Worship, Civil War and Community, 1638-1660 Chris R. Langley, 2015-10-23 This is the first study of the interaction between warfare and national religious practice during the British Civil Wars Using hundreds of neglected local documents this work explores the manner in which civil conflict invasion and military occupation affected religious practice As Churches elsewhere in Britain and Ireland were dismantled and the country was invaded by a foreign English army mid seventeenth century Scotland provides an important yet neglected point of entry in exploring the intersection between early modern warfare and religious practice The book establishes a fresh way of looking at the conflicts of the mid seventeenth century No other study has explored how soldiers were quartered or marched in close proximity to parish worship how their presence affected worship patterns and how the very idea of conflict in the mid seventeenth century impacted upon the day to day lives of worshippers Using the signing of the National Covenant in 1638 as its starting point this perspective emphasises flexibility in religious practice and the dialogue between local communities religious leaders and troops as a critical element in the experience of war

Persuasion and Conversion Torrance Kirby, 2013-08-22 The early modern public sphere emerges out of a popular culture of persuasion fostered by the Protestant Reformation By 1600 religious identity could no longer be assumed as given within the hierarchical institutions and elaborate apparatus of late medieval sacramental culture Reformers insisted on a sharp demarcation between the inner subjective space of the individual and the external public space of institutional life Gradual displacement of sacramental culture was achieved by means of argument textual interpretation exhortation reasoned opinion and moral advice exercised through both pulpit and press This alternative culture of persuasion presupposes a radically distinct notion of mediation The common focus of the essays collected here is the dynamic interaction of religion and politics which provided a crucible for the emerging modern public sphere
