Architecture as Space Bruno Zevi,1974 *The Look of Architecture* Witold Rybczynski,2001 A bestselling author offers a highly entertaining and insightful look at the meaning and importance of style to architecture This is a book brimming with sharp observations as it shows the connection between architecture interior decoration and fashion 10 line illustrations Archi-Graphic Frank Jacobus,2015-10-27 This informative and engaging book uses a variety of inventive infographics to take an unusual look at architecture in a way that would not be possible with words and images alone Through a variety of different infographics it compares for example the range of materials and colours used by different architects the relative locations of their buildings who influenced who and which architects are the most discussed It also approaches architecture from more unconventional angles with spreads that show the kinds of architecture favoured by dictators the networks of love affairs that architects got entangled in the defining facial features of famous architects and so on Irreverent and entertaining this book will appeal to all those with an interest in architecture or infographics

Architecture in America William A. Coles, Henry Hope Reed,1961 **Time, Place, and Culture** André N. Bourque,2003
Architecture ,1903 *Time, Space and the Human Body: An Interdisciplinary Look* Rafael F. Narváez, Leslie R. Malland,2019-01-04 This volume was first published by Inter Disciplinary Press in 2016 Concerns about the human body and soul and their relationship to the world around us are as old as Western Culture itself Beyond philosophy and theology these sorts of preoccupations have also marked the arts literature and poetry and to be sure they have influenced Western culture and have marked westerners imaginations and our everyday understanding of human nature This book considers various ways in which the body is and has been addressed and depicted over time and it is also a reflection on the ways in which the very spaces that we design and inhabit likewise reflect perceived ideas and misconceptions about the human body **Leap Before You Look** Helen Anne Molesworth, Ruth Erickson,2015-01-01 La exposici n refleja la historia del Black Mountain College BMC fundado en 1933 en Carolina del Norte y concebido como universidad experimental que situaba al arte en el centro de una educaci n liberal que pretend a educar mejor a los ciudadanos para participar en la sociedad democr tica La educaci n era interdisciplinaria y conced a gran importancia al debate la investigaci n y la experimentaci n dedicando la misma atenci n a las artes visuales pintura escultura dibujo que a las llamadas artes aplicadas tejidos cer mica orfebrer a as como a la arquitectura la poes a la m sica y la danza **Why Cities Look the Way They Do** Richard J. Williams,2019-08-08 We tend to think cities look the way they do because of the conscious work of architects planners and builders But what if the look of cities had less to do with design and more to do with social cultural financial and political processes and the way ordinary citizens interact with them What if the city is a process as much as a design Richard J Williams takes the moment construction is finished as a beginning tracing the myriad processes that produce the look of the contemporary global city This book is the story of dramatic but unforeseen urban sights how financial capital spawns empty towering skyscrapers and

hollowed out ghettos how the zoning of once illicit sexual practices in marginal areas of the city results in the reinvention of culturally vibrant gay villages how abandoned factories have been repurposed as creative hubs in a precarious postindustrial economy It is also the story of how popular urban clichés and the fictional portrayal of cities powerfully shape the way we read and see the bricks concrete and glass that surround us Thought provoking and original Why Cities Look the Way They Do will appeal to anyone who wants to understand the contemporary city shedding new light on humanity's greatest collective invention Gaither's Dictionary of Scientific Quotations Carl C. Gaither, Alma E. Cavazos-Gaither, 2008-01-08
