Poems and sonnets** William Shakespeare, 1901 *The Encyclopedia of Christian Literature* George Thomas Kurian, James D. Smith III, 2010-04-16 The written word is one of the defining elements of Christian experience As vigorous in the 1st century as it is in the 21st Christian literature has had a significant function in history and teachers and students need to be reminded of this powerful literary legacy Covering 2 000 years The Encyclopedia of Christian Literature is the first encyclopedia devoted to Christian writers and books In addition to an overview of the Christian literature this two volume set also includes 40 essays on the principal genres of Christian literature and more than 400 bio bibliographical essays describing the principal writers and their works These essays examine the evolution of Christian thought as reflected in the literature of every age The companion volume also features bibliographies an index a timeline of Christian Literature and a list of the greatest Christian authors The encyclopedia will appeal not only to scholars and Christian evangelicals but students and teachers in seminaries and theological schools as well as to the growing body of Christian readers and bibliophiles **Orations, Addresses and Club Essays** George A. Sanders, 1895 **A Life of William Shakespeare** Sir Sidney Lee, 1898 **Teaching Shakespeare Beyond the Major** M. Tyler Sasser, Emma K. Atwood, 2024-02-22 This edited collection considers the task of teaching Shakespeare in general education college courses a task which is often considered

obligatory perfunctory and ancillary to a professor's primary goals of research and upper level teaching. The contributors apply a variety of pedagogical strategies for teaching general education students who are often freshmen or sophomores, non majors and or non traditional students. Offering instructors practical classroom approaches to Shakespeare's language performance and critical theory, the essays in this collection explicitly address the unique pedagogical situations of today's general education college classroom. The Concise Cambridge History of English Literature George Sampson, Reginald

Charles Churchill, 1970-02-02. Based on The Cambridge history of English literature. **Shakespeare, Rhetoric and Cognition** Raphael Lyne, 2011-09-01. Raphael Lyne addresses a crucial Shakespearean question: why do characters in the grip of emotional crises deliver such extraordinarily beautiful and ambitious speeches? How do they manage to be so inventive when they are perplexed? Their dense, complex, articulate speeches at intensely dramatic moments are often seen as psychological: they uncover and investigate inwardness, character and motivation; and as rhetorical, they involve heightened language, deploying recognisable techniques. Focusing on *A Midsummer Night's Dream*, *Othello*, *Cymbeline* and the Sonnets, Lyne explores both the psychological and rhetorical elements of Shakespeare's language. In the light of cognitive linguistics and cognitive literary theory, he shows how Renaissance rhetoric could be considered a kind of cognitive science: an attempt to map out the patterns of thinking. His study reveals how Shakespeare's metaphors and similes work to think, interpret and resolve, and how their struggle to do so results in extraordinary poetry. *Shakespeare's Literary Authorship* Patrick

Cheney, 2008-06-26. This book considers Shakespeare as a literary figure, analysing his full professional career, both poetry and plays. **Dreaming in Books** Andrew Piper, 2009-08. Examining novels, critical editions, gift books, translations and illustrated books, as well as the communities who made them, *Dreaming in Books* tells a wide-ranging story of the book's identity at the turn of the nineteenth century. In so doing, it shows how many of the most pressing modern communicative concerns are not unique to the digital age but emerged with a particular sense of urgency during the bookish upheavals of the romantic era. In revisiting the book's rise through the prism of romantic literature, Piper aims to revise our assumptions about romanticism, the medium of the printed book, and ultimately the future of the book in our so-called digital age. France ,1919 *Architectural Rhetoric in Shakespeare and Spenser* Jennifer C. Vaught,2019-09-23 Jennifer C Vaught illustrates how architectural rhetoric in Shakespeare and Spenser provides a bridge between the human body and mind and the nonhuman world of stone and timber The recurring figure of the body as a besieged castle in Shakespeare's drama and Spenser's allegory reveals that their works are mutually based on medieval architectural allegories exemplified by the morality play *The Castle of Perseverance* Intertextual and analogous connections between the generically hybrid works of Shakespeare and Spenser demonstrate how they conceived of individuals not in isolation from the physical environment but in profound relation to it This book approaches the interlacing of identity and place in terms of ecocriticism posthumanism cognitive theory and Cicero's art of memory *Architectural Rhetoric in Shakespeare and Spenser* examines figures of the permeable body as a fortified yet vulnerable structure in Shakespeare's comedies histories tragedies romances and Sonnets and in Spenser's *Faerie Queene* and *Complaints*
