criticism relating to Shakespeare's *Coriolanus* was recognised as a major contribution to teaching and scholarship on the play. This new edition has been updated with a new supplementary introduction by the author tracing criticism on the play since that first publication including materialist psychoanalytic and feminist readings as well as further readings of the play's politics. As with all titles in the series, this edition increases our knowledge of how Shakespeare's plays were received and understood by critics, editors and general readers. The volume offers in separate sections both critical opinions about the play across the centuries and an evaluation of their positions within and their impact on the reception of the play. The chronological arrangement of the text excerpts engages the readers in a direct and unbiased dialogue, whereas the substantial introduction offers a critical evaluation from a current stance including modern theories and methods. Thus the volume makes a major contribution to our understanding of the play and of the traditions of Shakespearean criticism surrounding it as they have developed from century to century.

A New Variorum Edition of Shakespeare CORIOLANUS Volume II David George, 2019-01-16

Irregular Doubtful and Emended Accidentals in F1. In the Textual Notes, the lemma is the reading of this edition's text. In these notes for emendations to F1, the lemma is followed by the siglum or sigla of the edition(s) from which the emendation is taken and then by the rejected F1 reading and the siglum or sigla of the 17th c. editions reading differently from the lemma. Where no source is given for the emendation, the adopted reading is not in any of the folios. Doubtful and irregular readings are merely listed. Indicates that the reading is found in a full line, i.e. one that runs all or nearly all of the way to the right margin. Indicates doubt or an alternative to the reading adopted, although not necessarily correct in the judgment of the editor. Elsewhere means that a spelling other than that in the lemma is to be found wherever else that word appears in the F1 text.
