profile in courage It was not a simple decision for the players in the scenario of the *Brown v Board of Education* case to step forward and present themselves as evidence of discrimination Black parents supported by black organizations viewed this legal action as a chance for equal opportunity Yet the 1950s were a time when black communities were pained by the thought that bigotry and institutional racism would forever stand in the way of their achieving equality

Doherty,Ralph LaRossa,Walter R. Schumm,Suzanne K. Steinmetz,2008-11-19 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production Sex and Gender Hilary M. Lips,2020-04-10 Are sex and gender really two different things How malleable is gender identity Do both gender and sex have to be conceptualized as binaries as having two distinct but complementary categories Should we emphasize gender differences or is that the wrong question When should we call a gender difference small Are women really nonaggressive or does that label stem from stereotyping How does subtle or modern sexism work on its targets Scholarship on these and other gender related questions has exploded in recent years Hilary Lips synthesizes that research for students in an accessible and readable way Concepts on sex and gender are presented with the social context in which they were developed As in previous editions Lips takes a multicultural approach discussing the gender experiences of people from a wide range of races cultures socioeconomic statuses and gender and sexual identities She emphasizes empirical research but takes a critical approach to that research **Beyond Equilibrium Theory** M. Ross DeWitt,2000 Beyond Equilibrium Theory is a fundamentally new interpretation of social reality that introduces theories of social formation and transformation for micro and macro analysis of action systems and social movements Equilibrium and conflict are viewed as societal variants rather than as ideal or natural states Classical theorists are placed within a common theoretical framework in an analysis of social order and social change as separate continua Multiple path models trace changing patterns of partnering and power sharing Hypotheses are tested with field collected survey data regression analysis of higher order interactions and comparisons of means adjusted for other effects Researchers are provided with detailed methods of integrating theory and research including nonlinear models and new logics of causality **The Household Economy** Richard R Wilk,2019-07-11 This book focuses on the economic

decisions that must be made in the household It states that domestic activities are commonly grouped into two primary types one having to do with social reproduction the other with the production and consumption of foods **Political Psychology**
