Alcohol and Pleasure Stanton Peele, Marcus Grant, 2013-05-13 There is no simple threshold between the experience of drinking and the pleasure it can bring on the one hand, and the pain and suffering caused by alcohol abuse on the other. But if we are to understand the role of alcohol in society, then at the very least we need to acknowledge the pleasure as well as the pain. *Alcohol and Pleasure* aims to bring together existing knowledge on the role of pleasure in drinking and determine whether the concept is useful for scientific understanding and policy consideration.

Performing Sex Breanne Fahs, 2011-11-01 Silver Medalist 2012 Independent Publisher Book Awards in the Women's Issues category, Honorable Mention 2011 ForeWord Book of the Year in the Women's Issues Category. Although conventional wisdom holds that women in the United States today are more sexually liberated than ever before, a number of startling statistics call into question this perceived victory: over half of all women report having faked orgasms, 45 percent of women find rape fantasies erotic, a growing number of women perform same-sex eroticism for the viewing benefit of men, and recent clinical studies label 40 percent of women as sexually dysfunctional. Caught between postsexual revolution celebrations of progress and alarmingly regressive new modes of disempowerment, the forty women interviewed in *Performing Sex* offer a candid and provocative portrait of liberated sex in America. Through this nuanced and complex study, Breanne Fahs demonstrates that despite the constant cooptation of the terms of sexual freedom, women's sexual subjectivities and the ways they continually grapple with shifting definitions of liberation represent provocative spaces for critical inquiry and personal discovery, ultimately generating novel ways of imagining and reimagining power, pleasure, and resistance.

The Praeger Handbook on Women's Cancers Michele A. Paludi, 2014-05-28. Written by experts in psycho-oncology, this book synthesizes the findings of the latest research on women's cancers to empower women to make informed choices about treatment options. Each year, hundreds of thousands of women are diagnosed with cancer in the United States alone. The total number affected is larger still, comprising siblings, parents, partners, and children of these women. In this single volume, work an international team of experts address the physical, medical, and psychological matters that are triggered by a diagnosis of having a form of women's cancer: breast, cervical, endometrial, gestational ovarian, uterine, vaginal, and vulvar, being some of the more common. The handbook examines and explains each type of women's cancer, covering the specifics of incidence, diagnosis, treatment options, and more, providing an up-to-date guide for women and their families to assist in making informed choices about their treatment options. The book includes personal accounts from women who survived cancers and beat their emotional challenges, addresses myths versus realities regarding women's cancers, and covers relevant related topics such as race, sexual orientation, religion, and cancer coping. Special attention is given to the impact of women's cancers on relationships, intimacy, and body image, as well as psychological factors such as anxiety, depression, and fear.

Consuming Bodies Jackie Hogan, Sarah Whetstone, 2024-12-24. Our bodies reveal the values, priorities, anxieties, and material realities of the society in which we are situated, and in contemporary consumer societies, human bodies both reflect the defining characteristics of our time and carry the markers of social hierarchies based on categories such as gender, race, and class. *Consuming Bodies: Body Commodification and Embodiment in Late Capitalist Societies* explores the ways our bodies are increasingly commodified from before birth to after death, through both long-standing forms of commodification: captive labor, sex work, and spectator sports, and newer forms: commercial surrogacy, the thriving trade in human biomaterials, female genital rejuvenation surgery.

global romance tourism and green burial practices among others As this diverse range of topics demonstrates body commodification reaches increasingly into every realm of our lives from our most intimate experiences to encounters with pop culture the beauty industries the medical industrial complex and the state This volume takes a critical perspective on body commodification and embodiment both in the US and across the globe making an important contribution to social scientific understandings of the body both by going beyond the Eurocentric approach that typifies much of the extant scholarly literature and by addressing newly emerging practices that are growing out of techno scientific and social changes
