Price, 2001 No Australian Aboriginal content **Shamanism** Mariko Namba Walter, Eva Jane Neumann Fridman, 2004-12-15 A guide to worldwide shamanism and shamanistic practices emphasizing historical and current cultural adaptations This two volume reference is the first international survey of shamanistic beliefs from prehistory to the present day In nearly 200 detailed readable entries leading ethnographers psychologists archaeologists historians and scholars of religion and folk literature explain the general principles of shamanism as well as the details of widely varied practices What is it like to be a shaman Entries describe region by region the traits such as sicknesses and dreams that mark a person as a shaman as well as the training undertaken by initiates They detail the costumes music rituals artifacts and drugs that shamans use to achieve altered states of consciousness communicate with spirits travel in the spirit world and retrieve souls Unlike most Western books on shamanism which focus narrowly on the individual's experience of healing and trance Shamanism also examines the function of shamanism in society from social political and historical perspectives and identifies the ancient continuous thread that connects shamanistic beliefs and rituals across cultures and millennia
