Shadow Side Of Community And The Growth Of The Self:

The Shadow Side of Community and the Growth of the Self Jacques Le Goff, Mary Wolff-Salin, 1992 Community That Is Christian Julie A. Gorman, 2002-06-01 Over the past thirty years there has been a boom in small groups both in society at large and within the church From Bible studies to MOPS to Alcoholics Anonymous it is estimated that four out of ten Americans belong to a small group that meets regularly for the care and support of its members But are these groups creating true biblical community or do they settle for self focus and personal gain Julie Gorman has studied small groups for decades and presents her analysis insights and suggestions in Community That Is Christian an essential resource for building community in church based small groups This comprehensive book serves both as a text for those who equip leaders or lead small groups and as an interactive manual for small group members helping them transform their relationships into Christ centered community The book begins with biblical support for coming together contrasting it with our often individualistic mind set that undermines community Gorman then sets forth the goals of community and describes the process of transformation She draws from extensive research to address the why and the how of small group ministry giving special attention to gender and cultural distinctions Community That Is Christian provides readers with charts discussion questions and inventories to further help them establish community within their small groups Handbook of Adult Development and Learning Carol Hoare, 2006-03-30 Adult development and learning have always existed as two separate fields of study with development falling under psychology and learning under education Recent advances in theory research and practice however have made it clear that an important reciprocal relationship exists between them advances in development frequently lead to learning and conversely learning quite often fuels development The synchronicity between development and learning is responsible for positive changes in many capacities including insight intelligence reflective and meta cognition personality expression interpersonal competence and self efficacy This synchronicity is also leading to the growth of a new discipline at the borders of adult development and learning The Handbook of Adult Development and Learning is the first to bring together the leading scholars from both adult development and learning to explore what will form the foundation for this new discipline the latest research at the intersection of these fields It examines six major aspects of their intersection foundations key areas of integration the self system higher reaches of development and learning essential contexts and specific applications An introductory chapter explains why it is so important to recognize and fuel the growth of this new discipline Subsequent chapters review the latest theoretical and empirical literature and provide a rich itinerary for future research This handbook is a must read for all who promote optimal aging It will be an invaluable reference for scholars in development and education as well as rich resource for policy makers and practitioners such as corporate executives and human resource personnel **Cross-currents of Jungian Thought** Donald R. The Motives of Self-Sacrifice in Korean American Culture, Family, and Marriage Chul Woo Son, 2014-01-24 The concept of self sacrifice is highly important to Korean Americans With hierarchy of age social status and gender defined roles taking primacy over equality and justice self sacrifice becomes instrumental in maintaining family and social relationships Unfortunately in family relationships sacrifice has more to do with submission and endurance than it does with sacrificial service that is redemptive and mutually beneficial When self sacrifice carries hidden motives coercive responsibility obligation shame guilt or one's reputation that self sacrifice is not self giving neither serving nor being of mutual benefit In this context it is important to explore the attitudes and motives of self sacrifice in Korean American families In unlocking and exploring the dynamics of the theology and practice of self sacrifice for Korean Americans this book explores cultural virtues marital relationships gender inequality domestic violence and their theological implications The author introduces a new approach and model with a proposal for a healthier and a more judicious understanding of self sacrifice for Korean American family relationships The element of equal regard as pertaining to self sacrifice offers Korean Americans a refreshing hope in the perspective of familial relationships and a liberating casting off of culturally and religiously imposed burdens The Korean American family ought to be grounded on a love ethic of equal regard and place its value on mutuality self sacrifice and individual fulfillment When this is done sacrificial love can be understood as justly appropriated for both husbands and wives males and females and parents and children Thus Christian teaching and theology may deliver a more transparent message of true agape and its liberating effects for the marginalized especially women and children

Enhancing sustainable rural development through social capital Dominik Noll, Maria Rivera, 2023-12-05 The first decade of the 21st century marked an important period in global demographics For the first time in human history more people were living in urban than in rural areas Rural and urban regions are closely intertwined and shaped by an ambiguous relationship Rural regions are important deliverers of resources such as food construction materials

or energy and are thus enablers of these urban lifestyles Rural regions are also places of aspiration and desire for a life closer to nature or in search for wilderness or authenticity of rural lifestyles which people from cities would like to explore and experience during their visits This ambiguous relationship is increasingly felt in rural regions in multiple ways e g through emigration of young people the loss of jobs and economic possibilities or the exploitation of land and infrastructure for businesses enabling the flow of resources and capital into cities Rural regions are therefore confronted with numerous challenges For these regions it becomes important to continuously re define or re invent themselves in an increasingly urbanized and economized world by at the same time protecting their natural assets and beauty and enabling both ecologically socially and economically sustainable lifestyles This publication aims to provide comprehensive information on the importance of social capital to achieve long lasting sustainable development that brings prosperity to rural areas Sustainable development in this context is understood as positive development in all three dimensions of the sustainability triangle namely economic social and environmental All of them equally important to create prosper rural areas with the ability to thrive Social capital is the glue that helps people to organize themselves in groups in order to achieve socioeconomic benefits for the whole community However while the significance of social capital for economic and social development has been covered extensively in literature the specific role it plays for sustainable development of rural areas at large could and should be further explored For this both theoretical and practical information is provided with eight illustrative case studies from Austria Spain Portugal and T rkiye that serve as best practice examples These case studies show how communities achieve positive development in all three sustainability dimensions through the strengthening of social capital At the end of the book we discuss the significance of social capital for the success of these case studies and present a new definition of social capital that integrates the economic social and environmental dimension
