McElroy, 2001-06-15 As feminist and women positive ideas and ideals exploded in the 1960s and 1970s a sexual revolution was forged allowing women a variety of lifestyle choices Many current feminists called gender feminists by some too often are fighting to limit the sexual options of women They view women as victims of patriarchy whom must be protected from making incorrect sexual choices such as choosing to work in pornography or prostitution As a movement author McElroy believes feminism is in danger of drifting from sexual liberation to sexual correctness This work gives a critical overview of the ideological shift among many feminists The issues of sexual correctness are examined in detail showing how the changing ideology is destroying the principle of a woman's body a woman's right and endangering women's right to choose On each issue this work presents alternatives in the individualist traditions that defined the feminism movement for many years

**Communication and Disenfranchisement** Eileen Berlin Ray, 2013-12-02 This volume and its companion case studies book deal with some of the people groups and classes who are living a disenfranchised existence in the United States Whether through birth life events or unfortunate circumstances they are denied full privileges rights and power within the existing societal structure Centered around societal health problems as they relate to socioeconomic status family abuse and health concerns these volumes examine salient issues from several theoretical frameworks including feminist theory and the social construction of reality *Communication and Disenfranchisement* provides theory based essays on topics such as the homeless adult survivors of sexual assault battered women persons with disabilities impoverished women the indigent living in the inner city persons with HIV AIDS the terminally ill and the elderly *Case Studies in Communication and Disenfranchisement* provides parallel case studies applying the issues and concepts discussed in the essays Used together

these books provide theoretically based applications of social health issues within a communication framework. Traditionally, health communication research has emphasized the communication-physical health relationship. Inadvertently, this primary focus has restricted what information has been included under the domain of health communication. These books expand that domain by examining how the communication-disenfranchisement relationship is accomplished, managed, and overcome, and by recognizing the significance of the pragmatic and theoretic implications of this inquiry.

*Sex and Virtue* John S. Grabowski, 2012-08-07. Grabowski offers a compelling rationale for the virtue of chastity that takes into account the sensibilities and challenges of the contemporary world. Raymond Dennehy, Professor Emeritus, University of San Francisco. A welcome addition to an often contentious literature, *Sex and Virtue* provides a theological foundation for consideration of the moral dimensions of human sexuality from a Roman Catholic perspective. Catholic Books Review. In the hope of contributing to the ongoing renewal of moral theology sparked by the Second Vatican Council, John S. Grabowski discusses the systemic application of biblical and virtue-based categories on the topic of sexuality. A number of issues are examined, including the historical setting regarding attitudes and practices concerning sexuality, key biblical, historical, and contemporary resources for articulating a virtue-based approach to sexual ethics, current issues with which such an approach must wrestle, and some description of how to foster growth in moral virtue, particularly chastity. Ultimately, *Sex and Virtue* offers a compelling vision of human sexuality in the light of Christian faith that can provide a viable alternative to dominant cultural ideologies that trivialize sex and concrete practices that can enable growth in moral freedom. *Sex and Virtue* is a splendid result of Grabowski's response to the call of Vatican II to find scriptural support for Catholic moral teaching. The ecumenical potential of this book is tremendous. Christians can only marvel at the resources in scripture for establishing sexual morality, a morality that puts sexuality in service of love, life, and salvation. Janet E. Smith, former professor of moral theology, Sacred Heart Major Seminary of Detroit.

**Research on Women and Girls in the Justice System** ,2000      **Looking at Crime from the Street Level** ,1999      Plenary Papers of the 1999 Conference on Criminal Justice Research and Evaluation--enhancing Policy and Practice Through Research: Research on women and girls in justice system ,2000

Foreword This year s annual conference on criminal justice research and evaluation is a milestone of sorts Some 30 years ago the President s Commission on Law Enforcement and Administration of Justice noted with alacrity that the revolution of scientific discovery had largely bypassed the problems of crime and crime control The method of objective analysis that had been used with stunning success to raise living standards help people live healthier lives and explore the heavens had unaccountably failed to be applied to one of the era s most pressing problems To the great good fortune of succeeding generations the Commission in its wisdom recommended creation of a Federal research agency dedicated to the scientific study of crime and criminal justice with the aim of informing and aiding the work of practitioners The National Institute of Justice the agency established by Congress to carry out that mission has for the past three decades been seeing the returns on that investment multiply Criminology has become a respected field of scholarly inquiry and we have built an impressive body of knowledge that has helped us better understand criminal behavior and the justice system More important the results of scholarly inquiries have been and are being applied to the day to day operations of law enforcement corrections the courts and other elements of the justice system In the conference which revisited the Commission with the theme Enhancing Policy and Practice Through Research we saw how the investment continues to yield returns The plenary sessions in particular emphasized praxis research put to the service of real world situations Because of the distinctiveness of this year s plenary panels we decided to publish them in three separate volumes viewing crime from the street level addressing school violence through research based policy developed through an interdisciplinary approach and understanding the involvement of women and girls in the criminal justice system Sudhir Venkatesh and Richard Curtis bring the ethnographer s perspective to the analysis of street crime analyzing respectively the financial activity of gangs and recent trends in drug dealing Their method distinct from that of conventional quantitative

social science calls for intensive observation over long periods and involves the quest for what is a a iv specific to single places and times and what is generalizable The close up street level observations of study subjects offer singular insights for practitioners who deal with these individuals as offenders In this panel we also benefited from the perspective of Charles Ramsey Chief of the Metropolitan Police Department Washington D C His indication that drug trafficking and gang crime persist in his jurisdiction despite the overall drop in crime offers proof of the ethnographer s caution against facile generalization This year marks the first time the program offices of the Office of Justice Programs OJP the Corrections Program Office the Drug Courts Program Office the Executive Office for Weed and Seed and the Violence Against Women Office have joined the OJP bureaus as conference sponsors Because these offices work so closely with the practitioner community I feel their sponsorship is an added expression of their commitment to research I think they would endorse Chief Ramsey s succinct assessment of the role of research in affecting crime levels in the years to come as bringing to light findings useful for fashioning real world solutions The best way to predict the future the Chief said is to help create it Those who wish to read more can find abstracts of the conference sessions on the World Wide Web at <http://www.ilj.org> Jeremy Travis Director National Institute of Justice

*Theory-Based Assessment, Treatment, and Prevention of Sexual Aggression* Gordon C. Nagayama Hall, 1996-02-29 Sexual aggression is a pervasive societal problem with devastating and sometimes permanent effects on its victims Approximately one in four adults has been either a victim or perpetrator of sexually aggressive behavior Until now a disproportionate amount of attention has been paid to victim based methods of prevention with a corresponding lack of emphasis on the perpetrators of sexual aggression whose rate of recidivism is quite high As psychologists and mental health professionals turn their attention to the assessment and treatment of sexual offenders the need for practical scientifically based information on sexual aggression has become clear In this book Gordon Hall offers suggestions based on state of the science theory and research Using the

Quadripartite Model of sexual aggression to provide a framework for causes and possible solutions it breaks new ground by proposing preventive intervention with potential perpetrators It is a valuable resource for anyone involved in mental health criminology and the judicial system
