Forever fluid Hanneke Canters, Grace M. Jantzen, 2018-02-28 Forever Fluid is a rich feast of literary and philosophical insight It provides the first English commentary on Luce Irigaray s poetic text Elemental Passions setting it within its context within continental thought It explores Irigaray s images and intentions developing the gender drama that takes place within her book and draws the reader into the conversation in the text between I woman and you man But the book is also much more than this as it uses the exploration of sexual difference as a means to challenge the system of binary logic which has pervaded western thought since Aristotle It develops the exciting idea of a fluid logic which can move beyond oppositions to multiple subjects and creativity of thought and action While challenging Irigaray s refusal to move beyond sexual difference the book shows how her representation of sexual difference enables appreciation of difference of all kinds

Rethinking Culture, Organization and Management Robert McMurray, Alison Pullen, 2020-03-11 The purpose of this book is to reimagine the concept of culture both as an analytical category and disciplinary practice of dominance marginalization and exclusion For decades culture has been perceived as a hot topic It has been written about and deployed as part of a search for excellence as a tool through which to categorise rank motivate and mould individuals as a part of an attempt to align individual and corporate goals as a driver of organizational change and as a servant of profit maximisation The women writers presented in this book offer a different take on culture they offer useful disruptions to mainstream conceptions of culture Joanne Martin and Mary Douglas provide multi dimensional holistic accounts of social relations that point up similarity and difference Rather than offering totalising or prescriptive models each author considers the complex polyphonic and processual nature of culture s while challenging us to acknowledge and work with ambiguity fluidity and disruption In this spirit writings of Judi

Marshall Arlie Hochschild Kathy Ferguson Luce Irigaray and Donna Haraway are employed to disrupt extant management cultures that lionise the masculine and marginalise the concerns perspectives and contributions of women and the diversity of women These writers bring bodies emotions difference resistance and politics back to the centre stage of organizational theory and practice They open us up to the possibility of cultures suffused with multifarious potentiality rather than homogeneity and faux certainty As such they offer new ways of understanding and performing culture in management and organization This book will be relevant to students and researchers across business and management organizational studies critical management studies gender studies and sociology

French Feminisms Gill Allwood, 2012-09-10 In this text Gill Allwood explores theories of masculinity emerging from French feminist theories of gender and from French feminist practice concerning violence towards women highlighting both the commonalities and the specificities of the French case She discusses the particular concern of French theorists with seduction their rejection of the term gender and the centrality of the difference debate In the first part of the book Allwood separately examines feminist theories of gender and sexual difference and the problem of male violence She goes on to consider the developments which are taking place on the borderline between the two examining the way in which these developments have contributed to an understanding of masculinity Readdressing problems and debates that will be familiar to English speaking readers the text exposes cultural differences and similarities in the ways in which these problems are approached and it provides a detailed account of the changes in both feminist action and theory in France in recent years This analysis of feminism in France should be of interest to student and scholars in French studies European studies gender studies and cultural studies

The A to Z of Feminist Philosophy Catherine Villanueva Gardner, 2009 Having emerged only in the past few decades feminist philosophy is rapidly reevaluating and reshaping most fields of philosophy from ethics to logic and Marxism to environmentalism It draws not only on feminist philosophers but criticizes approves or appropriates the work of the leading philosophers throughout history The introduction of The A to Z of Feminist Philosophy provides a useful overview of the subject while the chronology runs the gamut from ancient Greek to contemporary feminist philosophers Dictionary entries cover both the central figures and ideas from the historical tradition of philosophy as well as ideas and theories from contemporary feminist philosophy such as epistemology and topics like abortion and sexuality In addition to including entries on Aristotle Plato Descartes Kant Wollstonecraft Beauvoir and Daly relevant aspects of other fields of philosophy the major concepts and prevailing interpretations and conjectures are also covered A comprehensive bibliography allows for further reading Book Jacket

Essays on Ethics and Feminism Sabina Lovibond, 2015-10-08 Essays on Ethics and Feminism is a selection of the shorter writings of Sabina Lovibond one of the most distinctive voices in contemporary philosophy since the 1980s This work lays claim to a broad thematic unity based on its affiliation to the realist or rationalist traditions in moral philosophy Some of the essays seek to clarify the relation of feminism to these traditions and to current anti rationalist tendencies especially

important here are the status and prospects of normativity autonomy purposive action and other conceptual resources for critical thinking which were called into question over roughly the last third of the twentieth century not least by feminist writers heedful of continental European developments All of the essays are concerned with fundamental ethical questions including but not restricted to questions of feminist ethics such as the nature of value and the good life moral requirements and their associated epistemology character formation and the ideological critique of the processes by which this is effected The essays deploy ideas drawn both from Platonic Aristotelian and from Kantian ethics as well as from the later philosophy of Wittgenstein However they also attempt to respond to the destabilizing impact of Nietzschean and postmodernist thought The writing is addressed to those engaged in or with some interest in academic philosophy and draws on a wide range of philosophical source materials but avoids unnecessary technicality In the same way it should appeal to those with a pre existing interest in academic feminism and in some forms of feminist activism but could also serve to draw new readers into the domain of feminist thought

Sex between Body and Mind Katie Sutton, 2019-11-25 Ideas about human sexuality and sexual development changed dramatically across the first half of the 20th century As scholars such as Magnus Hirschfeld Iwan Bloch Albert Moll and Karen Horney in Berlin and Sigmund Freud Wilhelm Stekel and Helene Deutsch in Vienna were recognized as leaders in their fields the German speaking world quickly became the international center of medical scientific sex research and the birthplace of two new and distinct professional disciplines sexology and psychoanalysis This is the first book to closely examine vital encounters among this era s German speaking researchers across their emerging professional and disciplinary boundaries Although psychoanalysis was often considered part of a broader sexual science sexologists increasingly distanced themselves from its mysterious concepts and clinical methods Instead they turned to more pragmatic interventionist therapies in particular to the burgeoning field of hormone research which they saw as crucial to establishing their own professional relevance As sexology and psychoanalysis diverged heated debates arose around concerns such as the sexual life of the child the origins and treatment of homosexuality and transgender phenomena and female frigidity This new story of the emergence of two separate approaches to the study of sex demonstrates that the distinctions between them were always part of a dialogic and competitive process It fundamentally revises our understanding of the production of modern sexual subjects

Luce Irigaray Luce Irigaray, Mary Green, 2008-11-18 Luce Irigaray is one of the world s most important and influential contemporary theorists and this book presents a collection of essays exploring the full range of her work from an international team of academics in many different fields

Same-Sex Cultures and Sexualities Jennifer Robertson, 2008-04-15 This book demonstrates the centrality of sex gender and sexuality to theories of human behaviors and practices Moves beyond other lesbian and gay studies readers by presenting a broader view of the significance of studying same sex cultures and sexualities across cultures Offers readings from all four subfields of anthropology cultural biological linguistic and archaeological along with historical and applied anthropology Includes discussion of biotechnology and

bioethics health and illness language ethnicity identity politics post colonialism kinship development and policymaking

Voracious Children Carolyn Daniel, 2006-02-22 *Voracious Children* explores food and the way it is used to seduce to pleasure and coerce not only the characters within children's literature but also its readers. There are a number of gripping questions concerning the quantity and quality of the food featured in children's fiction that immediately arise: why are feasting fantasies so prevalent especially in the British classics? What exactly is their appeal to historical and contemporary readers? What do literary food events do to readers? Is food the sex of children's literature? The subject of children eating is compelling but why is it that stories about children being eaten are not only horrifying but also so incredibly alluring? This book reveals that food in fiction does far far more than just create verisimilitude or merely address greedy readers' desires. The author argues that the food trope in children's literature actually teaches children how to be human through the imperative to eat good food in a proper controlled manner. Examining timely topics such as childhood obesity and anorexia, the author demonstrates how children's literature routinely attempts to regulate childhood eating practices and only award subjectivity and agency to those characters who demonstrate normal appetites. Examining a wide range of children's literature classics from *Little Red Riding Hood* to *The Lion the Witch and the Wardrobe*, this book is an outstanding and unique enquiry into the function of food in children's literature and it will make a significant contribution to the fields of both children's literature and the growing interdisciplinary domain of food culture and society. [Feminist Philosophy of Religion](#)

Pamela Sue Anderson, Beverley Clack, 2004 *Feminist Philosophy of Religion: Critical Readings* brings together key new writings in this growing field. **Power/Gender** H. Lorraine Radtke, Henderikus J. Stam, Professor Henderikus J. Stam, 1994-01-01 This book investigates the complex strands that inextricably link gender and power relations, demonstrating how gender is constructed through the practices of power. The contributors argue that female and male are shaped not only at the micro level of everyday social interaction but also at the macro level where social institutions control and regulate the practice of gender. *Power/Gender* explores how theorizing on power is affected when gender is taken into account post Foucauldian theory of gender and power: whether it is possible to separate gender and power, the connections between gender and the practice of power in political contexts, and how these connections work in the specific contexts of women's lives, and whether the construction of sex or gender is an expression of power relations. [Introduction to Feminist Jurisprudence](#) Hilaire Barnett, 2013-09-05 This book provides a student text covering the major issues in feminist jurisprudence and to analyse the manner in which both traditional jurisprudence and law have remained a masculine subject.

Resistance, Flight, Creation Dorothea Olkowski, 2000 Thirteen women at the forefront of philosophy locate new feminist points of view within the discipline by rigorously engaging works of contemporary French philosophy. In so doing they both transform the standard practices of the field and carve out new territory. These writers amplify the work of feminist philosophers such as Simone de Beauvoir, Luce Irigaray and Sarah Kofman in ways that are both stylistically and

substantively creative They also appropriate for radical feminist use the works of male philosophers such as Michel Foucault Gilles Deleuze Maurice Merleau Ponty and Jean Paul Sartre The essays illustrate the manner in which feminist philosophers bypass traditional methodology in favor of a disciplinary freedom characterized by fluid methodologies best exemplified in Beauvoir's work and by the employment of imaginative forms including the autobiographical and the poetic The modes of inquiry used here range variously from psychoanalysis and existentialism to deconstruction post structuralism and newly resurgent phenomenology This volume also contains a comprehensive bibliography of feminist thinkers who are enacting French philosophy in English German and French

Deconstruction, Feminist Theology, and the Problem of Difference Ellen T. Armour, 1999-06-15 Ellen T Armour shows how the writings of Jacques Derrida and Luce Irigaray can be used to uncover feminism's white presumptions so that race and gender can be thought of differently In clear concise terms she explores the possibilities and limitations for feminist theology of Derrida's conception of woman and Irigaray's multiple woman as well as Derrida's thinking on race and Irigaray's work on religion

Feminist Perspectives on Law and Literature Laura Schmitz-Justen, Laura A. Zander, Hanna Luise Kroll, Laura Wittmann, 2025-04-21 The interdisciplinary study of law and literature can help us better understand intersectionality and vice versa intersectional feminist perspectives are extremely valuable in the study of law and literature Of course neither feminist nor intersectional approaches are new in and of themselves for decades literary scholarship has studied the impact of particular constellations of gender race and class when it comes to representations of women in literary texts and has succeeded in shaking monolithic and stereotypical notions of womanhood However research at the intersection of law literature and feminism has so far been limited and insular Bringing together more than twenty international researchers from related disciplines this volume is the first to bring questions of intersectional feminism to the forefront of law and literature scholarship From reproductive and trans gender justice in law and literature to feminist practices that intervene in judicial discourse this volume brings into focus a wide range of cultural and legal phenomena in which gender and the law intersect in literary texts The volume's commitment to intersectionality fittingly extends to its very make up the contributors were selected to represent a diverse range of positions in terms of their gender career stage and nationality
