Sg Ess Physical Anthro Robert Jurmain, Lynn Kilgore, 2005-04

Im/Tb Ess Physical Anthro Jurmain, 2003-07

Social Bonding and Nurture Kinship Maximilian Holland, 2012-10-26 Resolving a decades long divide between what are often held to be incommensurate paradigms Social Bonding and Nurture Kinship unites cultural and biological approaches to social life and kinship The synthesis is non reductive respecting the core tenets of both paradigms and also incorporates psychological attachment theory into the account Praised by adherents of both perspectives the work provides a thorough survey of the theoretical debates and empirical findings across a wide array of disciplines providing students of social behaviour and kinship with a rich and comprehensive resource This work is a powerful example of how social and physical sciences can unite on equal terms without the danger of one being subsumed by the other Both approaches emerge stronger as a result Scholarly Reviews A landmark in the field of evolutionary biology which places genetic determinism in the correct perspective Folia Primatologica Journal I will be strongly recommending this book to all of my advanced undergraduates masters and PhD students as well as to my colleagues Not only does it help to resolve debates that have run for many years but it is also an outstanding example of what can be achieved by immersing oneself in literature from different fields while retaining an intellectual openness and exercising incisive analysis a shining example of what can be achieved when excellent scholars engage fully across disciplinary boundaries Acta Ethologica Journal Maximilian Holland gets to the heart of the matter If he had been in the debate in the 1980s then a lot of subsequent confusion could have been avoided Robin Fox Emeritus Professor of Anthropology Rutgers NAS Member Max Holland has demonstrated extraordinarily thorough scholarship in his exhaustive review of the often contentious discussions of kinship He has produced a balanced synthesis melding the two approaches exemplified in the biological and sociocultural behavioral positions This should be the definitive word on the subject Irwin Bernstein Distinguished Research Professor of Primatology Georgia A brilliant discussion of the relationship between kinship and social bonding as understood in evolutionary biology and in sociocultural anthropology Kirk Endicott Emeritus Professor of Anthropology Dartmouth His synthesis is lucid and effective Holland has produced a significant work of scholarship that will be of interest to a wide swath of the anthropological community Critique of Anthropology Journal A tremendously useful resource for students of kinship in anthropology psychology and biology who are interested in looking beyond the confines of their own discipline highly relevant for anyone interested in this exciting field Social Anthropology Journal Max Holland has provided a wide ranging and deeply probing analysis of the influence of genetic relatedness and social context on human kinship He argues that while genetic relatedness may play a role in the evolution of social behavior it does not determine the forms of such behavior His discussion is exemplary for its thoroughness and should inspire more nuanced ventures in applying Darwinian approaches to sociocultural anthropology Philip Kitcher John Dewey Professor of Philosophy Colombia Fellow of the American Academy of Arts and Sciences Unlike many commentators who

have tackled kinship in the context of biology Holland takes culture seriously and deals fairly with Schneider's arguments This book helps to untangle a long standing disciplinary muddle Richard Feinberg Professor of Anthropology Kent State

The "A.L.A." Index William Isaac Fletcher,1901 *A.L.A. Index to General Literature* American Library Association,1901

The Practical Value of Anthropology to Our Nation Albert Ernest Jenks,1921 **Sport, Spirituality, and Religion**

Tracy J. Trothen,2019-11-22 The research studies included in this Special Issue highlight the fundamental contribution of the knowledge of environmental history to conscious and efficient environment conservation and management The long term perspective of the dynamics that govern the human climate ecosystem is becoming one of the main focuses of interest in biological and earth system sciences Multidisciplinary bio geo archaeo investigations into the underlying processes of human impact on the landscape are crucial to envisage possible future scenarios of biosphere responses to global warming and biodiversity losses This Special Issue seeks to engage an interdisciplinary dialog on the dynamic interactions between nature and society focusing on long term environmental data as an essential tool for better informed landscape management decisions to achieve an equilibrium between conservation and sustainable resource exploitation **Indian Books in Print**,2003 *Scientific American* ,1900 **Monthly List** ,1934 **The Cumulative Book Index** ,1998 A world list of books in the English language **Nomadic Peoples** ,1995 **Whitaker's Cumulative Book List** ,1964 Spatial Information Theory ,1995 **International Books in Print** ,1991 **Ulrich's International Periodicals Directory** Carolyn Farquhar Ulrich,1998 Contains essential bibliographic and access information on serials published throughout the world
