Gardner in his crystal clear prose illuminated corners of mathematics especially recreational mathematics that most people had no idea existed. His playful spirit and inquisitive nature invite the reader into an exploration of beautiful mathematical ideas along with him. These columns were both a revelation and a gift when he wrote them; no one before Gardner had written about mathematics like this. They continue to be a marvel. This volume originally published in 1959 contains the first sixteen columns published in the magazine from 1956-1958. They were reviewed and briefly updated by Gardner for this 1988 edition.
