Creativity and the Poetic Mind Jean Tobin, 2004 Creativity and the Poetic Mind mingles the voices of well known writers such as Nikki Giovanni Donald Hall John Koethe Marge Piercy and Robert Pinsky with newer voices and includes engaging excerpts from interviews with thirty eight American poets Within a sustained argument about creative states of mind this book innovatively presents and explores the technique of going to the place as more reliable in writing poetry than waiting for inspiration It explains why poets frequently believe that talking about their own poetry may damage their creativity and why for centuries inspiration has seemed to come from somewhere beyond the poet In addition it discusses the practicality of poets thinking that being creative and writing poetry are two separate skills inspiration is unreliable but experienced poets create daily **Most Famous Not Yet Known: Memoirs, Titles, Poems, and Quotes** Gijv©

Bethea, 2014-07-14 Joseph Brodsky one of the most prominent contemporary American poets is also among the finest living poets in the Russian language Nevertheless his poetry and the crucial bilingual dimension of his poetic world are still insufficiently understood by Western audiences How did the Russian born Brodsky arrive at his present status as an international man of letters and American poet laureate Has he been created by his bilingual experience or has he fashioned the bilingual self as a necessary precondition for writing poetry in the first place Here David Bethea suggests that the key to Brodsky perhaps the last of the great Russian poets in the bardic mode is in his relation to others or the Other Brodsky s master trope turns out to be triangular vision the tendency to mediate a prior model Dante with a closer model Mandelstam in the creation of a palimpsest like text in which the poet is implicated as a triangulated hybrid of these earlier incarnations In pursuing this theme Bethea compares and contrasts Brodsky to the poet s favorite models Donne Auden Mandelstam and Tsvetaeva and analyzes his fundamental differences with Nabokov the only Russian exile of Brodsky s stature to rival him as a bilingual phenomenon Various critical paradigms

Living in Time Albert Gelpi, 1998-02-19

The Oxford poets of the 1930s: W. H. Auden, C. Day Lewis, Stephen Spender, and Louis MacNeice represented the first concerted British challenge to the domination of twentieth-century poetry by the innovations of American modernists such as Ezra Pound and William Carlos Williams. Known for their radical politics and aesthetic conservatism, the Auden Generation has come to loom large in our map of twentieth-century literary history. Yet Auden's voluble domination of the group in its brief period of association and Auden's sway with critics ever since has made it difficult to hear the others on their own terms and in their own distinct voices. Here, rendered in eloquent prose by one of our most distinguished critics of modern poetry, is the first full-length study of the poetry of C. Day Lewis, a book that introduces the reader to a profoundly revealing and beautifully wrought record of his poetry against the cultural and literary ferment of this century. Albert Gelpi explores in three expansive sections the major periods of the poet's development, beginning with the emergence of Day Lewis in the thirties as the most radical of the Oxford poets. An artist who sought through poetry a way of living in time without traditional religious assurances, Day Lewis went further than his friends in seeking to forge a revolutionary poetry out of his commitment to Marxism. When Stalinism led to his resignation from the Communist Party, Day Lewis in the forties went on to shape a rich, fiercely perceptive poetry out of the convergence of the wartime crisis with the explosive events of his own inner life, intensified by the erotics of a decade-long affair. Returning to his Irish roots and meditating on the persistent tension between agnosticism and faith, in the work of his third and final period Day Lewis wrote some of the most moving poems in the language about mortality and dying, the limits and possibilities of human striving. Through the traumatic changes of his life, C. Day Lewis came increasingly to depend on the intricacies of poetry itself as a way of living in time. His abiding belief in the psychological and moral functions of poetry impelled him in his critical writings and in his own poetic practice to delineate a modern poetics that presents an effective alternative to the
