## **Shadows And Wind A View Of Modern Vietnam:**

Shadows and Wind Robert Templer, 1999-09-01 In *Shadows and Wind* Robert Templer paints a fascinating and fresh picture of a country usually viewed with hazy nostalgia or deep suspicion Here is Hanoi an increasingly tense and troubled city approaching its millennium but uncertain of its direction Here are people emerging from a long wilderness of malnutrition discovering a new lifestyle of leisure and luxury And everywhere are the anomalies that burst the bubble of optimism a vastly expensive luxury hotel sitting empty in an unknown town six hours from an international airport museums crammed with fake exhibits And there remains the one party Communist state still wrapped in secrecy and corruption and making for an uneasy bedfellow with the rapacious capitalism it now encourages Drawing on hundreds of interviews in Vietnam and years of research Robert Templer has produced the first in depth examination of the problems facing modern Vietnam *Shadows and Wind* is essential reading for anyone who wants to understand the Vietnam that now has emerged from a century of conflict with both foreign powers and with itself      **After the Massacre** Heonik Kwon, 2006 Though a generation has passed since the massacre of civilians at My Lai the legacy of this tragedy continues to reverberate throughout Vietnam and the rest of the world This text considers how Vietnamese villagers have assimilated the catastrophe of these mass deaths into their everyday ritual lives      Remnants of Empire in Algeria and Vietnam Pamela A. Pears, 2004-01-01 *Remnants of Empire in Algeria and Vietnam* proposes a new approach to Francophone Studies through an examination of four specific Algerian and Vietnamese novels written in French by women The connections between their works and shared colonial history lead us to a deeper understanding of postcolonial literature      *The Aggressors* Martin Scott Catino, 2010-05      *The Afterlife of America's War in Vietnam* Gordon Arnold, 2006-07-19 The fall of Saigon in 1975 signaled the end of America's longest war Yet in many ways the conflict was far from over Although the actual fighting ended the struggle to find political justification and historical vindication for the Vietnam War still lingered in American consciousness A plethora of images from America's first televised war has kept the conflict all too fresh in the memories of those who lived through it while creating a confusing picture for a younger generation The political process of attaching meaning to historical events has ultimately failed due to the lack of consensus then and now regarding events surrounding the Vietnam War Reviewing the record of American politics film and television this volume provides a brief overview of the war's appearance in American popular culture It examines the ways in which this conflict has consistently resurfaced in social and political life especially in the arena of contemporary world events such as the Soviet incursion into Afghanistan the Gulf War and the 2004 presidential campaign To this end the work explores the contexts and uses of the Vietnam War as a recurring subject The circumstances and symbolism used in the rhetoric of the political elite and the news media including the New York Times the Washington Post Time and Newsweek are discussed Emphasis is also placed on the role of film and television as the book examines movies such as *The Deer Hunter* and *Apocalypse Now* and TV series such as *M A S H* In

weaving together the political and screen appearances of the Vietnam War the book reexamines the influence of a major episode in American history

**Vietnam Past and Present** Andrew Forbes,David Henley,2012-12-26 There can be few people in the world that do not know the name location and recent history of Vietnam Yet beyond the period of US involvement in what Americans call the Vietnam War how much is really known Almost no Vietnamese bear a grudge against the USA but this is less true for China Vietnam s close neighbor mentor and rival for more than two thousand years For example Vietnamese like to name their streets after what they consider to have been acts of foreign aggression and in Hanoi no fewer than 119 streets are named after acts of Chinese and French aggression By contrast just two are named for acts of American aggression Based on an intimate personal knowledge of Vietnam extending over two decades this book explores Hanoi and the North It leads the reader not just across contemporary Tonkin but also through its long history linking the present day with the distant past 62 000 words 81 contemporary images 38 historical images 4 maps Glossary Bibliography

*In the Dragon's Shadow* Sebastian Strangio,2020-09-22 A timely look at the impact of China s booming emergence on the countries of Southeast Asia Today Southeast Asia stands uniquely exposed to the waxing power of the new China Three of its nations border China and five are directly impacted by its claims over the South China Sea All dwell in the lengthening shadow of its influence economic political military and cultural As China seeks to restore its former status as Asia s preeminent power the countries of Southeast Asia face an increasingly stark choice flourish within Beijing s orbit or languish outside of it Meanwhile as rival powers including the United States take concerted action to curb Chinese ambitions the region has emerged as an arena of heated strategic competition Drawing on more than a decade of on the ground experience Sebastian Strangio explores the impacts of China s rise on Southeast Asia the varied ways in which the countries of the region are responding and what it might mean for the future balance of power in the Indo Pacific

*The Bamboo Gulag* Nghia M. Vo,2015-04-02 This comprehensive review of the gulag system instituted in communist Vietnam explores the three pronged approach that was used to convert the rebellious South into a full fledged communist country after 1975 This book attempts to retrace the path of these imprisoned people from the last months of the war to their escape from Vietnam and explores the emotions that gripped them throughout their stay in the camps Individual reactions to the camps varied depending on philosophical emotional and moral beliefs This reconstruction of those years serves as a memoir for all who were incarcerated in the bamboo gulags

**The Long Reckoning** George Black,2023-03-28 The moving story of how a small group of people including two Vietnam veterans forced the U S government to take responsibility for the ongoing horrors agent orange and unexploded munitions inflicted on the Vietnamese Fifty years after the last U S service member left Vietnam the scars of that war remain This is the remarkable

story of a group of individuals determined to heal those enduring wounds Elliot Ackerman author of *The Fifth Act* and 2034 *The American war in Vietnam* has left many long lasting scars that have not yet been sufficiently examined The worst of them were inflicted in a tiny area bounded by the demilitarized zone between North and South Vietnam and the Ho Chi Minh Trail in neighboring Laos That small region saw the most intense aerial bombing campaign in history the massive use of toxic chemicals and the heaviest casualties on both sides In *The Long Reckoning* George Black recounts the inspirational story of the small cast of characters veterans scientists and Quaker inspired pacifists and their Vietnamese partners who used their moral authority scientific and political ingenuity and sheer persistence to attempt to heal the horrors that were left in the wake of the military engagement in Southeast Asia Their intersecting story is one of reconciliation and personal redemption embedded in a vivid portrait of Vietnam today with all its startling collisions between past and present in which one time mortal enemies in the endless shape shifting of geopolitics have been transformed into close allies and partners *The Long Reckoning* is being published on the fiftieth anniversary of the day the last American combat soldier left Vietnam

**Heritage Conservation and Japan's Cultural Diplomacy** Natsuko Akagawa, 2014-07-25 Japan's heritage conservation policy and practice as deployed through its foreign aid programs has become one of the main means through which post World War II Japan has sought to mark its presence in the international arena both globally and regionally Heritage conservation has been intimately linked to Japan's sense of national identity in addition to its self portrayal as a responsible global and regional citizen This book explores the concepts of heritage nationalism and Japanese national identity in the context of Japanese and international history since the second half of the nineteenth century In doing so it shows how Japan has built on its distinctive approach to conservation to develop a heritage based strategy which has been used as part of its cultural diplomacy designed to increase its soft power both globally and within the Asian region More broadly Natsuko Akagawa underlines the theoretical nexus between the politics of heritage conservation cultural diplomacy and national interest and in turn highlights how issues of heritage conservation practice and policy are crucial to a comprehensive understanding of geopolitics *Heritage Conservation and Japan's Cultural Diplomacy* will be of great interest to students scholars and professionals working in the fields of heritage and museum studies heritage conservation international relations and Asian Japanese studies

*Corruption in Asia* Timothy Lindsey, Howard W. Dick, 2002 Multilateral and bilateral aid agencies now direct much of their East Asia activities to so called governance reform Almost every major development project in the region must now be justified in these terms and will usually involve an element of legal institutional reform anti corruption initiatives or strengthening of civil society and often a mix of all of these Most are in fact major exercises in social engineering Aid agencies and major multilateral players like the IMF the World Bank and the Asian Development Bank are attempting not just to improve governance systems and combat corruption but implicitly to restructure entire national political systems and administrative structures Conditionality puts real weight behind these projects If successful they could

transform the face of East Asia Defining governance and understanding corruption are therefore not minor issues of terminology However a great deal of optimism is required to believe that social engineering for good governance will succeed in either Indonesia or Vietnam within the foreseeable future In Indonesia there is neither the political will nor the mechanism to act since the legal system is itself utterly corrupted Better laws have been passed but they fail in implementation In Vietnam the problems are somewhat different but the outcomes are similar Corruption is widely recognised to be a major political social and economic issue even by the Party itself but few cases are ever tried The bureaucracy including the legal system and the party are so complicit that reform is impossible These systemic problems point to the basic flaw in the good governance agenda and strategy A politically powerful alliance of foreign and domestic interests is necessary Foreign multilateral agencies donors and NGOs are able to set the international policy agenda but their domestic allies are politically weak In the absence of rule of law the basic institutions of these transitional societies remain largely as they were and there is as yet no viable alternative system in either Indonesia or Vietnam The argument of this book is that more might be achieved sooner by much better understanding of political legal commercial and social dynamics in Indonesia and Vietnam not as they are meant to be but as they are Multilateral agencies donors NGOs business firms and scholars on the one hand and local politicians bureaucrats business people lawyers journalists academics and NGOs on the other hand have much usefully to discuss Only out of that dialogue a dialogue between the world as it is and the world of ideals can steady progress be made This book examines these problems initially in an abstract theoretical sense before testing the frameworks thus established through a series of case studies of Indonesia and Vietnam two very different Asian states one Vietnam still socialist but in difficult transition from command economy to a limited market structure the other Indonesia embracing a market economy and an emerging democratic system one with a Confucian legal and political tradition the other not one with a socialist the other a civil law legal system The book is divided into three parts The first Frameworks establishes some theoretical approaches to the problem of corruption and governance including a East European example The second part looks at case studies from Indonesia and the third part looks specifically at Vietnam Relevant legislation and judicial decisions can be found in the table of cases and a detailed glossary and list of abbreviations will assist readers unfamiliar with the countries under examination

*Weathering Katrina* Mark J. VanLandingham, Mark VanLandingham, 2017-04-12 In 2005 Hurricane Katrina devastated New Orleans The principal Vietnamese American enclave was a remote low income area that flooded badly Many residents arrived decades earlier as refugees from the Vietnam War and were marginally fluent in English Yet

despite these poor odds of success the Vietnamese made a surprisingly strong comeback in the wake of the flood In Weathering Katrina public health scholar Mark VanLandingham analyzes their path to recovery and examines the extent to which culture helped them cope during this crisis Contrasting his longitudinal survey data and qualitative interviews of Vietnamese residents with the work of other research teams VanLandingham finds that on the principal measures of disaster recovery housing stability economic stability health and social adaptation the Vietnamese community fared better than other communities By Katrina s one year anniversary almost 90 percent of the Vietnamese had returned to their neighborhood higher than the rate of return for either blacks or whites They also showed much lower rates of post traumatic stress disorder than other groups And by the second year after the flood the employment rate for the Vietnamese had returned to its pre Katrina level While some commentators initially attributed this resilience to fairly simple explanations such as strong leadership or to a set of vague cultural strengths characteristic of the Vietnamese and other model minorities VanLandingham shows that in fact it was a broad set of factors that fostered their rapid recovery Many of these factors had little to do with culture First these immigrants were highly selected those who settled in New Orleans enjoyed higher human capital than those who stayed in Vietnam Also as a small tightly knit community the New Orleans Vietnamese could efficiently pass on information about job leads business prospects and other opportunities to one another Finally they had access to a number of special programs that were intended to facilitate recovery among immigrants and enjoyed a positive social image both in New Orleans and across the U S which motivated many people and charities to offer the community additional resources But culture which VanLandingham is careful to define and delimit was important too A shared history of overcoming previous challenges and a powerful set of narratives that describe these successes a shared set of perspectives or frames for interpreting events and a shared sense of symbolic boundaries that distinguish them from broader society are important elements of culture that provided the Vietnamese with some strong advantages in the post Katrina environment By carefully defining and disentangling the elements that enabled the swift recovery of the Vietnamese in New Orleans Weathering Katrina enriches our understanding of this understudied immigrant community and of why some groups fare better than others after a major catastrophe like Katrina

**Memory Is Another Country** Nathalie Huynh Chau Nguyen, 2009-08-25 2010 CHOICE Outstanding Academic Title The act of remembering is a means of bringing the past alive and an imaginative way of dealing with loss It has been the subject of much recent scholarship and is of particular relevance at a time of widespread transnational migration This book is a valuable and original contribution to the field of diaspora studies Based on in depth oral narratives of forty Vietnamese women it deals with themes both universal and specific to this diaspora divergent memories in families the significance of homeland the return to Vietnam cross cultural relationships intergenerational tensions and the issues of silence and unspoken trauma among Vietnamese refugees It is the first study to apply memory and trauma theories to a substantial base of oral narratives by Vietnamese women in the West Nguyen argues

that understanding of these narratives provides not only an insight into the way Vietnamese women have dealt with loss but also illuminates the experience of the wider Vietnamese diaspora and other refugees
