Shades of Black William Cross, 1991-12-18 In this controversial and path breaking book William E Cross Jr presents the diversity and texture that have always been the hallmark of Black psychology Shades of Black explodes the myth that self hatred is the dominant theme in Black identity With a thorough review of social scientific literature on Negro identity conducted between 1936 and 1967 Cross demonstrates that important themes of mental health and adaptive strength have been frequently overlooked by scholars both Black and White obsessed with proving Black pathology He examines the Black Power Movement and critics who credit this era with a comprehensive change in Black self esteem Allowing for a considerable gain in group identity among Black people during this period Cross shows how before this working and middle class and even many poor Black families were able to offer their progeny a legacy of mental health and personal strength that sustained them in their struggles for political and cultural consensus Author note William E Cross Jr is a psychologist and Associate Professor in the Africana Studies and Research Center of Cornell University

in earnest and the divide between rich and poor deepened with the blessing of the political and corporate elites But it is not a political tract it s a kick ass novel that was nominated for the Edgar and the Anthony Awards and made Booklist s Best First Mysteries of the Year The heroine Filomena Buscarsela is an immigrant who experienced tremendous poverty and injustice in her native Ecuador and who grew up determined to devote her life to helping others She tells us that she really should have been a priest but since that avenue was closed to her she chose to become a cop instead The problem is that as one of the first Latinas on the NYPD she is not just a woman in a man s world she is a woman of color in a white man s world And it s hell Filomena is mistreated and betrayed by her fellow officers which leads her to pursue a case independently in the hopes of being promoted to detective for the Rape Crisis Unit Along the way she is required to enforce unjust drug laws that she disagrees with and to betray her own community which ostracizes her as a result in an undercover operation to round up undocumented immigrants Several scenes are set in the East Village art and punk rock scene of the time and the murder case eventually turns into an investigation of corporate environmental crime from a working class perspective that is all too rare in the genre And yet this thing is damn funny too *Dark Shade of Black - 49 verses* Judith Vaddi,2014-06-17 *Dark Shade of Black* is a collection of 49 verses inspired by the agony of love life and heartbreak And so I find Through battles fierce That knights be but The choice of few Endowed and gifted To hearts of snow White as snow And cold as white Who says that dark Is shade of black White be greater far The agony bright Crushing squeezing My heart so tight The verses reveal a journey outlined by reflection and struggle purpose and indifference of the stark reality that there is no greater pain than knowing that in essence we are for all purposes truly alone and also yet that there is life after the pain and the agony In it the darkest nights are also the ones that drive us to find a deeper meaning a greater purpose to that which we call life Pain in a sense catalyses forces and propels us to look within *Dark Shade of Black* is then to some degree a reflection and a humble submission of the trials struggles and the aches that is faced at some level by one and all and also a glance into the reality and promise of hope *Motherlove in Shades of Black* Gloria Thomas Pillow,2014-01-10 This book closely examines the mother figure in six works by African American women at various times in American history Harriet Jacobs s *Incidents in the Life of a Slave Girl* Pauline Hopkins s *Contending Forces* Nella Larsen s *Passing* Gwendolyn Brooks s *Maud Martha* Alice Walker s *The Color Purple* and Toni Morrison s *Beloved* It studies how the mother in each novel negotiates the ragged hostile landscape of a prohibitive environment to love protect and raise her children Delving far deeper than surface explanations it is informed by psychological analysis to reveal the forces that create the unique tensions of the African American mother s life her inspired strategies for survival and the character of the nurturing she gives her children *Shades of Difference* Sujata Iyengar,2013-04-12 Was there such a thing as a modern notion of race in the English Renaissance and if so was skin color its necessary marker In fact early modern texts described human beings of various national origins including English as turning white brown tawny black green or red for any number of reasons from the effects of the sun s rays or imbalance of

the bodily humors to sexual desire or the application of makeup It is in this cultural environment that the seventeenth century London Gazette used the term black to describe both dark skinned African runaways and dark haired Britons such as Scots who are now unquestioningly conceived of as white In *Shades of Difference* Sujata Iyengar explores the cultural mythologies of skin color in a period during which colonial expansion and the slave trade introduced Britons to more dark skinned persons than at any other time in their history Looking to texts as divergent as sixteenth century Elizabethan erotic verse seventeenth century lyrics and Restoration prose romances Iyengar considers the construction of race during the early modern period without oversimplifying the emergence of race as a color coded classification or a black white opposition Rather race embodiment and skin color are examined in their multiple contexts historical geographical and literary Iyengar engages works that have not previously been incorporated into discussions of the formation of race such as Marlowe's *Hero and Leander* and Shakespeare's *Venus and Adonis* By rethinking the emerging early modern connections between the notions of race skin color and gender *Shades of Difference* furthers an ongoing discussion with originality and impeccable scholarship

Shades of Freedom A. Leon Higginbotham Jr., 1998-06-11 Few individuals have had as great an impact on the law both its practice and its history as A. Leon Higginbotham Jr. A winner of the Presidential Medal of Freedom the nation's highest civilian honor he has distinguished himself over the decades both as a professor at Yale the University of Pennsylvania and Harvard and as a judge on the United States Court of Appeals But Judge Higginbotham is perhaps best known as an authority on racism in America not the least important achievement of his long career has been *In the Matter of Color* the first volume in a monumental history of race and the American legal process Published in 1978 this brilliant book has been hailed as the definitive account of racism slavery and the law in colonial America Now after twenty years comes the long awaited sequel *In Shades of Freedom* Higginbotham provides a magisterial account of the interaction between the law and racial oppression in America from colonial times to the present demonstrating how the one agent that should have guaranteed equal treatment before the law the judicial system instead played a dominant role in enforcing the inferior position of blacks The issue of racial inferiority is central to this volume as Higginbotham documents how early white perceptions of black inferiority slowly became codified into law Perhaps the most powerful and insightful writing centers on a pair of famous Supreme Court cases which Higginbotham uses to portray race relations at two vital moments in our history The *Dred Scott* decision of 1857 declared that a slave who had escaped to free territory must be returned to his slave owner Chief Justice Roger Taney in his notorious opinion for the majority stated that blacks were so inferior that they had no right which the white man was bound to respect For Higginbotham Taney's decision reflects the extreme state that race relations had reached just before the Civil War And after the War and Reconstruction Higginbotham reveals the Courts showed a pervasive reluctance if not hostility toward the goal of full and equal justice for African Americans and this was particularly true of the Supreme Court And in the *Plessy v. Ferguson* decision which Higginbotham terms one of the most catastrophic

racial decisions ever rendered the Court held that full equality in schooling or housing for instance was unnecessary as long as there were separate but equal facilities Higginbotham also documents the eloquent voices that opposed the openly racist workings of the judicial system from Reconstruction Congressman John R Lynch to Supreme Court Justice John Marshall Harlan to W E B Du Bois and he shows that ironically it was the conservative Supreme Court of the 1930s that began the attack on school segregation and overturned the convictions of African Americans in the famous Scottsboro case But today racial bias still dominates the nation Higginbotham concludes as he shows how in six recent court cases the public perception of black inferiority continues to persist In *Shades of Freedom* a noted scholar and celebrated jurist offers a work of magnificent scope insight and passion Ranging from the earliest colonial times to the present it is a superb work of history and a mirror to the American soul

Shades of Black Sandra L. Pinkney, 2001 Photographs and poetic text celebrate the beauty and diversity of African American children

John Akomfrah James Harvey, 2023-08-10 The films of John Akomfrah represent one of the most significant bodies of artistic production in the post war era in Britain yet little attempt has been made to analyse the consistencies and divergences across them James Harvey s *John Akomfrah* is the first comprehensive analytic engagement with these films offering sustained close engagement with the artist s core thematic preoccupations and aesthetic tendencies His analysis negotiates the contextual and theoretical layers of Akomfrah s rich and complex films from the intermedial diaspora aesthetics of *Handsworth Songs* 1986 to the intersectional spatial ecopolitics of *Purple* 2017 Positioning Akomfrah in the burgeoning black British arts and cultural scene of the 1980s as a member of Black Audio Film Collective Harvey traces the evolution of a critical relationship with the postcolonial archive in his early films through analysis of documentaries made for television in the 1990s and up to more recent film installations in museums and galleries

Black Mosaic Candis Watts Smith, 2019-07-30 Historically Black Americans have easily found common ground on political social and economic goals Yet there are signs of increasing variety of opinion among Blacks in the United States due in large part to the influx of Afro

Latino Afro Caribbean and African immigrants to the United States In fact the very definition of African American as well as who can self identity as Black is becoming more ambiguous Should we expect African Americans shared sense of group identity and high sense of group consciousness to endure as ethnic diversity among the population increases In Black Mosaic Candis Watts Smith addresses the effects of this dynamic demographic change on Black identity and Black politics Smith explores the numerous ways in which the expanding and rapidly changing demographics of Black communities in the United States call into question the very foundations of political identity that has united African Americans for generations African Americans political attitudes and behaviors have evolved due to their historical experiences with American Politics and American racism Will Black newcomers recognize the inconsistencies between the American creed and American reality in the same way as those who have been in the U S for several generations If so how might this recognition influence Black immigrants political attitudes and behaviors Will race be a site of coalition between Black immigrants and African Americans In addition to face to face interviews with African Americans and Black immigrants Smith employs nationally representative survey data to examine these shifts in the attitudes of Black Americans Filling a significant gap in the political science literature to date Black Mosaic is a groundbreaking study about the state of race identity and politics in an ever changing America

Contested Valor Cameron D. McCoy, 2023-11-16 Contested Valor is a challenging examination of the use and status of black Marines in United States military service during the Cold War era

These pioneering men experienced contested military integration as well as multiple forms of institutional and social opposition which called their humanity manhood and rights to full citizenship into question Efforts to undermine their service compromised their right to be counted among the elite and sidelined their story to the fringes of Marine Corps and U S history Cameron McCoy describes the factors and pressures leading to the racial turbulence that surfaced in the Marine Corps from the end of World War II through Vietnam and the measures taken by civilian and Marine officials to maintain and restore organizational integrity based on a foundation of white supremacy He examines the psychological effects of institutionalized racism on African American Marines during the Vietnam era and the emergence of a new generation of black men unwilling to submit to the traditions of a Jim Crow Marine Corps By exploring the realities American society constructed about black Marines this work calls attention to the diverse ways in which these men coped within a strict prejudiced organization and found greater purpose as U S Marines despite an embattled image Contested Valor weaves the experiences of black Americans in the armed forces into the larger tapestry of the American racist past and aptly captures the dilemmas triumphs and pitfalls that the first African American Marines encountered during the contentious eras of World War II Korea and Vietnam McCoy explores the creation of organizational policies designed to minimize their footprint as U S Marines until the social experiment of military integration faded and illustrates the discriminatory practices that further delegitimized their wartime reputation McCoy demonstrates that black Marines absence from the historical record has been compounded by the negligence and oversight of past historians as the Marine Corps reckons with its racist past and its first black Marines
