account of a country whose recent history has been not just neglected but largely ignored by the West      Feuding and Warfare Keith F. Otterbein, 2020-12-22 Originally published in 1994 the late Keith F Otterbein's scholarship had followed an overall design since 1962 when he began conducting comparative studies of warfare using both ethnographic and cross cultural methods Through a conceptual framework derived from systems theory he made signal contributions to our understanding of the role of warfare in human social evolution He formulated a Fraternal Interest Group theory utilizing it to explain not only feuding and warfare but also rape and capital punishment Believing that armed combat is learned behaviour he posed questions about its learning process that had yet to be answered He acted as a major synthesizer of the growing literature on warfare and led attempts among anthropologists to apply their knowledge of war and peace to current events This volume will serve both as a useful introduction to the anthropology of war and as a needed compendium of Professor Otterbein's ideas      Native Peoples of the World Steven L. Danver, 2015-03-10 This work examines the world's indigenous peoples their cultures the countries in which they reside and the issues that impact these groups      **AF Press Clips**, 1979
