Arts Programming for the Anthropocene Bill Gilbert, Anicca Cox, 2018-11-21 Arts Programming for the Anthropocene argues for a role for the arts as an engaged professional practice in contemporary culture charting the evolution of arts over the previous half century from a primarily solitary practice involved with its own internal dialogue to one actively seeking a larger discourse The chapters investigate the origin and evolution of five academic field programs on three continents mapping developments in field pedagogy in the arts over the past twenty years Drawing upon the collective experience of artists and academicians in the United States Australia and Greece operating in a wide range of social and environmental contexts it makes the case for the necessity of an update to ensure the real world relevance and applicability of tertiary arts education Based on thirty years of experimentation in arts pedagogy including the creation of the Land Arts of the American West LAAW program and Art and Ecology discipline at the University of New Mexico this book is written for arts practitioners aspiring artists art educators and those interested in how the arts can contribute to strengthening cultural resiliency in the face of rapid environmental change *Sweden Through the Artist's Eye* Carl Gustaf Laurin, 1911

Rockefeller, Carnegie, and Canada
Jeffrey Brison,2005-12-01 In the first half of the twentieth century the Rockefeller Foundation and the Carnegie Corporation
helped to create and maintain a cultural and intellectual infrastructure in Canada that benefited key institutions such as
University of Toronto McGill University the National Gallery the Humanities Research Council of Canada and the Canadian
Social Science Research Council Jeffrey Brison documents how American philanthropy facilitated the transformation from a
private localized system of cultural intellectual and academic patronage to a complex nation based system of incorporated
patronage a system in which the major patron was the federal state His study calls into question our essentialistic notions of
contrasting national identities and the now mythologized juxtaposition of an American culture fueled by the free market with
a Canadian one sustained by state support
