Shakespeare World Views:

Shakespeare--world Views Heather Kerr, Robin Eaden, Madge Mitton, 1996 Shakespeare World Views comprises fifteen papers concerned with the politics of reading and performance in Australasia Asia and Europe The attention to the history and politics of Shakespeare in performance is matched by an interest in the uses and inscriptions of Shakespeare from postcolonial and new European locations Two very different essays plot Shakespeare's investments in equally different cartographies the unsettled and unsettling geographies of the Comedies and the patriarchal territories of Lucrece's Tragedy Taken together these essays from widely differing geographic political and critical locations attest to the multiplicity of Shakespeares available today This very multiplicity suggests that Shakespeare is being produced as both local and global paradoxically fragmented and monolithic a fertile site both for affinity and contest The effect is a challenge to any easy claim for Shakespeare's unproblematic status as a stable indicator of cultural value In Singh's words this collection manifests the anomalies and contradictions as well as the rich variety of Shakespeares around the world BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Shakespeare and the Geography of Difference John Gillies, 1994-05-12 In this engaging book John Gillies explores Shakespeare's geographic imagination and discovers an intimate relationship between Renaissance geography and theatre arising from their shared dependence on the opposing impulses of taboo laden closure and hubristic expansiveness Dr Gillies shows that Shakespeare's images of the exotic the barbarous outlandish or strange are grounded in concrete historical fact to be marginalised was not just a matter of social status but of belonging quite literally to the margins of contemporary maps Through an examination of the icons and emblems of contemporary cartography Dr Gillies challenges the map makers overt intentions and the attitudes and assumptions that remained below the level of consciousness His study of map and metaphor raises profound questions about the nature of a map and of the connections between the semiology of a map and that of the theatre **Expanding**

Worldviews: Astrobiology, Big History and Cosmic Perspectives Ian Crawford, 2021-06-07 This book collates papers presented at two international conferences held at the Australian National University in 2018 and Birkbeck College London in 2019 exploring the relationships between big history and astrobiology and their wider implications for society These two relatively new academic disciplines aim to integrate human history with the wider history of the universe and the search for life elsewhere The book will show that despite differences in emphasis big history and astrobiology share much in common especially their interdisciplinary approaches and the cosmic and evolutionary perspectives that they both engender Specifically the book addresses the unified all embracing nature of knowledge the impact of big history on humanity and the world at large the possible impact of SETI on astrobiology and big history the cultural signature of Earth's inhabitants beyond our own planet and the political implications of a planetary worldview The principal readership is envisaged to comprise scholars working in the fields of astrobiology big history and space exploration interested in forging

interdisciplinary links between these diverse topics together with educators and a wider public interested in the societal implications of the cosmic and evolutionary perspectives engendered by research in these fields *Shakespeare's History Plays* Neema Parvini, 2017-11-01 *Shakespeare's History Plays* boldly moves criticism of Shakespeare's history plays beyond anti-humanist theoretical approaches. This important intervention in the critical and theoretical discourse of Shakespeare studies summarises, evaluates and ultimately calls time on the mode of criticism that has prevailed in Shakespeare studies over the past thirty years. It heralds a new, more dynamic way of reading Shakespeare as a supremely intelligent and creative political thinker whose history plays address and illuminate the very questions with which cultural historicists have been so preoccupied since the 1980s. In providing bold and original readings of the first and second tetralogies, *Henry VI*, *Richard III*, *Richard II* and *Henry IV* Parts 1 & 2, the book reignites old debates and re-energises recent bids to humanise Shakespeare and to restore agency to the individual in the critical readings of his plays. **Differing Worldviews in Higher Education** D.

Four Arrows, Walter Block, 2011-07-25 Two noted professors on opposite sides of the cultural wars come together and engage in cooperative argumentation. One, a Jewish atheist libertarian, and the other, a mixed-blood American Indian, bring to the table two radically different worldviews to bear on the role of colleges and universities in studying social and ecological justice. The result is an entertaining and enlightening journey that reveals surprising connections and previously misunderstood rationales that may be at the root of a world too polarized to function sanely. **The Cambridge Companion to**

Shakespeare on Film Russell Jackson, 2007-03-29 This companion is a collection of critical and historical essays on the films adapted from and inspired by Shakespeare's plays. The emphasis is on feature films for cinema, with strong coverage of *Hamlet*, *Richard III*, *Macbeth*, *King Lear* and *Romeo and Juliet*. **The Shakespearean International Yearbook** Tom Bishop, Alexa

Huang, 2016-10-26 Shakespearean performances regularly take place at both historic sites and locations with complex resonances such as Shakespeare's Globe Theatre in London and the royal castle of *Hamlet* in Elsinore in Denmark. The present issue of the *Shakespeare International Yearbook* examines the impact of specificities such as festivals and performance sites on our understanding of Shakespeare and globalization. Contributions survey the present state of Shakespeare studies and address issues that are fundamental to our interpretive encounter with Shakespeare's work and his time across the whole spectrum of his literary output. *Creating Worldviews* James W. Underhill, 2013-01-11 Reflecting upon language and the role metaphor plays in patterning ideas and thought, Underhill analyses the discourse of several languages in recent history.

William Shakespeare: The Complete Works William Shakespeare, 2005-04-21 The second Oxford edition of Shakespeare's *Complete Works* reconsiders every detail of their text and presentation in the light of modern scholarship.
