we take a long hard look at ourselves and it is this discerning informed perspective that his book provides Terrorism as Huggins defines it is an act of violence against noncombatants intended to change their political will or support The United States government adds a qualifier to this definition only if the instigator is a subnational group On the contrary Huggins tells us terrorism is indeed used by the state a politically organized body of people occupying a definite territory in this case the government of the United States as well as by such predecessors as the Continental Congress and early European colonists in America In this light America's Use of Terror re-examines key historical moments and processes many of them events praised in American history but actually acts of terror directed at noncombatants The targeting of women and children in Native American villages for instance was a use of terror as were the means used to sustain slavery and then to further subjugate freed slaves under Jim Crow laws and practices The placing of Philippine peasants in concentration camps during the Philippine American War the firebombing of families in Dresden and Tokyo the dropping of atomic bombs on Hiroshima and Nagasaki all are last resort measures to conclude wars and these too are among the instances of American terrorism that Huggins explores Terrorism in short is not only terrorism when they do it to us as many Americans like to think And only when we recognize this and thus the dissonance between the ideal and the real America will we be able to truly understand and confront modern terrorism

House of War James Carroll, 2007-06 An analysis of the Pentagon the military and their vast frequently hidden influence on American life argues that the Pentagon has since its inception operated beyond the control of any force in government or society
