Looking At The Overlooked:

Looking at the Overlooked Norman Bryson, 1990 Historically and culturally the societies that produced still life painting could hardly be more diverse What is it then that allows us to place such different types of image in a single category Norman Bryson argues that the family resemblances between the different types of still life stem from their common portrayal of a level of material culture that retains its fundamental outlines through long spans of time and across the boundaries and divisions of national culture the culture of domestic routine and the rituals of hospitality How this low plane reality is historically viewed and inflected by the higher levels and discourses of the surrounding culture is the fundamental subject of this book

Looking at the Overlooked Norman Bryson, 1995 **Charles Sheeler** Mark Rawlinson, 2020-09-08 Charles Sheeler was the stark poet of the machine age Photographer of the Ford Motor Company and founder of the painting movement Precisionism he is remembered as a promoter of and apologist for the industrialised capitalist ethic This major new rethink of one of the key figures of American modernism argues that Sheeler's true relationship to progress was in fact highly negative his precisionism both skewed and imprecise Covering the entire oeuvre from photography to painting and drawing attention to the inconsistencies curiosities and puzzles embedded in Sheeler's work Rawlinson reveals a profound critique of the processes of rationalisation and the conditions of modernity The book argues finally for a re evaluation of Sheeler's often dismissed late work which it suggests may only be understood through a radical shift in our understanding of the work of this prominent figure

Staging Blackness and Performing Whiteness in Eighteenth-Century German Drama Wendy Sutherland, 2017-05-15 Focusing on eighteenth century cultural productions Wendy Sutherland examines how representations of race in philosophy anthropology aesthetics drama and court painting influenced the construction of a white bourgeois German self Sutherland positions her work within the framework of the transatlantic slave trade showing that slavery colonialism and the triangular trade between Europe West Africa and the Caribbean function as the global stage on which German bourgeois dramas by Friedrich Wilhelm Ziegler Ernst Lorenz Rathlef and Theodor Körner and a novella by Heinrich von Kleist on which Körner's play was based were performed against a backdrop of philosophical and anthropological influences Plays had an important role in educating the rising bourgeois class in morality Sutherland argues with fathers and daughters offered as exemplary moral figures in contrast to the depraved aristocracy At the same time black female protagonists in nontraditional dramas represent the boundaries of physical beauty and marriage eligibility while also complicating ideas of moral beauty embodied in the concept of the beautiful soul Her book offers convincing evidence that the eighteenth century German stage grappled with the representation of blackness during the Age of Goethe even though the German states were neither colonial powers nor direct participants in the slave trade **Caterpillars** Harry Berger, 2011 It is rapacity Caterpillars also explores the impact of this message on the meaning of the genre's French name We use the conventional term nature morte dead nature without giving any thought to how misleading it is Because so many portraits of still in bloom are dying it would be more accurate to name the genre nature mourant The subjects of still life are plants that are still living plants that are dying but not yet dead Book Jacket **The Routledge Handbook of Architecture, Urban Space and Politics, Volume I** Nikolina Bobic, Farzaneh Haghighi, 2022-10-28 For architecture and urban space to have relevance in the 21st Century we cannot

merely reignite the approaches of thought and design that were operative in the last century This is despite or because of the nexus between politics and space often being theorized as a representation or by product of politics As a symbol or an effect the spatial dimension is depoliticized Consequently architecture and the urban are halted from fostering any systematic change as they are secondary to the event and therefore incapable of performing any political role This handbook explores how architecture and urban space can unsettle the unquestioned construct of the spatial politics of governing Considering both ongoing and unprecedented global problems from violence and urban warfare the refugee crisis borderization detention camps terrorist attacks to capitalist urbanization inequity social unrest and climate change this handbook provides a comprehensive and multidisciplinary research focused on the complex nexus of politics architecture and urban space Volume I starts by pointing out the need to explore the politics of spatialization to make sense of the operational nature of spatial oppression in contemporary times The operative and active political reading of space is disseminated through five thematics Violence and War Machines Security and Borders Race Identity and Ideology Spectacle and the Screen and Mapping Landscapes and Big Data This first volume of the handbook frames cutting edge contemporary debates and presents studies of actual theories and projects that address spatial politics This Handbook will be of interest to anyone seeking to meaningfully disrupt the reduction of space to an oppressive or neutral backdrop of political realities Chapters 1 and 23 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC BY 4.0 license

Moral Play and Counterpublic Ineke Murakami, 2011-02-25 In this study Murakami overturns the misconception that popular English morality plays were simple medieval vehicles for disseminating conservative religious doctrine On the contrary Murakami finds that moral drama came into its own in the sixteenth century as a method for challenging normative views on ethics economics social rank and political obligation From its inception in itinerate troupe productions of the late fifteenth century moral play served not as a cloistered form but as a volatile public forum This book demonstrates how the genre's apparently inert conventions from allegorical characters to the battle between good and evil for Mankind's soul veiled critical explorations of topical issues Through close analysis of plays representing key moments of formal and ideological innovation from 1465 to 1599 Murakami makes a new argument for what is at stake in the much discussed anxiety around the entwined social practices of professional theater and the emergent capitalist market Moral play fostered a phenomenon that was ultimately more

threatening to the peace of the realm than either theater or the notorious market a political self consciousness that gave rise to ephemeral non elite counterpublics who defined themselves against institutional forms of authority

Gray, 2022-05-15 Who has not in a favored moment stolen the limelight whether inadvertently or by design The implications of such an act of display its illicitness its verve its vertiginous reversal of power its subversiveness are explored in this book Narrative crafting and management of such scenarios are studied across canonical novels by Gide Colette Mauriac and Duras as well as by African Francophone writer Oyono and detective novelist Japrisot As manipulated within narrative acts of display position a viewer or reader from whom response from veneration or desire to repugnance or horror is solicited but this study demonstrates that display can also work subversively destabilising and displacing such a privileged spectator As strategies of displacement these scenarios ultimately neutralise and even occult the very subject they so energetically appear to solicit Powered by gendered tensions this dynamic of display as displacement works toward purposes of struggle resistance or repression

Shepardson Jan R Stenger Claudia Tiersch Edward Watts Jorit Wintjes Dynamic Form Cara L. Lewis, 2020-07-15 Dynamic Form traces how intermedial experiments shape modernist texts from 1900 to 1950 Considering literature alongside painting sculpture photography and film Cara Lewis examines how these arts inflect narrative movement contribute to plot events and configure poetry and memoir As forms and formal theories cross from one artistic realm to another and back again modernism shows its obsession with form and even at times becomes a formalism itself but as Lewis writes that form is far more dynamic than we have given it credit for Form fulfills such various functions that we cannot characterize it as a mere container for content or matter nor can we consign it to ignominy opposite historicism or political commitment As a structure or scheme that enables action form in modernism can be plastic protean or even fragile and works by Henry James Virginia Woolf Mina Loy Evelyn Waugh and Gertrude Stein demonstrate the range of form's operations Revising three major formal paradigms spatial form pure form and formlessness and recasting the history of modernist form this book proposes an understanding of form as a verbal category as a kind of doing Dynamic Form thus opens new possibilities for conversation between modernist studies and formalist studies and simultaneously promotes a capacious rethinking of the convergence between literary modernism and creative work in other media

Moving Pictures, Still Lives James Tweedie, 2018 Moving Pictures Still Lives revisits the cinematic and intellectual atmosphere of the late twentieth century Against the backdrop of the historical fever of the 1980s and 1990s the rise of the heritage industry a global museum building boom and a cinematic fascination with costume dramas and literary adaptations it explores the work of artists and philosophers who complicated the usual association between tradition and the past or modernity and the future Author James Tweedie retraces the archaeomodern turn in films and theory that framed the past as a repository of abandoned but potentially transformative experiments He examines late twentieth century filmmakers who were inspired by old media especially painting and often viewed those art forms as portals to the modern past In detailed discussions of Alain Cavalier Terence Davies Jean Luc Godard Peter Greenaway Derek Jarman Agnès Varda and other key directors the book concentrates on films that fill the screen with a succession of tableaux vivants still lifes illuminated manuscripts and landscapes It also considers three key figures Walter Benjamin Gilles Deleuze and Serge Daney who grappled with the late twentieth century's characteristic concerns including history memory and belatedness It reframes their theoretical work on film as a mourning play for past revolutions and a means of reviving the possibilities of the modern age and its paradigmatic medium cinema during periods of political and cultural retrenchment Looking at cinema and the century in the rear view mirror the book highlights the

unrealized potential visible in the history of film as well as the cinematic phantoms that remain in the digital age

The Cinema of Víctor Erice Linda C. Ehrlich, 2007-02-01 To coincide with the recent DVD release of *The Spirit of the Beehive* this paperback collection of essays focuses on the work of acclaimed Spanish director Víctor Erice. Originally published in hardcover under the title *An Open Window* this expanded edition draws on original essays, reprints and new translations from an international group of writers. New to this edition are four essays from noted film scholars including editor Linda C. Ehrlich as well as three added essays from the filmmaker himself. Both the original and new material provide a deeper appreciation of Erice's three feature length films: *The Spirit of the Beehive* (1973), *El sur* (1982) and *Dream of Light* aka *The Quince Tree Sun* (1992) as well as his shorter works including his most recent accomplishment *La muerte roja* (2006). This anthology examines the aesthetic, historical and sociological forces at work in Erice's films and includes an extensive interview with the director. This broad array of writings provides insight into not only three unforgettable films but also into twentieth century Spanish society as well as world cinema. *The Cinema of Víctor Erice: An Open Window* will serve as an important resource to measure the career of this director who, along with Buñuel, Saura and Almodóvar, has helped show the world the creative range of Spanish cinema. With additional essays, translations and illustrations, this paperback edition explores new avenues of expression pursued by one of the most poetic of modern filmmakers.

Early Modern Spectatorship Ronald Huebert, David McNeil, 2019-06-30 What did it mean to be a spectator during the lifetime of Shakespeare or of Aphra Behn? In *Early Modern Spectatorship* contributors use the idea of spectatorship to reinterpret canonical early modern texts and bring visibility to relatively unknown works. While many early modern spectacles were designed to influence those who watched, the very presence of spectators and their behaviour could alter the conduct and the meaning of the event itself. In the case of public executions, for example, audiences could both observe and be observed by the executioner and the condemned. Drawing on work in the digital humanities and theories of cultural spectacle, these essays discuss subjects as various as the death of Desdemona in *Othello*, John Donne's religious orientation, Ned Ward's descriptions of London and Louis Laguerre's murals painted for the residences of English aristocrats. A lucid exploration of subtle questions, *Early Modern Spectatorship* identifies images and describes the spectator's experience in early modern culture.

Making Sense of Taste Carolyn Korsmeyer, 2014-01-04 Taste, perhaps the most intimate of the five senses, has traditionally been considered beneath the concern of philosophy: too bound to the body, too personal and idiosyncratic. Yet in addition to providing physical pleasure, eating and drinking bear symbolic and aesthetic value in human experience and they continually inspire writers and artists. Carolyn Korsmeyer explains how taste came to occupy so low a place in the hierarchy of senses and why it is deserving of greater philosophical respect and attention. Korsmeyer begins with the Greek thinkers who classified taste as an inferior bodily sense; she then traces the parallels between notions of aesthetic and gustatory taste that were explored in the formation of modern aesthetic theories. She

presents scientific views of how taste actually works and identifies multiple components of taste experiences Turning to taste's objects food and drink she looks at the different meanings they convey in art and literature as well as in ordinary human life and proposes an approach to the aesthetic value of taste that recognizes the representational and expressive roles of food Korsmeyer's consideration of art encompasses works that employ food in contexts sacred and profane that seek to whet the appetite and to keep it at bay her selection of literary vignettes ranges from narratives of macabre devouring to stories of communities forged by shared eating
