Shagi Novoi Geopolitiki:

The Return of Geopolitics in Europe? Stefano Guzzini, 2012-10-25 A comparative study of the relationship between the end of the Cold War and the resurgence of geopolitics in Europe *Eurasia 2.0* Mark Bassin, Mikhail Suslov, 2016-03-17 This book discusses the return of geopolitical ideas and doctrines to the post Soviet space with special focus on the new phenomenon of digital geopolitics which is an overarching term for different political practices including dissemination of geopolitical ideas online using the internet by political figures and diplomats for legitimation and outreach activity and viral spread of geopolitical memes Different chapters explore the new possibilities and threats associated with this digitalization of geopolitical knowledge and practice Our authors consider new spatial sensibilities and new identities of global as well as local Selves the emergence of which is facilitated by the internet They explore recent reconfigurations of the traditional imperial conundrum of center versus periphery Developing Manuel Castells argument that social activism in the digital era is organized around cultural values the essays discuss new geopolitical ideologies which aim to reinforce Russia's spiritual sovereignty as a unique civilization while at the same time seeking to rebrand Russia as a greater soft power by utilizing the Russian speaking diaspora or employing traditionalist rhetoric Great Power imagery enemy making and visual mappings of Russia's future territorial expansion are traditional means for the manipulation of imperial pleasures and geopolitical fears In the age of new media however this is being done with greater subtlety by mobilizing the grassroots contracting private information channels and de politicizing geopolitics Given the political events of recent years it is logical that the Ukrainian crisis should provide the thematic backdrop for most of the authors *The Changing Geopolitics of Eastern Europe* Dr A H Dawson, Rick Fawn, 2013-11-05 This work covers the uncertain geopolitical situation of some countries of Central and Eastern Europe including some of those which are hoping to enter the European Union in the near future some for which entry is far off and some which may never seek or be eligible for membership *The Ukrainians* Andrew Wilson, 2015-01-01 This is the most acute informed and up to date account of Ukraine and its people In this fourth edition Andrew Wilson refreshes his classic work with a new chapter covering Yanukovych's presidency the uprising on the Kiev Maidan the Russian invasion of eastern Ukraine and the Crimea the rise of Petro Poroshenko and the challenges ahead Page 4 of cover **New Directions in Russian International Studies** Andrei Tsygankov, 2005-03-23 Western social scientists can improve their understanding of post Soviet Russia by studying the new discipline of Russian International Relations IR This collection introduces recent developments in Russian international studies It identifies key trends in Russian IR knowledge that are reflective of the transitional nature of Russia's post Soviet change The volume also demonstrates that Russia remains open to different theoretical and ideological traditions It invites scholars to move away from excessively West centered IR scholarship by exploring indigenous Russian perceptions and inviting dialogue across the globe Andrei Tsygankov and Pavel Tsygankov on Russia's identity and IR theory Alexander Sergunin on post communist international discussions Tatyana Shakleyina and

Europa Stefano Guzzini, 2021-04-27 O fim da Guerra Fria demonstrou a possibilidade histórica de mudar a pacífica e aparentemente mostrou a superioridade das abordagens não realistas nas Relações Internacionais No entanto no período subsequente muitos países europeus experimentaram o ressurgimento de uma realidade distintamente realista a geopolítica Em

geopolítica enfatiza-se de um lado a relação entre política e poder e de outro entre território, localização e ambiente. Este estudo comparativo mostra como o renascimento da geopolítica veio a ocorrer apesar do fim da Guerra Fria, mas por causa dele. Desorientados pelos eventos de 1989 em sua auto-compreensão e na concepção de seus papéis no cenário mundial, muitos atores da política externa europeia usaram o determinismo do pensamento geopolítico para encontrar rapidamente seu lugar na política mundial. O autor desenvolve uma metodologia construtivista que permite estudar mecanismos causais e sua abordagem comparativa permite uma ampla avaliação de algumas das dinâmicas fundamentais da segurança europeia.
