Theatre, Court and City, 1595-1610 Janette Dillon,2006-11-02 This book explores the vital and interactive relationship between city and court in the drama of Shakespeare s time The growth of purpose built playhouses in late sixteenth century London began to shift the focus of performance for many companies away from provincial touring making the city a more conspicuous presence in drama Janette Dillon looks at relations between drama and city through the wider lens of fashion and commercialism examining in particular the developing West End area along the Strand She argues that the drama is oriented towards both the city of London and the court rather than to one or the other as previous studies have assumed The book is organized around physical and social forms of theatre space It ranges from analysis of well known plays such as Shakespeare s Love s Labour s Lost and Jonson s Epicoene to lesser known drama by Heywood and the newly discovered Jonsonian entertainment Britain s Burse

representations of the common British seaman shaped the early stages of public discourse about Britain's imperial endeavours. Filling that gap in scholarship, *Ships of State* argues that literary representations of seaborne labour play a distinct and crucial role in the early formation of British imperial attitudes. The book analyses these representations across an array of popular genres: New World promotion tracts, civic pageantry, stage drama, and broadside ballads. These genres demonstrate how imaginative modes of discourse both reflected and influenced popular conceptions of the common seaman and, by extension, the national ambitions he represented. Placing these depictions into dialogue with the larger national conversation about maritime expansion, *Ships of State* sheds new light on the role of seaborne labour and its literary representations in creating and sustaining empire. **Shakespeare and Shakespeariana** Meisei Daigaku, Toshokan, 1993

The Culture of Cloth in Early Modern England Dr Roze Hentschell, 2013-04-28 Through its exploration of the intersections between the culture of the wool broadcloth industry and the literature of the early modern period, this study contributes to the expanding field of material studies in sixteenth and seventeenth century England. The author argues that it is impossible to comprehend the development of emerging English nationalism during that time period without considering the culture of the cloth industry. She shows that reaching far beyond its status as a commodity of production and exchange, that industry was also a locus for organizing sentiments of national solidarity across social and economic divisions. Hentschell looks to textual productions, both imaginative and non-fiction works that often treat the cloth industry with mythic importance to help explain how cloth came to be a catalyst for nationalism. Each chapter ties a particular mode, such as pastoral prose, romance, travel, propaganda, satire, and drama, with a specific issue of the cloth industry, demonstrating the distinct work different literary genres contributed to what the author terms the culture of cloth. **Encounter** Stephen Spender, Irving Kristol, Melvin J. Lasky, 1990 **Encounter**, 1990 **Shakespeare and the Truth of Love** J. Bednarz, 2012-04-02 A comprehensive study of Shakespeare's forgotten masterpiece *The Phoenix and Turtle*, Bednarz confronts the question of why one of the greatest poems in the English language is customarily ignored or misconstrued by Shakespeare biographers, literary historians, and critics. **British Book News**, 1989 **British Book News** British Council, 1989 Includes no 53a British wartime books for young people
